The third book in the New York Times bestselling series, perfect for fans of Cassandra Clare and Maggie Stiefvater! Ethan Wate thought he was getting used to the strange, impossible events happening in Gatlin, his small Southern town. But now that Ethan and Lena have returned home

from the Great Barrier, strange and impossible have taken on new meanings. Swarms of locusts, record-breaking heat, and devastating storms ravage Gatlin as Ethan and Lena struggle to understand the impact of Lena's Claiming. Even Lena's family of powerful Supernaturals is affected -- and their abilities begin to dangerously misfire. As one question becomes clear: What -- or who -- will need to be sacrificed to save Gatlin?

For Ethan, the chaos is a frightening but welcome distraction. He's being haunted in his dreams again, but this time it's not Lena's mysterious figure following him out of his dreams and into his everyday life. Worse, Ethan is gradually losing pieces of himself -- forgetting names, phone numbers, even memories. He doesn't know why, and he's afraid to ask. Sometimes there's no going back. And this time there

won't be a happy ending. Dark Blade Bloomsbury Publishing Tamsin Greene comes from a long line of witches, and she was supposed to be one of the most Talented among them. But Tamsin's magic never showed up. Now seventeen, Tamsin attends boarding school in Manhattan, far from her family. But

when a handsome young professor mistakes her for her very Talented sister, Tamsin agrees to find a lost family heirloom for him. The search—and the stranger—will prove to be more sinister than they first appeared, ultimately sending Tamsin on a treasure hunt through

time that will unlock the secret of her true identity, unearth the sins of her family, and unleash a power so vengeful that it could destroy them all. This is a spellbinding display of storytelling that will exhilarate, enthrall, and thoroughly enchant. *Dark Moon* Simon and Schuster

The Demon's Surrender

Little, Brown Books for Young Readers
This book examines six different monsters that appear in YA fiction: vampires, shapeshifters, zombies, unicorns, angels, and demons. Beginning with a discussion of the meaning of monsters in cultures all over the world, subsequent chapters discuss the

history and most important incarnations of the aforementioned monsters.

Titles featuring the same kind of monsters are compared, and interviews with authors provide insight into why they wrote these titles and information on why they are important. The bibliography at the end of the volume includes a comprehensive list of titles featuring the various monsters.
