#1 New York Times Bestseller Winner of the 2014 Living Now Book Award for Inspirational Memoir "An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation." —Elizabeth Gilbert Nightline anchor Dan Harrisembarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America ’ s spiritual scene, and leaves them with a takeaway that could actually change their lives.

A brilliant distillation of the key ideas behind successful self-improvement practices throughout history, showing us how they remain relevant today Self-help today is a multi-billion-dollar global industry, one often seen as a by-product of neoliberalism and capitalism. Far from being a recent phenomenon, however, the practice of self-improvement has a long and rich history, extending all the way back to ancient China. For millennia, philosophers, sages, and theologians have reflected on the good life and devised strategies on how to achieve it. Focusing on ten core ideas of self-improvement that run through the world’s advice literature, Anna Katharina Schaffner reveals the ways they have evolved across cultures and historical eras, and why they continue to resonate with us today. Reminding us that there is much to learn from looking at time-honed

models, Schaffner also examines the ways that self-improvement practices provide powerful barometers of the values, anxieties, and aspirations that preoccupy us at particular moments in time and expose basic assumptions about our purpose and nature.

#1 NEW YORK TIMES BESTSELLER • Bren é Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she ’ s showing us how to put those ideas into practice so we can step up and lead. Look for Bren é Brown ’ s new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG  
Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don ’ t pretend to have the right answers; we stay curious and ask the right questions. We don ’ t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don ’ t avoid difficult conversations and situations; we lean into vulnerability when it ’ s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we ’ re choosing not to invest in developing the hearts and minds of leaders at the exact same time as we ’ re scrambling to figure out what we have to offer that machines and AI can ’ t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Bren é Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “ One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It ’ s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It ’ s why we ’ re here. ” Whether you ’ ve read Daring Greatly and Rising Strong or you ’ re new to Bren é Brown ’ s work, this book is for anyone who wants to step up and into brave leadership.

The Experiment  
Slow down the aging process and live well for longer Do you know exactly how and why you age? And what you can do—whatever your current age—to slow that process and have a longer, healthier life? In The Longevity Code, medical doctor Kris Verburgh illuminates the biological mechanisms that make our bodies susceptible to heart attacks, dementia, diabetes, and other aging-related diseases. With the facts laid out, he provides the tools we need to slow down the aging process. His scientifically backed Longevity Staircase outlines a simple yet innovative step-by-step method offering better health and a longer life span — especially the crucial role of proper nutrition and exercise. But diet and exercise might not be the only way to crack the “ longevity code ” : With each passing day, advances in biotechnology that were once the stuff of science fiction are emerging. Dr. Verburgh discusses how new types of vaccines, mitochondrial DNA, CRISPR proteins, and stem cells may help us slow and even reverse aging—now and in the future—and when paired with the right lifestyle, lead to longer, healthier lives than we ’ ve ever imagined.

A groundbreaking exploration of the neuroscience of spirituality and a bold new paradigm for health, healing, and resilience—from a New York Times bestselling author and award-winning researcher “ A new revolution of health and well-being and a testament to, and celebration of, the power within. ” —Deepak Chopra, MD Whether it ’ s meditation or a walk in nature, reading a sacred text or saying a prayer, there are many ways to tap into a heightened awareness of the world around you and your place in it. In The Awakened Brain, psychologist Dr. Lisa Miller shows you how. Weaving her own deeply personal journey of awakening with her groundbreaking research, Dr. Miller ’ s book reveals that humans are universally equipped with a capacity for spirituality, and that our brains become more resilient and robust as a result of it. For leaders in business and government, truth-seekers, parents, healers, educators, and any person confronting life ’ s biggest questions, The Awakened Brain combines cutting-edge science (from MRI studies to genetic research, epidemiology, and more) with on-the-ground application for people of all ages and from all walks of life, illuminating the surprising science of spirituality and how to engage it in our lives: • The awakened decision is the better decision. With an awakened perception, we are more creative, collaborative, ethical, and

innovative. • The awakened brain is the healthier brain. An engaged spiritual life enhances grit, optimism, and resilience while providing insulation against addiction, trauma, and depression. • The awakened life is the inspired life. Loss, uncertainty, and even trauma are the gateways by which we are invited to move beyond merely coping with hardship to transcend into a life of renewal, healing, joy, and fulfillment. Absorbing, uplifting, and ultimately enlightening, The Awakened Brain is a conversation-starting saga of scientific discovery packed with counterintuitive findings and practical advice on concrete ways to access your innate spirituality and build a life of meaning and contribution.

Researcher and thought leader Dr. Bren é Brown offers a powerful new vision in Daring Greatly that encourages us to embrace vulnerability and imperfection, to live wholeheartedly and courageously. 'It is not the critic who counts; not the man who points out how the strong man stumbles, or where the doer of deeds could have done them better. The credit belongs to the man who is actually in the arena, whose face is marred by dust and sweat and blood; who strives valiantly; . . . who at best knows in the end the triumph of high achievement, and who at worst, if he fails, at least fails while daring greatly' -Theodore Roosevelt Every time we are introduced to someone new, try to be creative, or start a difficult conversation, we take a risk. We feel uncertain and exposed. We feel vulnerable. Most of us try to fight those feelings - we strive to appear perfect. Challenging everything we think we know about vulnerability, Dr. Bren é Brown dispels the widely accepted myth that it's a weakness. She argues that vulnerability is in fact a strength, and when we shut ourselves off from revealing our true selves we grow distanced from the things that bring purpose and meaning to our lives. Daring Greatly is the culmination of 12 years of groundbreaking social research, across the home, relationships, work, and parenting. It is an invitation to be courageous; to show up and let ourselves be seen, even when there are no guarantees. This is vulnerability. This is daring greatly. 'Brilliantly insightful. I can't stop thinking about this book' -Gretchen Rubin Bren é Brown, Ph.D., LMSW is a #1 New York Times bestselling author and a research professor at the University of Houston Graduate College of Social Work. Her groundbreaking work was featured on Oprah Winfrey's Super Soul Sunday, NPR, and CNN. Her TED talk is one of the most watched TED talks of all time.
