The First Native American tradition of elders imparting wisdom to younger generations has no counterpart in contemporary

American culture. Our culture has no systematic way of transmitting the knowledge of our seniors to our young people. If anything, a societal disconnect or gulf exists between our older and our younger people. As a grandfather and as an elder at age 60, I use this book to pass on to my three grandchildren (as well as to other readers) 50 bits of wisdom I have learned from six decades of living in this society. The 50 bits are derived from experiential learning. They come from the joys and the vicissitudes I have had and from the successes and the mistakes I have made. The 50 bits of wisdom are by no means intended to be exhaustive of all the wisdom available to us. Numerous sources contain additional and valuable wisdom, and I encourage my grandchildren (and my readers) to pursue these other helpful resources. The 50 bits are those which I have been able to integrate into my life, and so I know them personally. They are a part of my value system and my daily behavior. My goal for this book is to help make my three grandsons lives (and my readers lives) a little bit better, happier, or easier. My hope is that something written here will be of benefit to them. The book is organized into three sections and an

appendix. Section I: Universal (Non-Spiritual) Concepts is devoted to a discussion of 14 concepts experienced by most, if not all, people; hence, the word, Universal. These concepts are: Change; Struggle; Suffering; Wounded and Healing; Diversity; Acknowledgment; Cause and Effect; Broad Strokes versus Fine Strokes; Communication; Transcending Ego; Projection; Support Systems; Unintended Outcomes; and Entropy. Section II: Spiritual Concepts explicates 19 concepts which draw on interfaith spiritual wisdom, transcending teachings of any one particular religion. They also draw on near-death experience research findings. The concepts included are: God; The Golden Rule; Unconditional Love; We Are All Children of God; Religious Pluralism; Mindfulness; Balance; Helping Others; Karma; Dark Night of the Soul; Compensatory Gifts; Go With Your God-Given Gifts; Environmental Stewardship; Putting

Problems in Gods Hands; Thankfulness; Mission; Be a Good Person; Forgiveness; and Find Your Own Spiritual Path. Section III: Helpful Maxims elucidates 17 principles which have provided guidance for leading my life. These are: take a problem and turn it into an opportunity; most things in life are neither all black nor all white; always try to make things a little bit better; it is better to be safe than sorry; speak truth to power; bad things may happen to good people; when is enough, enough?; waste not, want not; the known often seems safer than the unknown; all behavior is understandable if seen through the eyes of the person doing the behaving; learn from your mistakes; never stop learning; trust your feelings; if you are not sure, dont make a hasty decision; dont be afraid to go against the grain; make hay while the sun shines; and, vote. And, the Appendix catalogues 20 additional axioms, the truth of which I have been able to glimpse but the

essence of which I have not been able to incorporate into my life as fully as the 50 bits of wisdom discussed in Sections I, II, and III. These are: if it isnt broken, dont fix it; let the person who is without sin cast the first stone; dont panic; what are the underlying, unspoken feelings here?; dont look back; cut your losses; everything happens for a reason; make time for play; buyer beware; laughter is good medicine; when one door closes, another door opens; image, regrettably, matters; two steps forward and one step back; expectations may lead to disappointments; speak from your own experience; the ends do not justify the means; do the job right; practice right speech; recognize a window of opportunity; and namaste! In Step with the Spirit Sounds True  
Peterside felt God must be having a laugh; if not, why would he choose to put his destiny across great waters. Knowing fully well the fear of water was the beginning of wisdom for Peterside. But God did have a great sense of humour when he revealed that his destiny was across great waters, then confronts Peterside with great sand instead. But Peterside was determined to be the hero of his destiny: whether he had to swim to get there or walk until his feet blistered. Having to confront every obstacle imaginable were the best and worst times of his life. It was the time for destiny fulfilment and an era to lean on his own understanding, and believing this was his lot to fulfil. His time had come, and nothing was going to stop him. Come petrifying great waters, come deadly Nubian snakes, come scary bedouin, come monstrous sand storms, come killer pirates, even trigger happy guards and crazy boat captains. He was determined to get to his destiny as predicted. But one thing he forgot to take into account; Man proposes, but God disposes.

Are you looking for a job?. As one door closes another one opens. There may be a brief time in between the doors when you are meant to reflect or learn from your old door before you can be ready to step into the opening of a new one. A closed door may be an opportunity to move forward in our lives. This is a time of preparation, a time to find peace within you. The door that was shut will always be a glass door. Look back through it with gratitude and

embrace every moment you had, while it was open. It was a part of you, which has helped mold you into the person you have become. Failure is there not without a reason. It's there to give you the wisdom you need to succeed. Each failure you encounter increases your wisdom and brings you one step closer to success. If you have this mindset, you will see failure differently. You will see each failure as an opportunity to learn. "Your new door is opening; don't miss a step or a chance to walk through it". Your three most powerful tools at this point will be to have faith, allow time to heal wounds, and have patience. When one door closes another one opens bringing opportunities and adventure beyond our wildest imagination. When faced with that locked door, take a deep breath, give a prayer of thanks, and prepare for the miracle that will become your life. Hold on to your dreams and never let them go. Show the rest of the world how wonderful, unique and special you are by giving your circumstances a chance and others the benefit of the doubt. Never give up. One Door Closes, Another Door Opens W. day "steel rail nomads," *One More Train to Ride* provides a revealing picture of today's American hobo. Interspersed with their stories are original poems and songs echoing the ancient lyricism and loneliness of life on the road. Their connections with the past make the experiences of these hoboes even more striking, as they ride freight trains and jungle up in hobo camps, light years away from the 21st-century cyberworld -- yet touching the very core of American freedom and individualism. Cliff Williams skillfully elicits details of family background, motives, and clear insights into the daily life and philosophy of the modern hobo. With its evocative link to the past, *One More Train to Ride* continues a long tradition of books on hobo oral history, including Nels Anderson's *The Hobo* (1923) and Thomas Minehan's *Boy and Girl Tramps of America* (1934).

Humanity has sought identification of self through the guise of the ego yet not fully understanding its placement. What can you say about yourself? Do you know who you are and what you represent? Can you identify with whom you project out into the world? Are you aware that your ego has manipulated who and what you've identified about yourself in conjunction as the illusion? Humanity is undergoing a spiritual evolution where every human being is responsible for their own soul's evolution. Humans must realize that to remain of this world, we must ascend to a higher consciousness and enlightenment, becoming the dictator of our own lives, a knowing. The Scientific Roots of Wisdom, Compassion, and What Makes Us Good Jewish Lights Publishing

From the field's pioneer, an exploration of the neurobiology and psychology of wisdom: what science says it is and how to nurture it within yourself—at any stage of your life. What exactly does it mean to be "wise?" And is it possible to grow and even accelerate its unfolding? For over two decades, Dr. Dilip Jeste has led the search for the biological and

cognitive roots of wisdom. What's emerged from his work is that wisdom is a very real and deeply multilayered set of traits. Across many cultures and centuries, he's found that wise people are compassionate and empathetic, aware of their gifts and blind spots, open-minded, resolute and calm amid uncertainty, altruistic decision-makers who learn from their experiences, able to see from many perspectives and "altitudes," and often blessed with a sense of adventure and humor. "The modern rise in suicides, opioid abuse, loneliness, and internet addiction is damaging people's health and destroying the social fabric," Dr. Jeste reflects. But we all have the ability to nurture and grow every facet of wisdom to face these challenges and others more effectively. If you seek to be a wiser person—with your family, at work, and in your community—this book will show you how, with the researcher who's launched and advanced this exciting new path to our highest human potential.
