#1 NEW YORK TIMES BESTSELLER ONE OF BARACK OBAMA'S FAVORITE BOOKS OF THE YEAR NAMED A BEST BOOK OF 2020 BY THE NEW YORK TIMES * THE WASHINGTON POST * NPR * PEOPLE * TIME MAGAZINE* VANITY FAIR * GLAMOUR 2021 WOMEN'S PRIZE FINALIST "Bennett's tone and style recalls James Baldwin and Jacqueline Woodson, but it's especially reminiscent of Toni Morrison's 1970 debut novel, *The Bluest Eye*." —Kiley Reid, *Wall Street Journal* "A story of absolute, universal timelessness ...For any era, it's an accomplished, affecting novel. For this moment, it's piercing, subtly wending its way toward questions about who we are and who we want to be..." — *Entertainment Weekly* From The New York Times—bestselling author of *The Mothers*, a stunning new novel about twin sisters, inseparable as children, who ultimately choose to live in two very different worlds, one black and one white. The Vignes twin sisters will always be identical. But after growing up together in a small, southern black community and running away at age sixteen, it's not just the shape of their daily lives that is different as adults, it's everything: their families, their communities, their racial identities. Many years later, one sister lives with her black daughter in the same southern town she once tried to escape. The other secretly passes for white, and her white husband knows nothing of her past. Still, even separated by so many miles and just as many lies, the fates of the twins remain intertwined. What will happen to the next generation, when their own daughters' storylines intersect? Weaving together multiple strands and generations of this family, from the Deep South to California, from the 1950s to the 1990s, Brit Bennett produces a story that is at once a riveting, emotional family story and a brilliant exploration of the American history of passing. Looking well beyond issues of race, *The Vanishing Half* considers the lasting influence of the past as it shapes a person's decisions, desires, and expectations, and explores some of the multiple reasons and realms in which people sometimes feel pulled to live as something other than their origins. As with her New York Times—bestselling debut *The Mothers*, Brit Bennett offers an engrossing page-turner about family and relationships that is immersive and provocative, compassionate and wise.

Scientific and Medical Aspects of Human Reproductive Cloning Anchor

Elma Clifford found herself thrust, hap-hazard, at the very last moment, into the last compartment of the last carriage of the train -- alone -- with an artist. Now, you and I, to be sure, most proverbially courteous and intelligent reader, might never have guessed at first sight, from the young man's outer aspect, the nature of his occupation. But she recognized him for what he was immediately, and she was right, and his name was Cyril Waring. He was the love of her life. Even in that first moment, Elma probably knew it. The trouble was, it seemed bound to be a short life. Before the train reached its next station, a tunnel through which it was travelling collapsed upon them. . . . All of a sudden a rapid jerk of the carriage pulled up their train unexpectedly. Elma was aware of a loud noise and a crash in front, almost instantaneously followed by a thrilling jar -- a low dull thud -- a sound of broken glass -- a quick blank stoppage. Next instant she found herself flung wildly forward into her neighbor's arms, while the artist, for his part, with outstretched hands, was vainly endeavoring to break the force of the fall for her. All she knew for the first few minutes was merely that there had been an accident to the train. Until the tunnel behind them collapsed as well, and then there was nothing either of them could do but wait. Wait, and, all but certainly, die.

The Queen of the Tearling McClelland & Stewart

A hurricane is building over the Gulf of Mexico, threatening the coastal town of Bois Sauvage, Mississippi, and Esch's father is growing concerned. He's a hard drinker, largely absent, and it isn't often he worries about the family. Esch and her three brothers are stocking up on food, but there isn't much to save. Lately, Esch can't keep down what food she gets; at fifteen, she has just realized that she's pregnant. Her brother Skeetah is sneaking scraps for his prized pit bull's new litter, dying one by one. Meanwhile, brothers Randall and Junior try to stake their claim in a family long on child's play and short on parenting. As the twelve days that make up the novel's framework yield to a dramatic conclusion, this unforgettable family - motherless children sacrificing for one another as they can, protecting and nurturing where love is scarce - pulls itself up to face another day.

Flowers in the Attic Princeton University Press

"A goodhearted priest and scholar, a professor with a passion for the darker side of medieval psychology, a defrocked monk, and a rich young businessman who inherits some troublesome paintings are all helplessly beguiled by the same coed. The story is set in motion by the death of eccentric art patron and collector Francis Cornish. Hollier, McVarish, and Darcourt are the executors of Cornish's complicated will, which includes material that Hollier wants for his studies. The deceased's nephew Arthur Cornish, stands to inherit the fortune. Davies weaves together the destinies of this remarkable cast of characters, creating a wise and witty portrait of love, murder, and scholarship at a modern university"--Amazon.com.

"Life of Pi will make you believe in the power of theatre" (Times). After a cargo ship sinks in the middle of the vast Pacific Ocean, there are five survivors stranded on a lifeboat - a hyena, a zebra, an orangutan, a Royal Bengal tiger, and a sixteen year-old boy named Pi. Time is against them, nature is harsh, who will survive? Based on one of the most extraordinary and best-loved works of fiction - winner of the Man Booker Prize, selling over fifteen million copies worldwide - and featuring breath-taking puppetry and state-of-the-art visuals, *Life of Pi* is a universally acclaimed, smash hit adaptation of an epic journey of endurance and hope. Adapted by acclaimed playwright Lolita Chakrabarti, this edition was published to coincide with the West End premiere in November 2021.

We follow Cornish's life from his two Canadian grandparents - part of "what's bred in the bone" - through his childhood as a wealthy and precocious misfit in a small Ontario town, his education in Toronto and Oxford, his unusual apprenticeship as a restorer and painter in Nazi Germany, his wartime experiences in England, his postwar work with a group resembling the Monuments Men, and his collecting and patronage of the arts in Toronto. A repeated theme in his mature years is art forgery.

Six of Crows Penguin

The fruits of an eighteen-year tradition of Massey College's annual Gaudy Nights, Robertson Davies' *High Spirits* still delights and amuses to this day. Published as an eBook for the first time. In the Introduction to this collection of charming stories, Robertson Davies notes we all need "ghosts as a dietary supplement . . . to stave off that most dreadful of modern ailments, the Rational Rickets." In one tale, Mr. Davies introduces the ghost of Henrik Ibsen; in another, he brings us face to face with a bust of Charles Dickens, whose "scarlet lips . . . parted in a terrible smile" and whose "beard stirred in a hiccup of repletion." Sixteen other apparitions manifest themselves, each rendered with Robertson Davies' special touch - a bit of parody, a touch of true scariness - and all emanating from high spirits. The Priory of the Orange Tree Simon and Schuster

Hailed as a literary masterpiece, Robertson Davies' *The Cornish Trilogy* comes to a brilliant conclusion in *The Lyre of Orpheus*. Available as an eBook for the first time. There is an important decision to be made. The Cornish Foundation is thriving under the directorship of Arthur Cornish when Arthur and his beguiling wife, Maria Theotoky, decide to undertake a project worthy of Francis Cornish - connoisseur, collector, and notable eccentric - whose vast fortune endows the Foundation. The grumpy, grimy, extraordinarily talented music student Hulda Schnakenburg is commissioned to complete E.T.A. Hoffmann's unfinished opera *Arthur of Britain*, or *The Magnanimous Cuckold*; and the scholarly priest Simon Darcourt finds himself charged with writing the libretto. Complications both practical and emotional arise: the gypsy in Maria's blood rises with a vengeance; Darcourt stoops to petty crime; and various others indulge in perjury, blackmail, and other unsavory pursuits. Hoffmann's dictum, "the lyre of Orpheus opens the door of the underworld," seems to be all too true—especially when the long-hidden secrets of Francis Cornish himself are finally revealed. Baroque and deliciously funny, this third book in *The Cornish Trilogy* shows Robertson Davies at his very considerable best. Simon and Schuster

The Intelligence of Dogs Cornish Trilogy

What if you knew exactly when you'd die? The first book of *The Chemical Garden Trilogy*. By age sixteen, Rhine Ellery has four years left to live. A botched effort to create a perfect race has left all males born with a lifespan of 25 years, and females a lifespan of 20 years—leaving the world in a state of panic. Geneticists seek a miracle antidote to restore the human race, desperate orphans crowd the population, crime and poverty have skyrocketed, and young girls are being kidnapped and sold as polygamous brides to bear more children. When Rhine is sold as a bride, she vows to do all she can to escape. Yet her husband, Linden, is hopelessly in love with her, and Rhine can't bring herself to hate him as much as she'd like to. He opens her to a magical world of wealth and illusion she never thought existed, and it almost makes it possible to ignore the clock ticking away her short life. But Rhine quickly learns that not everything in her new husband's strange world is what it seems. Her father-in-law, an eccentric doctor bent on finding the antidote, is hoarding corpses in the basement; her fellow sister wives are to be trusted one day and feared the next; and Rhine has no way to communicate to her twin brother that she is safe and alive. Together with one of Linden's servants, Gabriel, Rhine attempts to escape just before her seventeenth birthday. But in a world that continues to spiral into anarchy, is there any hope for freedom?

Second in the *Cornish Trilogy* following *The Rebel Angels*. "An altogether remarkable creation, [Davies'] most accomplished novel to date." -*The New York Times* Shortlisted for the Booker Prize Francis Cornish was always good at keeping secrets. From the well-hidden family secret of his childhood to his mysterious encounters with a small-town embalmer, an expert art restorer, a Bavarian countess, and various masters of espionage, the events in Francis' life were not always what they seemed.

Rounding out the story started by the death of eccentric art patron and collector Francis Cornish in *The Rebel Angels*, this worthy follow-up, *What's Bred in the Bone*, takes you back to Cornish's humble beginnings in a spellbinding tale of artistic triumph and heroic deceit. It is a tale told in stylish, elegant prose, endowed with lavish portions of Davies' wit and wisdom. "Davies' novel is absorbing, and the understated humor radiates with good sense about the way of the world." -*Los Angeles Times* "Davies' fiction is animated by his scorn for the ironclad systems that claim to explain the whole of life. Messy, magical, high-spirited life bubbles up between the cracks." -*South Florida Sun-Sentinel*

The Necropsy Book Ballantine Books

The New York Times bestseller — with a new afterword about early specialization in youth sports — from the author of *Range: Why Generalists Triumph in a Specialized World*. The debate is as old as physical competition. Are stars like Usain Bolt, Michael Phelps, and Serena Williams genetic freaks put on Earth to dominate their respective sports? Or are they simply normal people who overcame their biological limits through sheer force of will and obsessive training? In this controversial and engaging exploration of athletic success and the so-called 10,000-hour rule, David Epstein tackles the great nature vs. nurture debate and traces how far science has come in solving it. Through on-the-ground reporting from below the equator and above the Arctic Circle, revealing conversations with leading scientists and Olympic champions, and interviews with athletes who have rare genetic mutations or physical traits, Epstein forces us to rethink the very nature of athleticism.
