The landmark story of how interracial love and marriage changed American history—and continues to alter the landscape of American politics When Mildred and Richard Loving wed in 1958, they were ripped from their shared bed and taken to court. Their crime: miscegenation, punished by exile from their home state of Virginia. The resulting landmark decision of *Loving v. Virginia* ended bans on interracial marriage and remains a signature case—the first to use the words “white supremacy” to describe such racism. Drawing from the earliest chapters in US history, legal scholar Sheryll Cashin reveals the enduring legacy of America’s original sin, tracing how we transformed from a country without an entrenched construction of race to a nation where one drop of nonwhite blood merited exclusion from full citizenship. In vivid detail, she illustrates how the idea of whiteness was created by the planter class of yesterday and is reinforced by today’s power-hungry dog-whistlers to divide struggling whites and people of color, ensuring plutocracy and undermining the common good. Not just a hopeful treatise on the future of race relations in America, *Loving* challenges the notion that trickle-down progressive politics is our only hope for a more inclusive society. Accessible and sharp, Cashin reanimates the possibility of a future where interracial understanding serves as a catalyst of a social revolution ending not in artificial color blindness but in a culture where acceptance and difference are celebrated.

An invaluable resource that documents the Black Power Movement by its cultural representation and promotion of self-determination and self-defense, and showcases the movement's influence on Black communities in America from 1965 to the mid-1970s. Unlike the Civil Rights Movement's emphasis on the rhetoric and practice of nonviolence and social and political goal of integration, Black Power was defined by the promotion of Black self-determination, Black consciousness, independent Black politics, and the practice of armed self-defense. Black Power changed communities, curriculums, and culture in the United States and served as an inspiration for social justice internationally. This unique two-volume set provides readers with an understanding of Black Power's important role in the turbulence, social change, and politics of the 1960s and 1970s in America and how the concepts of the movement continue to influence contemporary Black politics, culture, and identity. Cross-disciplinary and broad in its approach, **Black Power Encyclopedia: From "Black Is Beautiful" to Urban Uprisings** explores the emergence and evolution of the Black Power

Movement in the United States some 50 years ago. The entries examine the key players, organizations and institutions, trends, and events of the period, enabling readers to better understand the ways in which African Americans broke through racial barriers, developed a positive identity, and began to feel united through racial pride and the formation of important social change organizations. The encyclopedia also covers the important impact of the more militant segments of the movement, such as Malcolm X and the Nation of Islam and the Black Panthers.

It is the long, hot summer of 1963 and New York is filled with lovers, dreamers and protestors. Young African-American women grow out their hair and discover the taste of new freedoms. Young men, white and black, travel south to fight against segregation, praying for a society in which love is colour-free. Written in the late 1960s and early 1970s but overlooked in Kathleen Collins's lifetime, these stories mark the debut of a masterful writer whose electrifying voice was almost lost to history.

A powerful story about the marriage of a black man and a white woman, this volume offers a poignant and sometimes painful look at what it was like to be an interracial couple in the United States from the early 1940s to the mid-1990s.

A history of the intimate relations between Maori and Pakeha, and the intersections of public policy and private life. 'Exploring a surprisingly

unspoken part of New Zealand's history, Wanhalla's book is, by turns, heart-warming and heart-rending. Love, when it comes with colonial strings, can hurt. This important book, with its detailed research and long time span, tells why. It is powerful history.' - Charlotte Macdonald Philip Soutar died at Ypres in 1917. Before becoming a soldier, Soutar's life revolved around his farm at Whakatane, where he lived with his Maori wife Kathleen Pine in an 'as-you-please marriage, uncelebrated by a clergyman'. Matters of the Heart introduces us to couples like Philip and Kathleen to unravel the long history of interracial relationships in New Zealand. That history runs from whalers and traders marrying into Maori families in the early nineteenth century through to the growth of interracial marriages in the later twentieth. It stretches from common law marriages and Maori customary marriages to formal arrangements recognised by church and state. And that history runs the gamut of official reactions -- from condemnation of interracial immorality or racial treason to celebration of New Zealand's unique intermarriage patterns as a sign of us being 'one people' with the 'best race relations in the world'. In the history of intimate relations between Maori and Pakeha, public policy and private life were woven together. Matters of the Heart reveals much about how Maori and Pakeha have lived together in this country and our changing attitudes to race, marriage and intimacy.

The End of Racism Rutgers University Press

Tears of the Heart is a classic interracial love story between beautiful Jennie and handsome Peter who were inseparable from the very first day they met. Their everlasting love is for one another, for their families and friends, and above all for God Almighty. Strength and faith become key qualities as the story develops, and these are traits that Jennie and Peter portray admirably. What wonderful qualities to possess which play significant roles in dealing with the tragic events and the evil that exists all around them. The horrifying backdrop for this powerful drama is overwhelming! We must all suffer with the pandemic, inequality, racial tensions, murder, looting, and everything else where modern day society has failed. Jennie and Peter are up to the task with their unrelenting love for one another and a deep belief in God to help lead them on the proper path to survival. Each chapter will keep readers totally involved and on the very edge of their seats in anticipation of the events that will happen next. As the story continues, it will be quite evident just how vital and precious the characters are leading up to what the author feels is the perfect ending. Tears of the Heart is a picture perfect title, as these special tears are often observed streaming down various cheeks right through the very ending. Mr. Clark honestly admits that he became so attached to his own characters that he experienced tears of the heart at times during his writing. He highly recommends that the reader have quick access to a bowl of buttery popcorn and a handful of soft tissues prior to the reading!

Impacts of Racism on White Americans Xlibris Corporation

People of different races have been falling in love for centuries, but it has only been in the last 30 years that interracial relationships have become acceptable in American society—not to mention by local police. This book addresses the problems facing interracial couples from a black perspective. From interracial dating to marriage and child rearing, it talks frankly about racism and discrimination, deals with the disapproval of relatives, discusses the challenges of blending cultures and traditions at home, and celebrates the richness that an interracial relationship offers. Based on interviews with hundreds of biracial couples, this invaluable, savvy handbook will help black Americans navigate the challenges of having a white partner.

Today, the images of Catholic priests and nuns marching in 1960s civil rights protests are iconic. Their cassocks and habits clothed the movement in sacred garments. But by the time of those protests Catholic Civil Rights activism already had a long history, one in which the religious leadership of the Church played, at best, a supporting role. Instead, it was laypeople, first

African Americans and then, as they found white partners, black and white Catholics working together, who shaped the movement- regular people who, in self-consciously Catholic ways, devoted their time, energy, and prayers to what they called "interracial justice," a vision of economic, social, religious, and civil equality. Karen J. Johnson tells the story of Catholic interracial activism from the bottom up through the lives of a group of women and men in Chicago who struggled with one another, their Church, and their city to try to live their Catholic faith in a new, and what they thought was more complete and true, way. Black activists found a handful of white laypeople, some of whom later became priests, who believed in their vision of a universal church in the segregated city. Together, they began to fight for interracial justice, all while knitted together in sometimes-contentious friendship as members of the Mystical Body of Christ. In the end, not only had Catholic activists lived out their faith as active participants in the long civil rights movement and learned how to cooperate, and indeed love, across racial lines, but they had changed the practice of Catholicism. They broke down the hierarchy that placed priests above the laity and crossed the parish boundaries that defined urban Catholicism. Chicago was a vital laboratory in what became a national story. One in Christ traces the development of Catholic interracial activism, revealing the ways religion and race combined both to enforce racial hierarchies and to tear them down, and demonstrating that we cannot understand race and civil rights in the North without accounting for religion.

What motivates white racism? What effects does racism have on white Americans? The Second Edition of this provocative book reveals that racism remains a pervasive force in American society and that its effects on whites are still misunderstood. Combining the contributions of sociologists, historians and economists, this new edition contains updated chapters which take account of the developments in American society over the past 15 years. The editors expand on the recommendations they presented in the First Edition, demonstrating clearly the progress made and, more significantly, what remains to be achieved.

Why Rural Schools Matter Chicago Review Press

The subject of race (particularly as relates to interracial dating and marriage) has long been considered strongly controversial. I maintain that any lack of acceptance on the part of the races (where it still exists) is largely the result of a lack of familiarity—one to another. Knowledge, insight, and the dispelling of stereotypical rumor are each important elements necessary to bridge the racial gap that yet remains. The purpose of this book is to provide the material necessary to gain a greater understanding of just how truly connected we are as a people. While we will each possess our own individual dreams, hopes, fears, and insecurities, it is hopeful that (above all) we will recognize the presence and plan of God within each of our lives. The following material has been written in such a format that one can simply begin by opening the book on any given page (even starting in the middle if so desired). In your reading, it is my hope that you will glean valuable information along the way. The composition of material is likened to that of a family scrapbook or album; whose contents are assorted snippets, sentimental tokens, and snapshots of life. You might also compare it to a recipe; where a "dash of this, and a sprig of that" enter into the mix. Subjects range from healthcare to cuisine and even manage to include encapsulated, brief short story. The material is intended to educate, inform, and enlighten. Moreover, may it serve as a reminder of the obligation we all bear to show respect for all races and nationalities—looking beyond title, race, or ethnicity. In essence, seeking to know the true person, the heart, the genuine

soul—the individual.

How do adult children of interracial parents—where one parent is Jewish and one is Black—think about personal identity? This question is at the heart of Katya Gibel Azoulay's *Black, Jewish, and Interracial*. Motivated by her own experience as the child of a Jewish mother and Jamaican father, Gibel Azoulay blends historical, theoretical, and personal perspectives to explore the possibilities and meanings that arise when Black and Jewish identities merge. As she asks what it means to be Black, Jewish, and interracial, Gibel Azoulay challenges deeply ingrained assumptions about identity and moves toward a consideration of complementary racial identities. Beginning with an examination of the concept of identity as it figures in philosophical and political thought, Gibel Azoulay moves on to consider and compare the politics and traditions of the Black and Jewish experience in America. Her inquiry draws together such diverse subjects as Plessy v. Ferguson, the Leo Frank case, "passing," intermarriage, civil rights, and anti-Semitism. The paradoxical presence of being both Black and Jewish, she argues, leads questions of identity, identity politics, and diversity in a new direction as it challenges distinct notions of whiteness and blackness. Rising above familiar notions of identity crisis and cultural confrontation, she offers new insights into the discourse of race and multiculturalism as she suggests that identity can be a more encompassing concept than is usually thought. Gibel Azoulay adds her own personal history and interviews with eight other Black and Jewish individuals to reveal various ways in which interracial identities are being lived, experienced, and understood in contemporary America.

Tears of the Heart Duke University Press

A story of migration, identity and belonging, drawing on the stories of people from Audrey Osler's mixed-heritage family, over three centuries. Whether or not we trace our families from beyond the shores of Britain, we British people deserve a better understanding of our shared past, and opportunities to explore and recognise the complexities and contractions of empire. Careless or wilful amnesia has allowed the British migration narrative to begin in the mid-twentieth century, with migrants from India, Pakistan and the Caribbean forming the foundation of present-day multicultural Britain. A racist fixation means that some twenty-first-century Britons fantasise that people of colour arrived after World War Two, without any link to the country, to exploit the British welfare state and British hospitality. For people of colour the questions, Where are you from? No, where are you really from? often imply more than simple curiosity. They are political questions of identity, since the assumption (naive or aggressive) is that to be British and to belong you must be white. Says Audrey Osler: 'The British Empire frames and shapes my family's history. Whether born in Britain, like me or my father, or in some other distant British territory, like my mother, we all continue to experience the legacy of this same empire and the impact of its ambitions, politics, and economics. My family story, back to the eighteenth century, across every generation, is one of migration in different directions, over four centuries, journeys prompted by war, study, a global economic crisis, a fresh start, love, and even child abduction. The stories I tell here reveal as much about Britain as they do about the countries of the British Empire. This is not just my history, it elucidates the largely untold history of a nation and of its citizens, both people of colour and white.'

Explores the complex nature of interracial relationships, from dating and marriage to child rearing, racism, and discrimination.

The Community and Social Acceptance Simon and Schuster

When the Baby Boom generation was in college, the last miscegenation laws were declared unconstitutional, but interracial romances retained an aura of taboo. Since 1960 the number of mixed race marriages has doubled every decade. Today, the trend toward intermarriage continues, and the growing presence of interracial couples in the media, on college campuses, in the shopping malls and other public places draws little notice. *Love's Revolution* traces the social changes that account for the growth of intermarriage as well as the lingering prejudices and false beliefs that oppress racially mixed families. For this book author Maria P.P. Root, a clinical psychologist, interviewed some 200 people from a wide spectrum of racial and ethnic backgrounds. Speaking out about their views and experiences, these partners, family members, and children of mixed race marriages confirm that the barriers are gradually eroding; but they also testify to the heartache caused by family opposition and disapproving strangers. Root traces race prejudice to the various institutions that were structured to maintain white privilege, but the heart of the book is her analysis of what happens when people of different races decide to marry. Developing an analogy between families and types of businesses, she shows how both positive and negative reactions to such marriages are largely a matter of shared concepts of family rather than individual feelings about race. She probes into the identity issues that multiracial children confront and draws on her clinical experience to offer child-rearing recommendations for multiracial families. Root's "Bill of Rights for Racially Mixed People" is a document that at once empowers multiracial people and educates those who ominously ask, "What about the children?" *Love's Revolution* paints an optimistic but not idealized picture of contemporary relationships. The "Ten Truths about Interracial Marriage" that close the book acknowledge that mixed race couples experience the same stresses as everyone else in addition to those arising from other people's prejudice or curiosity. Their divorce rates are only slightly higher than those of single race couples, which suggests that their success or failure at marriage is not necessarily a racial issue. And that is a revolutionary idea! Author note: Maria P. P. Root, Ph.D., is a clinical psychologist and past President of the Washington State Psychological Association.

Mixed Marriage...Interreligious, Interracial, Interethnic UNC Press Books

I was inspired to write *Mixed Marriage* Interreligious, Interracial, Interethnic through my study of the Torah and its Mitzvot that prohibit certain mixed marriages while our greatest prophet (Moshe) and King David married outside the tribe. Moshe was Judaism's greatest prophet and led his people out from Egyptian slavery. King David was Judaism's greatest King and the great-grandson from the mixed marriage of Ruth, the Moabitess and Boaz. The Messiah is prophesied to descend from King David as did Jeshua of Nazareth the Christian Messiah.

Stephen Foster's "My Old Kentucky Home" has been designated as the official state song and performed at the Kentucky Derby for decades. In light of the ongoing social justice movement to end racial inequality, many have questioned whether the song should be played at public events, given its inaccurate depiction of slavery in the state. In *Slavery and Freedom in the Bluegrass State*, editor Gerald L. Smith presents a collection of powerful essays that uncover the long-forgotten stories of pain, protest, and perseverance of African Americans in Kentucky. Using the song and the museum site of My Old Kentucky Home as a central motif, the chapters move beyond historical myths to bring into sharper focus the many nuances of Black life.

Chronologically arranged, they present fresh insights on topics such as the domestic slave trade, Black Shakers, rebellion and racial violence prior to the Civil War, Reconstruction, the fortitude of Black women as they pressed for political and educational equality, the intersection of race and sports, and the controversy over a historic monument. Taken as a whole, this

groundbreaking collection introduces readers to the strategies African Americans cultivated to negotiate race and place within the context of a border state. Ultimately, the book gives voice to the thoughts, desires, and sacrifices of generations of African Americans whose stories have been buried in the past.

"Marcus (English, CUNY-Graduate Center and City College of New York) explores race, gender, and reading in Europe during the 1920s and 30s--a period coinciding with the end of empire and the rise of fascism. The author analyzes the work of such novelists as Virginia Woolf, Nancy Cunard, Mulk Raj Anand, and Djuna Barnes, and their treatment of cultural issues of their time--particularly imperialism and totalitarianism--in an effort to "relocate the heart of darkness in London and Paris, away from those light-filled lands of Africa and India where it has lodged in the Western imagination."
