Mercenaries have been active in battle from the beginning of military history and, as private armies and military support firms, they are a major component of warfare today. Security, military advice, training, logistics support, policing, technological expertise, intelligence, transportation—all are outsourced to a greater or lesser degree in the U.S. military. However, privatization is not a uniquely American phenomenon. Countries as diverse as Saudi Arabia and Australia rely on privatization in one form or another. Historically, heads of state, politicians, and other administrators have justified use of mercenaries on the basis of their effectiveness, and cost-savings. These reasons and others continue to serve as rationales for use of private military companies in military

strategy. **Mercenaries: A Guide to Private Armies and Private Military Companies** provides a comprehensive survey and guide to mercenary forces, entrepreneurs, and corporations active on the international military scene today, including a concise history of mercenaries and private armies on land, sea, and in the air. Narrative chapters are amply supplemented by sidebars including biographies of major figures, key statistics, historical and current documents, contracts, and legislation on private armies and outsourced military services. Each chapter includes a bibliography of books, journal articles, and web sites, and a general bibliography concludes the entire work. **Military Professionalism and Humanitarian Law** Manchester University Press

The Return of the Individual Cambridge University Press

North and South Americans of Christian, Jewish, Buddhist, Hindu, and many other backgrounds need to wake up now to the very real danger of the Islamic Sharia law threat. Atheists, agnostics, Muslim-Americans, and secular humanists should also read this book, because they, too, should know that they are facing a loss of freedom and security in Western nations. Western Europeans have awakened too late, to find great swaths of their cities already "Islamicized" and their courts infiltrated by Sharia law. And what is the prime source of Sharia law? It is none other than the Muslim holy book, the Qur'an itself. Wake Up, America serves to arm the readers with the knowledge necessary to argue effectively against anyone who tries

to convince people that Western nations have nothing to fear from the ever encroaching political Islam. "Islamization" of non-Muslim nations has already been going on for centuries, and now it is also occurring in the United States, Canada, and elsewhere in the Western Hemisphere. Wake up, Americans! Read this book to discover for yourselves exactly what the Qur'an commands its Muslim followers to believe and think about non-Muslims, and more importantly, how to behave and act toward all non-Muslims. About the Author Gregory Lang is a native of Oscoda, Michigan. He is a teacher. He has a master's degree in European history from Marquette University and a master's degree in education from Prairie View A&M University.

The Third Wave Rowman & Littlefield
The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the

Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)
The Earth and Its Peoples, Brief Edition, Volume II Nomos Verlag
An incisive account of the impact of socialism on the life and politics of Europe and the former Soviet bloc in the twentieth century. It covers the origins of socialism in those countries where it had most impact.
The Two Red Flags Cambridge University Press
An excellent introductory resource, this compilation covers the major research, literature, and possible future directions of the study of interest groups.
Political Oppositions in Western Democracies Yale University Press
Political conflict in Western democracies has traditionally emerged from politics rooted in competing ideologies and interests. With the rise of politics of identity, political conflict is morphing as political parties align themselves with identities, rather than ideologies or interests.

The Principles of Social Policy provides a powerful exposition of policy making in the contemporary nation state. Social policies are shaped by prevailing political beliefs and values and they are made tangible in the form of overarching policy objectives. These may include, for example, the promotion of equality, the securing of justice or the preservation of liberty. In this text the key principles that underpin social policy in Western democracies are identified and scrutinised in clear, jargon-free language. The aims of this ground breaking text are clearly reflected in its structure. Opening chapters explore the multi-dimensional nature of the values and principles that stand behind political thought. Following this, a discussion of concepts such as equality, justice and freedom reveals the importance of values and principles in shaping the contours of social policy. In conclusion the centrality of the influence of key principles is examined as theoretical ideas introduced earlier in the book are related to the development of

policy and practice in real society. This raises questions about the future of social policy and the serious implications for welfare in a fast changing world. This will be essential reading for students of social policy, applied social studies, politics and other courses concerned with the role of government and the provision of public services.

Ghana Investment and Business Guide Volume 1 Strategic and Practical Information

Global Trends 2040 Atlantic Monthly Press

From Tunisia to Egypt and from Israel to Iran, the debates surrounding the concept of democracy in the Middle East are never straightforward. This has been particularly evident since the events of 2009 in Iran and the uprisings across the Arab world in late 2010 and 2011. Against this backdrop, Democratic Peace across the Middle East critically analyses the prospects for democracy throughout the region, specifically asking whether

political and social modernisation are absolute preconditions for democratic peace to take hold in the region, or whether democracy without modernisation might be enough. It explores the dynamics between neo-patriarchy and Islam on the one hand, and democratisation and modernisation on the other, and also considers the prospect of the political accommodation of opposition groups. Incorporating an analysis of a variety of key dynamics which affect each Middle Eastern country in turn, such as tribal and sectarian identity, Islamism and the structure of political party systems, this book will appeal to those researching the Middle East and its patterns of rule.

Underpinned by the work of major thinkers such as Marx, Locke, Weber, Hobbes and Foucault, the first half of the book looks at political concepts including: the state and sovereignty; the nation; democracy; representation and legitimacy; freedom; equality and rights; obligation; and citizenship. There is also a specific chapter which addresses the role of ideology in the shaping of politics and

society. The second half of the book addresses traditional theoretical subjects such as socialism, Marxism and nationalism, before moving on to more contemporary movements such as environmentalism, ecologism and feminism.

Western Democratic Review

Bloomsbury Publishing

Rechtm ä ß ige Herrschaft auf internationaler Ebene verlangt zunehmend die Einhaltung demokratischer Standards. Das zumindest suggeriert die Prominenz des Demokratiebegriffs in den Reformdebatten internationaler Organisationen. Auf Basis eines neuen Datensatzes, der ein Jahrzehnt Demokratiediskurs von 159 Staaten über den UN-Sicherheitsrat und die UN Generalversammlung abdeckt, liefert das Buch wichtige Einblicke in das Narrativ vom demokratischen Regieren jenseits des Staates, seine Merkmale und seine Funktionsweise. Die Befunde befruchten nicht nur die Forschung zu empirischer Legitimit ä t, Normkontestation und globaler Demokratie. In einer Zeit, in der ideologischer Wettbewerb auf dem Vormarsch ist, zeugen sie auch von

der Kraft der demokratischen Idee.

Democracy in a Russian Mirror Routledge
An analysis of Chinese political culture. It is divided into three major areas: Chinese identities and popular culture (including regional identities); public opinion surveys (the Beijing area, Chinese workers, the Shanghai area); and ideological debates (such as the new Confucianism).

Edited by a Supreme Court Justice, these are essays on the role a judge must play in the legal process across a wide-spectrum of democracies.

AQA AS/A-level Politics Student Guide 1: Government of the UK Dorrance Publishing

In uneasy partnership at the helm of the modern state stand elected party

politicians and professional bureaucrats. This book is the first comprehensive comparison of these two powerful elites. In seven countries--the United States, Great Britain, France, Germany, Sweden, Italy, and the Netherlands--researchers questioned 700 bureaucrats and 600 politicians in an effort to understand how their aims, attitudes, and ambitions differ within cultural settings. One of the authors' most significant findings is that the worlds of these two elites overlap much more in the United States than in Europe. But throughout the West bureaucrats and politicians each wear special blinders and each have special virtues. In a well-ordered polity, the authors conclude, politicians articulate society's dreams and bureaucrats bring them gingerly to earth.

Wolfgang Kraus, one of the most widely read Austrian essayists, is bravely attempts to save the individual from bureaucracy, from drowning in over-organization. He encourages the human race to fight for self-expression and self-determination and against those forces of society which erode the sense of individuality. Kraus takes a long hard look at our civilizations and discusses bureaucratic tyranny from its Asiatic and Byzantine origins to Soviet Communism. In his opinion the Western civilizations are equally guilty of condoning a certain amount of diminishing personal freedom, but he maintains that for the West all is not lost and

that ever growing awareness of the concept of Human Rights, traditions of culture and the arts may prove to be the salvation of the individual.
