It's a TV jungle out there. Five terrestrial channels, 20 more on satellite/cable, more if you have the technology. What you need is a guide through the tangled forbidding forest of multi-channel, non-stop, viewer-hungry TV. And here it is. At the flick of a page, look up the programme, read a critical overview, peruse the cast. You can, for greater viewing safety, cross-reference artists and behind-camera crew (credits include producers, directors, writers) and checkout their back catalogue. Then amaze the rest of the sofa with your erudition, before dazzling them with your grasp of totally useless trivia. So, what's included and what's not? Chronologically, the Ultimate TV Guide spans 1946 - the oldest programme is Muffin The Mule - to the present, from the age of black and white nostalgia to the hi-tech high-definition present. There's no news, no documentaries (apologies, no space). All forms of TV fiction are covered - crime, westerns, sci-fi, soaps, comedy, adventure, horror along with children's TV and light entertainment (quizzes, games shows). Of these the authors have collected the classics, the innovators, the lost treasures, the obscure objects of cult desire, the hits - the shows in short, of screen note. Even if it's only because, like the BBC's sand-and-sangria melodrama Eldorado, they were such total turkeys. And, why not, they've also put in a few because they like 'em, and so should you. (The sci-fi 'Japanimation' The Guyver comes to mind). All have been broadcast in the UK. Completely updated.

The Internet didn't kill TV! It has become its best friend. Americans are watching more television than ever before, and we're engaging online at the same time we're tuning in. Social media has created a new and powerful "backchannel", fueling the renaissance of live broadcasts. Mobile and tablet devices allow us to watch and experience television whenever and wherever we want. And "connected TVs" blend web and television content into a unified big screen experience bringing us back into our living rooms. Social TV examines the changing (and complex) television landscape and helps brands navigate its many emerging and exciting marketing and advertising opportunities. Social TV topics include: Leveraging the "second screen" to drive synched and deeper brand engagement Using social ratings analytics tools to

find and target lean-forward audiences Aligning brand messaging to content as it travels time-shifted across devices Determining the best strategy to approach marketing via connected TVs Employing addressable TV advertising to maximize content relevancy Testing and learning from the most cutting-edge emerging TV innovations The rise of one technology doesn't always mean the end of another. Discover how this convergence has created new marketing opportunities for your brand.

Book one of the New York Times bestselling All Souls trilogy—"a wonderfully imaginative grown-up fantasy with all the magic of Harry Potter and Twilight" (People). Look for the hit TV series "A Discovery of Witches," streaming on AMC Plus, Sundance Now and Shudder. Season 2 premieres January 9, 2021! Deborah Harkness's sparkling debut, A Discovery of Witches, has brought her into the spotlight and galvanized fans around the world. In this tale of passion and obsession, Diana Bishop, a young scholar and a descendant of witches, discovers a long-lost and enchanted alchemical manuscript, Ashmole 782, deep in Oxford's Bodleian Library. Its reappearance summons a fantastical underworld, which she navigates with her leading man, vampire geneticist Matthew Clairmont. Harkness has created a universe to rival those of Anne Rice, Diana Gabaldon, and Elizabeth Kostova, and she adds a scholar's depth to this riveting tale of magic and suspense. The story continues in book two, Shadow of Night, and concludes with The Book of Life.

Radio still remains an important form of media, with millions listening to it daily. It has been reborn for the digital era, and is an area where there is great interest in its development, role and form. Attempting to fill the gap in research on British radio criticism, this volume explores the development and role of radio criticism in the discourse around radio in Britain from its birth in the 1920s up to present day. Using a historical approach to explore how, as radio emerged, the press provided coverage which helped shape and reflect radio's position in popular culture, Paul Rixon delivers an interesting and engaging exploration that provides a cultural perspective on radio, with a specific focus on newspaper criticism. Radio Critics and Popular Culture is an innovative and original addition to existing research and will be invaluable for those interested in the way that British radio has evolved.

Choice Outstanding Academic Title for 2008 After occupying a central space in American living rooms for the past fifty years, is television, as we've known it, dead? The capabilities and features of that simple box have been so radically redefined that it's now nearly unrecognizable. Today, viewers with digital video recorders such as TiVo may elect to circumvent scheduling constraints and commercials. Owners of iPods and other portable viewing devices are able to download the latest episodes of their favorite shows and watch them whenever and wherever they want. Still others rent television shows on

DVD, or download them through legal and illegal sources online. But these changes have not been hastening the demise of the medium. They are revolutionizing it. The Television Will Be Revolutionized examines television at the turn of the twenty-first century —:what Amanda D. Lotz terms the “post-network” era. Television, both as a technology and a tool for cultural storytelling, remains as important today as ever, but it has changed in fundamental ways as the result of technological innovations, proliferating cable channels targeting ever more specific niche audiences, and evolving forms of advertising such as product placement and branded entertainment. Many of the conventional practices and even the industry’s basic business model are proving unworkable in this new context, resulting in a crisis in norms and practices. Through interviews with those working in the industry, attendance of various industry summits and meetings, surveys of trade publications, and consideration of an extensive array of popular television shows, Lotz takes us behind the screen to explore what is changing, why it’s changing, and why these changes matter.
