Where Do I Fill Ac On 97 Expedition

Whenever you open the AC system, you should replace the receiver/drier. It is sensitive to moisture, and replacing it with a fresh one will ensure your AC system works properly. It will always be located close to the condenser. In a miata, it is located through this hole under the plastic in front of the radiator.

How to Fill Gas in AC? - Simple Guide to Charge Your AC
This will vary depending where you work. In the first instance, you should speak to your appraiser or Responsible Officer (RO) about your organisation’s forms or procedures for recording your supporting information and/or the appraisal discussion. Some trusts may decide to purchase an electronic integrated appraisal and revalidation system which will include appraisal forms.

Where Do I Fill Ac
Step 1: Turn on your AC. Start your car and turn your AC to Max or High. Step 2: Determine if AC compressor is engaging. An AC compressor is a device driven by the accessory belt that converts the refrigerant from liquid to gas. The compressor has a clutch at the end of it that should be spinning with the accessory belt when the AC is on high.
