On a freezing January in 1992, five teenage girls crowded into a car. By the end of the night, only four of them were alive. The fifth had been tortured and mutilated nearly beyond recognition. Her name was Shanda Sharer; her age-twelve. When the people of Madison, Indiana heard that a brutal murder had been committed in their midst, they were stunned. Then the story became even more bizarre. The four accused murderers were all girls under the age of eighteen: Melinda Loveless, Laurle Tackett, Hope Rippey, and Toni Lawrence. Here, for the first time, veteran true crime journalist Aphrodite Jones reveals the shocking truth behind the most savage crime in Indiana history—a tragic story of twisted love and insane jealousy, lesbianism, brutal child abuse, and sadistic ritual killing in small-town America...and of the young innocent who paid the ultimate price.

The "beautiful" novel that inspired the Showtime series, from a Nebula Award finalist (The New York Times). The Man Who Fell to Earth tells the story of Thomas Jerome Newton, an alien disguised as a human who comes to Earth on a mission to save his people. Devastated by nuclear war, his home planet, Anthea, is no longer habitable. Newton lands in Kentucky and starts patenting Anthean technology—amassing the fortune he needs to build a spaceship that will bring the last three hundred Anthean survivors to Earth. But instead of the help he seeks, he finds only self-destruction, sinking into alcoholism and abandoning his spaceship, in this poignant story about the human condition—which has inspired both a film starring David Bowie and the new series starring Chiwetel Ejiofor—by the acclaimed author of *Mockingbird*. "Beautiful science fiction . . . The story of an extraterrestrial visitor from another planet is designed mainly to say something about life on this one." —The New York Times "An utterly realistic novel about an alien human on Earth . . . Realistic enough to become a metaphor for something inside us all, some existential loneliness." —Norman Spinrad, author of *The Iron Dream* "Those who know *The Man Who Fell to Earth* only from the film version are missing something. This is one of the finest science fiction novels of its period." —J. R. Dunn, author of *This Side of Judgment*

Verteran investigative journalist Stevie Cameron first began following the story of missing women in 1998, when the odd newspaper piece appeared chronicling the disappearances of drug-addicted sex trade workers from Vancouver's notorious Downtown Eastside. It was not until February 2002 that pig farmer Robert William Pickton would be arrested, and 2008 before he was found guilty, on six counts of second-degree murder. These counts were appealed and in 2010, the Supreme Court of Canada rendered its conclusion. The guilty verdict was upheld, and finally this unprecedented tale of true crime could be told. Covering the case of one of North America's most prolific serial killers gave Stevie Cameron access not only to the story as

it unfolded over many years in two British Columbia courthouses, but also to information unknown to the police - and not in the transcripts of their interviews with Pickton - such as from Pickton's long-time best friend, Lisa Yelds, and from several women who survived terrifying encounters with him. Cameron uncovers what was behind law enforcement's refusal to believe that a serial killer was at work.

On 7 December 2003 Daniel Morcombe disappeared on the Sunshine Coast, while waiting for a bus. For Bruce and Denise Morcombe - the parents of Daniel - and his brothers, Bradley and Dean, it was apparent within hours that something was very wrong. In the first few days following Daniel's disappearance, Bruce and Denise made a promise to their son that they would never ever stop looking for him, and bring who was responsible to justice. 'We will never give up.' As the nightmare of hours became days then weeks, and months and years, the family mobilised to become the moral force behind the longest criminal investigation in Australia's history. *Where is Daniel?* covers the decade-long investigation into the disappearance of Daniel and the extraordinary courage, dignity, persistence and fortitude Bruce and Denise displayed under unbearable circumstances. This determination also applied to Bruce and Denise's desire to mine something positive from the darkest of experiences. They started the Daniel Morcombe Foundation in 2005, to teach children about safety, and have since visited hundreds of schools around Australia. They've established Australia's largest annual child safety day-of-action, 'Day for Daniel', and utilised the funds raised to support other children who have been the victims of abuse. Over a decade later, with Daniel's killer brought to justice thanks to an amazing covert police sting, this is the family's story. *Where is Daniel?* is a testament to the enduring power of love between parents and their child, and the strength and bonds of family to survive.

John Cobby finally tells his story, 30 years after the murder of his wife, Anita. On 4 February 1986, John Cobby's life imploded. He was driving up the coast looking for his missing wife, Anita, when over the radio he heard: 'The body of a naked woman has been found in a paddock in western Sydney.' . . . As details emerged of the rape and murder of the gentle nurse and former beauty queen, outrage engulfed Australia. Five men were caught and, amid unprecedented security, jailed for life. For young reporter Mark Morri, the case was a baptism of fire. Told to 'find the husband', he despaired: Cobby had changed his name and disappeared. But the Daily Mirror found him, and Morri's interviews sold like hotcakes. For nearly 30 years, Morri and Cobby kept in touch. The Sting takes you on a journey behind Australia's most sensational undercover bust, revealing extraordinary new details. The story of the police sting that resulted in his confession reads like crime fiction, featuring an elaborately staged fake crime gang run by a 'Mr Big' that lured Cowan in with the promise of a hefty payout. The Sting takes you on a journey behind Australia's most sensational undercover bust, revealing extraordinary new details. It is a shocking insight into one of the country's most evil killers, and the operation that brought him down.

Well this is the fifth volume of short stories, and some may ask why he doesn't just pull his finger out and write a proper novel. *The Tooth Fairy* Momentum

How did a father with no criminal history come to be on trial for the brutal murder of his wife? It began with a phone call to Brisbane police on 20 April 2012. Allison, wife of real estate agent Gerard Baden-Clay, was missing. When investigating officers arrived at the family home, in one of the city's wealthiest suburbs, a neatly dressed Gerard was about to send the couple's three daughters off to school. Scratches on his face were shaving cuts, he told them. Police weren't so sure and opened one of Australia's most high-profile investigations. Ten days after Gerard reported Allison's disappearance, the body of the former beauty queen was discovered on a creek bank 14 kilometres from home. The Murder of Allison Baden-Clay is written by the investigative journalist who covered the case from the start. It weaves together exclusive interviews and police and court records to explain how an upstanding family man with no criminal history received a life sentence for murder. It's a story of love, lust, image, ambition and marriage. It's also a story about everyday choices and their consequences.

Policing Child Sexual Abuse provides a historical overview of the evolution of policing child sexual abuse in Queensland, tracing a legacy of failure (even corruption) in the decades leading up to the foundation of Taskforce Argos, a branch of the Queensland Police Service created in part as a response to criticisms of police shortcomings in this area. The book uses a combination of archival and open-source material to trace the shifting approach to policing child sexual abuse (CSA) from the 1960s, when juvenile justice first became a central focus of policing in Queensland, to the 2010s, at which point Taskforce Argos made international headlines for its primary role in bringing major international CSA offenders like Shannon McCooole, Benjamin "Warhead" Faulkner and Richard Huckle to justice. Examining archival material to pinpoint the reasons that CSA was not dealt with effectively in the past, the book shows that often these reasons were political, unrelated to the policing of CSA at all. It stands as a testament to the victims of CSA who have been failed by the system in the past. In addition, the book acts as a case study of how a police force with such a negative track record in policing this area was able to correct its path and reform its practices, to the point that it could emerge as a world-leader in policing CSA. Though nominally focused on policing in one Australian state, the implications are global, with Taskforce Argos's work naturally impacting on the CSA investigations of all of its partner agencies, both in Australia and internationally. Demonstrating how, even in contexts where police responses to CSA have been met with significant criticism, an opportunity still exists to reject historical failures in favour of a renewed commitment to proactive policing of CSA, this book will be of great interest to scholars of policing, historical criminology and child sexual abuse.
