The inspirational bestseller that
ignited a movement and asked us
to find our WHY Discover the
book that is captivating millions on

TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. *START WITH WHY* asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to

repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won't truly buy into a product, service, movement, or idea until they understand the WHY behind it. *START WITH WHY* shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it's the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

that is at once a murder mystery, a coming-of-age narrative and a celebration of nature ” (The New York Times Book Review). For years, rumors of the “ Marsh Girl ” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls

home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. Where the Crawdads Sing is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Delia Owens reminds us that we are forever shaped by the

children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

Start with Why

A genre-bending work of journalism and memoir by award-winning writer Tracie McMillan tallies the cash benefit—and cost—of racism in America. In *The White Bonus*, McMillan asks a provocative question about racism in America: When people of color are denied so much, what are white people given? And how much is it worth—not in amorphous privilege, but in dollars and

cents? McMillan begins with three generations of her family, tracking their modest wealth to its roots: American policy that helped whites first.

Simultaneously, she details the complexities of their advantage, exploring her mother's death in a nursing home, at 44, on Medicaid; her family's implosion; and a small inheritance from a banker grandfather. In the process, McMillan puts a cash value to whiteness in her life and assesses its worth. McMillan then expands her investigation to four other white subjects of different generations across the

U.S. Alternating between these subjects and her family, McMillan shows how, and to what degree, racial privilege begets material advantage across class, time, and place. For readers of Robin DiAngelo ' s White Fragility and Heather McGhee ' s The Sum of Us, McMillan brings groundbreaking insight on the white working class. And for readers of Tara Westover ' s Educated and Kiese Laymon ' s Heavy, McMillan reckons intimately with the connection between the abuse we endure at home and the abuse America allows in public.
