I must admit, the only
Renault that I can find
that was fitted with an
F7R is the Clio
Williams, but I suspect
the Spider had the same
engine. The F4R wasn't
always fitted with VVT
or a turbo. The standard
engine was fitted into the
Laguna 1, Scenic
RX4, Espace and a few
others.

Evening, (It is 6 years
since I've been involved

in this stuff every day,
and my memory isn't
what it was, so I thought
that I would consult the
collective knowledge, and
get some POV's). I have
two engines sat there, a
Williams F7R & a Megane
F7R (Electronic
Injection). Has anyone
got a full parts (number)
teardown of the two?
TL;DR: What are the
specific differences
between the two engines
