What's Bred in the Bone by Grant Allen - Goodreads  
What's Bred in the Bone is the second of a trilogy of books which are bound together by the life of one Francis Cornish, Canadian artist, critic, and collector, and by a host of other characters who are tied to him in one way or another. This book tells Cornish's life story, starting from a conversation between his heirs and his biographer and featuring interjections from a pair of supernatural beings, the Lesser Zadkiel (the Angel of Biography) and Maimon, Francis's personal daimon.

What's Bred in the Bone is interesting in its treatment of criminal justice, Africa and the diamond trade, foreign blood (described as Romanian, gypsy and Oriental), and railway accidents (of which there is a particularly dramatic example in the opening pages). The importance of marital records, level of detail as regards transportation times and written correspondence and trial scene also link the novel to many of the tropes of sensation fiction.

Summary. What's Bred in the Bone is the story of Francis Cornish, an independently wealthy Canadian artist, collector, restorer of Old Masters, and sometime spy, beginning with the origins of his family in Canada before his birth in 1909 and culminating in his death in 1981. This narrative, however, is surrounded by a framing fiction.
