“Brings to mind the books of Richard Price and the films of Martin Scorsese... I did not want this book to end.” —Julie Klam, New York Times—bestselling author of *Friendkeeping* It is the summer of 1972, and Katie has just turned eighteen. Katie and her town, Elephant Beach, are both on the verge: Katie of adulthood, and Elephant Beach of gentrification. But not yet: Elephant Beach is still gritty, working-class, close-knit. And Katie spends her time smoking and drinking with her friends, dreaming about a boy just back from Vietnam who’s still fighting a battle Katie can’t understand. In this poignant, evocative debut collection, Judy Chicurel creates a haunting, vivid world, where conflicts between mothers and daughters, men and women, soldiers and civilians and haves and have-nots reverberate to our own time. She captures not only a time and place, but the universal experience of being poised between the past and the future. At once heartbreaking, mesmerizing, and nostalgic, Chicurel shows us that no matter how beautiful some dreams are, there comes a time when we must let them go. **Ketone Twins** Algonquin Books

“ Part Annie Dillard, part Anne Lamott, essayist and NPR commentator Heather Lende introduces readers to life in the town of Haines, Alaska . . . subtly reminding readers to embrace each day, each opportunity, each life that touches our own and to note the beauty of it all. ” —The Los Angeles Times Tiny Haines, Alaska, is ninety miles north of Juneau, accessible mainly by water or air—and only when the weather is good. There's no traffic light and no mail delivery; people can vanish without a trace and funerals are a community affair. Heather Lende posts both the obituaries and the social column for her local newspaper. If anyone knows the going-on in this close-knit town—from births to weddings to funerals—she does. Whether contemplating the mysterious death of eccentric Speedy Joe, who wore nothing but a red union suit and a hat he never took off, not even for a haircut; researching the details of a one-legged lady gold miner's adventurous life; worrying about her son's first goat-hunting expedition; observing the awe-inspiring Chilkat Bald Eagle Festival; or ice skating in the shadow of glacier-studded mountains, Lende's warmhearted style brings us inside her small-town life. We meet her husband, Chip, who owns the local lumber yard; their five children; and a colorful assortment of quirky friends and neighbors, including aging hippies, salty fishermen, native Tlingit Indians, and volunteer undertakers—as well as the moose, eagles, sea lions, and bears with whom they share this wild and perilous land. Like Bailey White's tales of Southern life or Garrison Keillor's reports from the Midwest, NPR commentator Heather Lende's take on her offbeat Alaskan hometown celebrates life in a dangerous and breathtakingly beautiful place. Heather Lende's new book, *Of Bears and Ballots: An Alaskan Adventure in Small-Town Politics* is available now.

What if you knew all the moments of my past that I am not proud of? What if you really knew me, the messy parts that I've hoped to forget and worked hard to conceal? For so long, my greatest fear was what you might think of me if you only knew the whole story. It's exhausting, this guarding of our stories and struggles. Fear of being found out had caused me to hide—but I wasn't just covering my flaws, I was unintentionally blocking the beauty of God's grace. My journey to real freedom began when I quit running from my mess and started trusting Jesus to make something beautiful of it. This book is that story. It's stepping out of shame and insecurity into gospel freedom. It's letting God turn our failures and frailties into testimonies of His faithfulness. I've discovered that when we quit hiding, God gets the glory and we are able to fully embrace not only our relationship with Him, but also with one another. Transparency brings freedom, and in every moment, we'll find that God can absolutely be trusted.

Just another of his alcoholic benders, they assumed. But this time, Donald Rogers didn't wake up. The investigation would reveal the sordid story behind the death of a self-made millionaire—including transgender adventures in Chicago and Denver, a tangled web of dueling addictions, a mind-boggling history of out-of-control spending, and how a gender confirmation surgery may have fueled a motive for murder. The Irish civil war was heating up again. It had Carol sending her brother Paddy and her daughter Fiona to America. Fiona was very grateful Uncle Paddy had made a hefty down payment for the flower shop she wanted to open. She was afraid he was walking both sides of the law again in order to come up with the money. Most of Fiona's supplies were being delivered by Antonelli's Deliveries. It didn't take long for Giovanni Antonelli and Fiona McTavish to strike sparks off each other. Though he had gone straight, his family had Mafia ties. Giovanni's prejudiced twin didn't like his brother dating an Irish girl and tried to warn him off. This was supposed to be his neighborhood. The Irish had no business being here. He tried unsuccessfully to drive Fiona away. So one evening, when Fiona was closing, he grabbed her off the street, dragged her into his van, and beat her soundly. He threw her back out on the sidewalk and took off. Uncle Paddy was in a rage. He was going to handle things just as he would back home: hunt down who did this and kill them. He headed into Little Ireland to round up troops. Then they would storm Little Italy and wreak as much havoc as possible until the perpetrator was found and punished. Street justice was achieved, but the Mafia dons weren't about to take this lying down. It wasn't long before they were hitting Little Ireland in retaliation. Though he'd fallen hard, Giovanni couldn't help but think if he took himself out of the equation, maybe the fighting would stop. It seemed it was dating Fiona that was the initial cause of all the battles. The street wars continued. Guido, Giovanni's youngest brother, was now making deliveries to Fiona's shop. It killed him to see his favorite customer and his brother so miserable. So Guido enlisted Paddy's help in trying to stop the street fighting. If they could get both sides to stand down, maybe they could end the bloody war. If there was no longer any fighting, Giovanni could go back to Fiona.

If you feel a bit cross at the presumption of some oik daring to suggest everything you know about education might be wrong, please take it with a pinch of salt. What if everything you knew about education was wrong? is just a title. Of course, you probably think a great many things that aren't wrong. The aim of the book is to help you 'murder your darlings'. David Didau will question your most deeply held assumptions about teaching and learning, expose them to the fiery eye of reason and see if they can still walk in a straight line after the experience. It seems reasonable to suggest that only if a theory or approach can withstand the fiercest scrutiny should it be encouraged in classrooms. David makes no apologies for this; why wouldn't you be sceptical of what you're told and what you think you know? As educated professionals, we ought to strive to assemble a more accurate, informed or at least considered understanding of the world around us. Here, David shares with you some tools to help you question your assumptions and assist you in picking through what you believe. He will stew findings from the shiny white laboratories of cognitive psychology, stir in a generous dash of classroom research and serve up a side order of experience and observation. Whether you spit it out or lap it up matters not. If you come out the other end having vigorously and violently disagreed with him, you'll at least have had to think hard about what you believe. The book draws on research from the field of cognitive science to expertly analyse some of the unexamined meta-beliefs in education. In Part 1; 'Why we're wrong', David dismantles what we think we know; examining cognitive traps and biases, assumptions, gut feelings and the problem of evidence. Part 2 delves deeper - 'Through the threshold' - looking at progress, liminality and threshold concepts, the science of learning, and the difference between novices and experts. In Part 3, David asks us the question 'What could we do differently?' and offers some considered insights into spacing and interleaving, the testing effect, the generation effect, reducing feedback and why difficult is desirable. While Part 4 challenges us to consider 'What else might we be getting wrong?'; cogitating formative assessment, lesson observation, grit and growth, differentiation, praise, motivation and creativity.
