Islam and the Future of Tolerance

Tate Publishing

Islam is a hidden ingredient in the melting pot of America.

Though there are between 2 and 8 million Muslims in the USA, Islam has traditionally had little political clout compared to other minority faiths. Nonetheless it is believed to be the country's fastest-growing religion, with a vibrant culture of theological debate, particularly regarding the role of women preachers. In *Islam in America*, Jonathan Curiel traces the story of America's Muslims from the seventeenth-century slave trade to the eighteenth-century immigration wave to the Nation of Islam. Drawing on interviews in communities from industrial Michigan to rural California, Curiel portrays the diversity of practices, cultures and observances that make up Muslim America. He profiles the leading personalities and institutions representing the community, and explores their relationship to the wider

politics of America, particularly after 9/11. *Islam in America* offers an indispensable guide to the social life of modern Islam and the diversity of contemporary America.

“ A civil but honest dialogue...As illuminating as it is fascinating. ” —Ayaan Hirsi Ali
Is Islam a religion of peace or war? Is it amenable to reform? Why do so many

Muslims seem to be drawn to extremism? And what do words like jihadism and fundamentalism really mean? In a world riven by misunderstanding and violence, Sam Harris—a famous atheist—and Maajid Nawaz—a former radical—demonstrate how two people with very different religious views can find common ground and invite you to join in an urgently needed conversation. “ How refreshing to read an honest yet affectionate exchange between the Islamist-turned-liberal-Muslim Maajid Nawaz and the neuroscientist who advocates mindful atheism, Sam Harris...Their back-and-forth clarifies multiple confusions that plague the public conversation about Islam. ” —Irshad Manji, New York Times Book Review

“ It is sadly uncommon, in any era, to find dialogue based on facts and reason—but even more rarely are Muslim and non-Muslim intellectuals able to

maintain critical distance on broad questions about Islam. Which makes Islam and the Future of Tolerance something of a unicorn...Most conversations about religion are marked by the inability of either side to listen, but here, at last, is a proper debate. ” —New Statesman

What's Wrong With What's Right Simon and Schuster

In these troubled times, when Islam is under seemingly perpetual attack, it is imperative to consider how much the West owes to the religion’s spiritual insights. Bestselling author Tim Wallace-Murphy presents the first major popular book to examine the common roots of Judaism, Christianity, and Islam and to reveal Islam’s immense contributions to our society—which included laying the foundations for our systems of education, astronomy, mathematics, and architecture. He also illustrates how the European Western powers helped foment the current crisis in the Middle East, and why we

must strive for a just, equitable solution to these problems. Understanding can begin with this compelling acknowledgment of our shared spiritual heritage, including religious tolerance, respect for learning, and the concepts of chivalry and brotherhood.

Letters to a Young Muslim

Can you handle the truth?

The truth is that Islam is the way of life given to mankind by God Almighty. The truth is that every God-fearing person on Earth wants to be a Muslim. Every person on earth has been a Muslim and every person on earth will be a Muslim again. If you want to understand what it is to be a Muslim, this book is for you. If you want proof that God exists, if you want to know what the purpose of life is, if you want to know what God wants you to do, this book is

for you. If you want to know why there are so many religions, if you want to know how a Muslim views non-Muslims, if you want to know how Muslims should treat women, this book is for you. If you want more than faith and belief, if you want sound reasoning and rational conclusions then this book is for you. This book is for everyone, from the 1.8 billion Muslims who have accepted that “ Islam is the Truth ” to the 4 billion others who are unaware of Islam's veracity. For the Muslim, I wish this book to be an affirmation of the truth. For the non-Muslim, I wish this book to be a revolution in your life or at least in your thinking. Take this journey with me, to explore the abundant treasures of the religion of truth.

Getting Jesus Right: How Muslims Get Jesus and Islam Wrong
Bloomsbury Publishing
A sweeping history of the often-violent conflict between Islam and the West, shedding a revealing light on current hostilities
The West and Islam -- the sword and scimitar -- have clashed since the mid-seventh century, when, according to Muslim tradition, the Roman emperor rejected Prophet Muhammad's order to abandon Christianity and convert to Islam, unleashing a centuries-long jihad on Christendom. Sword and Scimitar chronicles the decisive battles that arose from this ages-old Islamic jihad, beginning with the first major

Islamic attack on Christian land in 636, through the Muslim occupation of nearly three-quarters of Christendom which prompted the Crusades, followed by renewed Muslim conquests by Turks and Tatars, to the European colonization of the Muslim world in the 1800s, when Islam largely went on the retreat -- until its reemergence in recent times. Using original sources in Arabic and Greek, preeminent historian Raymond Ibrahim describes each battle in vivid detail and explains how these wars and the larger historical currents of the age reflect the cultural fault lines between Islam and the West. The majority of these landmark battles -- including the battles of Yarmuk, Tours, Manzikert, the sieges at Constantinople and Vienna, and the crusades in Syria and Spain--are now forgotten or considered inconsequential. Yet today, as the West faces a resurgence of this enduring Islamic jihad, Sword and Scimitar provides the needed historical context to understand the current relationship between the West and the Islamic world -- and why the Islamic State is merely the latest chapter of an old history.

The Oxford Handbook of American Islam American Univ in Cairo Press

"Recent events have focussed attention on Islam, the often-misunderstood faith of one billion people. Westerners are showing a new openness to learning about Islam and other religions, in part perhaps because religion is arguably the single most important and volatile factor in geopolitics today. Islam needs to be understood on its own terms, John Kaltner argues." "This little Facet offers the most basic information about Islam in an accessible and sympathetic presentation. Kaltner portrays Islam as first

and foremost a religion of prescribed practices - the five pillars of Islam. Showing the deep humanism of Islam and its most cherished commitments, Kaltner presents Islam through assertions that counter frequent

misconceptions of the faith."--BOOK JACKET. Title

Bill Cosby Is Right: But What Should The Church Be Doing

About It? Stanford University Press

Pr é sentation de l' é diteur :

"The debate continues unabated: Is political Islam decipherable through the tenets of the Islamic tradition-or is it a tool of secular actors who shrewdly misuse religious references? Is it an

expression of modernity, or a return to the past? Eschewing these dichotomies, Jocelyne Cesari demystifies the continuous process of interaction between secular and religious actors and institutions that is at the core of political mobilization in the name of Islam. Cesari traces the origins of political Islam to the inception of the modern nation-state, revealing the decisive role of secular nationalist rulers in its creation. In the process, she puts to rest the myth that there has been a lack of modernization in the Muslim world-and shows how that myth has proven dangerous. Ranging from Senegal to Egypt, from Indonesia to Iraq, her analysis provides a much needed corrective to the "conventional wisdom." "

IS IT POSSIBLE THAT MUSLIMS ARE WRONG ABOUT JESUS AND VARIOUS TENETS OF ISLAM? Is the famous

Muslim writer Reza Aslan mistaken in his portrayal of Jesus of Nazareth and apologetic for Islam? Professor James Beverley and Professor Craig Evans take an in-depth look at subjects at the core of the Muslim-Christian divide: the reliability of the New Testament Gospels and the Qur'an, and what we can really know about Jesus and the prophet Muhammad. Importantly, they also examine the implications of traditional Islamic faith on the status of women, jihad and terrorism.

A Muslim environmentalist explores the fascinating intersection of environmentalism and Islam. Muslims are compelled by their religion to praise the Creator and to care for their community. But what is not

widely known is that there are deep and long-standing connections between Islamic teachings and environmentalism. In this groundbreaking book, Ibrahim Abdul-Matin draws on research, scripture, and interviews with Muslim Americans to trace Islam's preoccupation with humankind's collective role as stewards of the Earth. Abdul-Matin points out that the Prophet Muhammad declared "the Earth is a mosque." Using the concept of Deen, which means "path" or "way" in Arabic, Abdul-Matin offers dozens of examples of how Muslims can follow, and already are following, a Green Deen in four areas: "waste, watts (energy), water, and food."
