The oldest living Crow at the dawn of the twenty-first century, Lillian Bullshows Hogan (1905–2003) grew up on the Crow reservation in rural Montana. In *The Woman Who Loved Mankind* she enthralls readers with her own long and remarkable life and the stories of her parents, part of the last generation of Crow born to nomadic ways. As a child Hogan had a miniature teepee, a fast horse, and a medicine necklace of green beads; she learned traditional arts and food gathering from her mother and experienced the bitterness of Indian boarding school. She grew up to be a complex, hard-working Native woman who drove a car, maintained a bank account, and read the local English paper but spoke Crow as her first language, practiced beadwork, tanned hides, honored clan relatives in generous giveaways, and often visited the last of the old chiefs and berdaches with her family. She married in the traditional Crow way and was a proud member of the Tobacco and Sacred Pipe societies but was also a devoted Christian who helped

establish the Church of God on her reservation. Warm, funny, heartbreaking, and filled with information on Crow life, Hogan's story was told to her daughter, Mardell Hogan Plainfeather, and to Barbara Loeb, a scholar and longtime friend of the family who recorded her words, staying true to Hogan's expressive speaking rhythms with its echoes of traditional Crow storytelling.

Rachel held the letter in her hand as she watched the banker come up the lane. He was taking the farm. Wasn't it enough she'd been widowed 2 years ago. Worse, good meaning townspeople wanted her to disperse her ten children to families who needed them. She had to keep her family together. The letter from the judge in Montana. Her only hope of keeping her family together was to go west to Montana as a mail order bride. Judge Solomon Taggart groaned at having to referee a dispute between the two feuding families. That

even their children were at each other made him doubt the wisdom of sending that letter to the widow in Minnesota. She had children. She didn't say how many, and he hadn't asked. He grabbed his rifle and swung up in the saddle, praying there'd be no bloodshed. And then he prayed he'd been wise to send that letter.

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A Taste of Heaven Piping Plover Press

A groundbreaking history of how the US Post made the nineteenth-century American West. There were five times as many post offices in the United States in 1899 than there are McDonald's restaurants today. During an era of supposedly limited federal government, the United States operated the most expansive national postal system in the world. In this cutting-edge interpretation of the late nineteenth-century United States, Cameron Blevins argues that the US Post wove together two of the era's defining projects: western expansion and the growth of state power. Between the 1860s and the early 1900s, the western United States underwent a truly dramatic reorganization of people, land, capital, and resources. It had taken Anglo-Americans the better part of two hundred years to occupy the eastern half of the continent, yet they occupied the West within a single generation. As millions of settlers moved into the region, they relied on letters and newspapers, magazines and pamphlets, petitions and money orders to stay connected to the wider world. Paper Trails maps the spread of the US Post using a dataset of more than 100,000 post offices, revealing a new picture of the federal government in the West. The western postal network bore little resemblance to the civil service bureaucracies typically associated with government institutions. Instead, the US Post grafted public mail service onto private businesses, contracting with stagecoach companies to carry the mail and paying local merchants to distribute letters from their stores. These arrangements allowed the US Post to rapidly spin out a vast and ephemeral web of postal infrastructure to thousands of distant places. The postal network's sprawling geography and localized operations forces a reconsideration of the American state, its history, and the ways in which it exercised power.

Wyoming Territory, 1876 As the only doctor in the frontier town of Savage Wells, Gideon MacNamara knows his prospects for a bride are limited. The womenfolk in town are either too young, too old, or already spoken for. So, being a practical man, he decides to take advantage of the matchmaking service of the day--mail-order brides--and sends away for a woman with nursing experience. When Miriam steps off the stagecoach in Savage Wells, she sees a bright future in front of her. But when the town--and Gideon--meets her, ready for a wedding, her excitement quickly turns to horror. Somehow Dr. MacNamara's message had gotten turned around. He didn't want a nurse, he wanted a wife. When she refuses to marry him, she finds herself stranded in Savage Wells with some very unhappy townspeople. But Gideon is not like the other men Miriam has met. Embarrassed by the misunderstanding, he offers her a job, and the two begin an awkward--and often humorous--dance of getting to know each other as they work to care for the people of their town.

Romance blossoms between the two, but when a former medical associate of Miriam's arrives in town, Gideon and the other townsfolk must rally around Miriam to protect her from a dangerous fate. Gideon and Miriam must decide if they are willing to risk their hearts for each other even as buried secrets are brought to light.
