school. The Lamb is the grown up age of 11, and he has a little sister, Edith, in tow. The sand fairy has become a creature of stories ... until, for the first time in 10 years, he suddenly reappears. Before this last adventure ends, all will be changed, and the two younger children will have seen the Great War from every possible viewpoint - factory-workers, soldiers and sailors, nurses and ambulance drivers, and the people left at home, and the war's impact will be felt right at the heart of their family.

"The social history of American cities would not be complete without a full account of the rise of community open spaces. Lawson does exactly this by providing a compelling and poetic account of the history and making of urban gardens. Combining solid scholarship with engaging images of the gardens and stories of their makers, this book sheds new light on the value of urban open space. More important, it explains why community gardens need to stand alongside city parks as permanent open spaces. Essential reading for community developers and landscape architects as well as anyone who ventures outside, enthusiasm and shovel in hand, to improve their local environment.—Mark

Francis, author of *Urban Open Space* and *Village Homes* "The definitive history of the past hundred years of America's experience with community gardens. A labor of love by a garden activist, the book appears at a most appropriate time—today our city dwellers and suburbanites are retreating onto carpets of passive open space tended by homeowner associations and lawn care outfits. Lawson thoughtfully analyzes the weaknesses of community gardens when used as a response to social crises and, by contrast, investigates community gardens as an alternative to today's managed care of open space. Her history clearly presents a way of community living that we can elect if we choose her wisdom."—Sam Bass Warner, Jr, author of *To Dwell Is to Garden*

"An important book about how the urban gardening movement is transforming our landscape and reconnecting us to the land."—Alice Waters, Owner, *Chez Panisse*
