Key terms are liberated from dry sentences and same size text by given top billing as headers. Definitions of terms are in their own graphic fields putting them into high focus. TESTIMONIALS The book is a fantastic tool that visualizes and organizes the information to increase the students understanding of the information for the test. It reduced my study time, by 30% and increased my test score by 10%. I could see the difference in my recall timing while

taking the test. I visibly noticed that my recall time for the information on the test was significantly faster when taking the test after utilizing this book. I recommend this book to anyone studying for the exams as a great tool to increase their ability to pass the tests the first time. Lisa Helms, Financial Planner, WFG, AZ Elleyne, I wanted to call you right away. A new associate in our office just called me. She was so excited after just leaving the testing center. She told me she had just passed her life insurance exam with a 97% score! And the only thing she had studied with was your supplement! This lady is a stay at home mom who had no previous association with the life insurance industry before taking this exam. This is the highest score I have ever seen in my two years as a regional leader. Other people in our group have had very successful outcomes with your book and I am recommending it to every one of my associates who needs to pass the exam. It is so satisfying to know that the challenge of the test can be easier to overcome so that my people can get on with the opportunity of being a provider. Cameron Turnbow, Utah "When I first looked at the book. It was such a relief. It was visual!! I was going for my fourth time at passing the exam and if I didn't get it this time I would have to wait a year to take the test again. Just my first look through helped me past the confusion. When it came time for the test, I felt much more confident. What a relief to pass after all that. The visuals all really helped me. Thank you. I was so lucky to be able to use your notes for studying. The finished book looks great, and I really like the Max logo you came up with. Let me know when the Series 6 book is done. C.S.G. Florida law requires that students achieve a passing score on the Grade 10 Florida Comprehensive Assessment Test (FCAT) to qualify for a standard high school diploma (Section 1008.22(3)(c)5, Florida Statutes). Students who were administered the Grade 10 FCAT for the first time during the 2002 administrations or later must earn a developmental score of 1926 (SSS passing score of 300) or higher in reading and 1889 (300) or higher for mathematics. Among students taking the 10th Grade FCAT for the first time in 2004, 53% did not achieve passing

scores in reading, and 29% did not achieve passing scores in mathematics. Although students are granted many opportunities to retake the tests, any early identification of students in jeopardy of not passing the 10th Grade tests would be a welcome contribution to providing targeted academic remediation to the students most in need. This study addresses an approach to the early identification of students who may be at risk of scoring below the passing score of 300 on their 10th grade FCAT Reading and Mathematics Tests. The two prediction equations in this study each utilize a single predictor: the student's score on the 9th grade FCAT Reading and Mathematics Tests, respectively.
