In "Coming to America" The untold truth about living and working in America as an immigrant, award-winning author Muchina, says it's time that someone finally told the biter truth about what it's like to live and work in America as an immigrant. Over a million people migrate to the United States every single year. What most of them don't know is that life in America is completely different from the America they see in the News or movies or American TV shows. In "Coming To America" Muchina talks directly to new immigrants as well as those planning on migrating to the United States in the future. With well-researched statistics and figures, he details the income of an average immigrant as well as the true cost of living and the sacrifices required in order to have a decent

life while supporting family back home. Close to a million immigrants become undocumented every year. Muchina dedicates a few chapters to speak to those that may end up overstaying their visas or falling out of "Status" for various reasons. The challenges faced by undocumented immigrants are many, but millions of them find ways to get jobs, buy cars, rent apartments and even start their own businesses. The question is "How do they do it?" Those answers plus alternative documents the government makes available for undocumented people to open bank accounts and pay taxes to states that offer driver's licenses to undocumented residents; all found within the pages of this book In the final chapters of the book, Muchina shares his story of how his obsession with the pursuit of the American dream cost him everything he owned and nearly destroyed his life in the process. He tells his compelling poignant story as a warning to others whose desire to make a lot of money may lead them down the wrong paths with dire consequences. Mostly, with his deep understanding of how the American system works, he brings the wisdom of knowing "What not to do" as well as what aspects of life one must protect in order to build a decent and fulfilling life in America. In his own words, Muchina says 'This book is everything I wish someone had told me when I first came to America' So, If you're planning to migrate to America, this book will help you

answer some of the most important questions you may have such as What are the 5 top myths about America? What are the top 5 mistakes most immigrants make? Is "The American Dream" possible for an immigrant? What will your host expect of you when you get to America? Where should you settle in and why? How are you expected to behave in America? How is America different from where you're coming from? What are you going to love about the country and its culture? Will you be able to get a job? What kind of documents will you need to get a job? Will you be able to get work documents if you have a non-immigrant visa? Will you be allowed and able to get work if you have a non-immigrant visa? What happens if you overstay your visa? What kind of job will you be able to get as an immigrant? How much are you likely to get paid for what job? How much will it cost you to live in America? How much does housing cost? What can you or can't you do? What kind of bills will you have to pay? What kind of taxes will you have to pay? How much money will you be able to earn per month? How much will you be able to save per month? If you wanted to start a business; could you? What kind of rights will you have as an immigrant? How do undocumented immigrants get jobs? What kind of work do undocumented immigrants do? What jobs pay better than others for immigrants? What rights do immigrants have? Do undocumented

immigrants have any rights? What's a social security number and why does everyone need one? What if you can't get a social security number because of your immigration status? How do you get a driver's license? If you go out of status, will you be able to get a driver's license? Where can you get a driver's license if you overstay your visa? What can you expect from friends and relatives when you move to America? How should you deal with relatives back home? What's a FICO credit score and how does it determine your success or failure? What mistakes are you likely to make that could ruin your life in America? Will your foreign university degree get you a job in the United States? In part 4, you'll hear the story of the author, an immigrant whose life was nearly destroyed in America due to the lack of information such as found in this book. In his pursuit of the American dream, he made all the wrong mistakes, just like so many immigrants and citizens make. He hopes to spare you from the same fate so you have a chance to succeed and get yourself a piece of the American Dream.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is

written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

It is a straightforward, easy way to give you the peace of mind that your loved ones will be able to find exactly what they need, when they need it. Like many of you, I used to waste time searching for passwords, bank account numbers, health records, or those important documents that I could never seem to find when I needed them. Every time, I promised myself that I would get organized, but I just could not seem to take the first step. Where to start?Then one day I was telling a friend about my procrastination when he made a statement that really struck home, "If something happened to you . . . how long do you think it would take

for your loved ones to find your essential information and gather all the important documents?" That did it. I may have not done it for myself, but I had to do it for my family. I started to gather my information and documents and assembling them together in a way that made sense in my head. Although it took some time, I was determined to provide as much information as I could. I worked on it as time allowed. It was exuberant knowing that I was getting organized. I even started to think about my estate planning and I took care of my will and last wishes. Finally, I was done. I had all my essential information in one place, including the descriptions of where documents and items could be found. No more running around searching for my own information or hunting for documents. These days I just take one look at the booklet, and I can find the information or the document I need.
