[Tacoma vs 4Runner: Which One is Better and Why?](#)

A good off-road vehicle can handle the high-stresses associated with off road driving. This means the vehicle has heavy duty axles, tie rods, shocks, motor mounts, and much more.

[Manual vs Automatic - Which Is Better Off Road](#)

The weight and strength of steel wheels are why many consider them the best type of wheel for off-roading. Steel wheels can add a lot of unsprung weight, which is weight that is not cushioned by your vehicle's suspension springs, and things like your wheels, tires and brakes all fall into this category.

[Diesel vs Gasoline Engines for Offroad Use: Off-Road.com](#)

When it comes to off-roading its more about the driver than the vehicle, and both Jeep's and Land Rover's are incredibly capable off-road machines. So when comparing older Jeep's vs older Land Rover's, you'll find that quite honestly, the Land Rover's are nicer to drive every single day.

[Jeep vs Land Rover: Which One is Actually Better?](#)

Let these stern-looking men in XJ Jeep Cherokees explain the differences for off-roading. Basically, it boils down to control: With a manual you always know exactly what you're going to get. Engine braking is more direct and immediate on downhill stretches, and on low-traction surfaces you can pick the right gear to eliminate wheelspin or dig out of deep mud or snow as needed.

[Power Grab - Gasoline Vs. Diesel - FOUR WHEELER NETWORK](#)

1. First is very short, which is useful towing and off road. 2. If you fly on the freeway at 70-75 regularly, your gas mileage is going to 15-16 MPG due to gear ratio. That being said, I spend most of my life 35-60 MPH, and it absolutely shines at these speeds. I get tank averages between 18.5 and 22.5 depending on what I'm doing.

[How Wheel Size Affects Off-Road Performance - FOUR WHEELER ...](#)

MYTH: Automatics are better for technical terrain. A manual transmission with deep gearing can handle even the most technical of terrain, although often times you must find the right gear for the given situation. It is true that automatics, with the torque converter providing gear multiplication, can somewhat make up for the lack of low gearing.

[Which is the best 4 x 4 jeep for Off Road Adventures?](#)

Meaning, off-roading is a shortened activity when compared to overlanding where not only are the vehicles of different appearances and purpose but with varying intentions as well. Think short-term adrenaline rush vs. elongated lifestyle choice.

[This Is What Makes A Vehicle Unstoppable Off-Road](#)

If you're planning on doing a lot of off-roading, then get the OFF-ROAD Xterra. However, from what i read above from your post, you would probably be better off with a 4runner. The 4runner is a better daily driver (by a long shot). It is also capable off-road...and provide a more comfy ride over all terrain.

[Steel vs. Alloy Wheels For Your Off Road Truck or Jeep](#)

Important is to get to the right place in the right time and the ability to transport goods or people. In this case you need 4 x 4 off road jeep with good passability. Any of the old off road jeeps will do in this case. And the simpler it is and higher its frame is the better.

[Which Is Better: 4WD or AWD? | Outside Online](#)

Doing this will make the vehicle taller and make the approach, departure, and breakover angles better for off-roading. Increasing the distance between the axles and body of a vehicle drastically often requires the replacement of other parts in the suspension system to make it work correctly again.

[Short Vs Long Bed for offroad | Tacoma World](#)

Unless you constantly have a need for a pickup truck bed, you ' re better off getting a 4runner. But really it comes down to personal preference. The Tacoma and the 4runner are equally good at nearly everything, other than doing pickup truck stuff.

[Automatic vs. Manual: Which Transmission Is Better for the ...](#)

The chief benefits of a diesel engine for offroading are greatly improved fuel economy at lower-than-available power outputs and tremendous low-end torque. The gasoline engine has an advantage in...

[Manual vs Automatic | Tacoma World](#)

For off-road performance, we prefer to stick to the rule of thumb of running a wheel diameter no bigger than half the tire height. That typically means 15 or 16-inch wheels for 33s and 17-inch ...

[Whats Better For Off Roding](#)

Cons: When 4WD is engaged, a vehicle will behave differently since there ' s now power going to the front wheels—and it slurps down more fuel. 4WD is usually limited to trucks and big SUVs. Best for: True off-roading, mud, deep snow, sand, rock-crawling (like those Jeeps you see in Moab).

[Ask an Expert - Manual vs Automatic Transmissions](#)

Diesel's have more power in the low range so i think they're better for off roading. Gas engine can rev much higher so they break their tires loose easier. Diesel's are more for hill, or rock climbing.

[Diesel vs. Gas Trucks for off roading | Pavement Sucks ...](#)

When it comes to off-road, I stand by lighter is better. Sticking a diesel in your

trail rig will just add weight, and sometimes, unwanted complexity. Diesel engines will always have a place, but...

Find out more about the differences and benefits between manual and automatic transmissions.

[4Runner vs Xterra - Toyota 4Runner Forum - Largest 4Runner ...](#)

If your into any serious off-roading you better go for the short bed. I have a long bed and unless you are looking at a significant lift theres a lot of extra tail hanging out there to get stuck on something. Just my thoughts. Ken
