'Raising your consciousness to the 'God Winks' that often go by unnoticed, and recognising them as tremendously personal, will affirm that your existence is not random and that you have a role to play in life's grand plan' Squire Rushnell Have you ever thought about someone who hasn't crossed your path or mind in years and then bumped into them? Are there such things as coincidences? Do they mean anything? According to Rushnell, 'coincidences, like winks from God, are encouraging signposts along your universal path.' In *WHEN GOD WINKS* he explains that a 'God Wink' is a message of reassurance that comes our way whenever we need it and that coincidences are the best way for God to establish a presence in our lives. Rushnell shows how to retrace crossroads (a new job, a death, change in relationships) that took us in an entirely different direction, showing how to map the turning points made by coincidences that have guided us throughout our lives. Best of all, *WHEN GOD WINKS* shows us how to create our own coincidences and turn wishes into winks. He explains his compelling theory of coincidences through a series of incredible stories and motivational writing on how coincidences play a role in all facets of our life, including career, love, history, medicine, entertainment, sports and politics with telling comments from Oprah Winfrey, Barbara Streisand, Mark Twain, Kevin Costner and other celebrities. *WHEN GOD WINKS* is a fascinating bridge to self-discovery.

A Wrinkle in Time is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg, Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
