The underbelly of Los Angeles, 2008; a place where hometown hard-lucks and wayward hustlers scrounge for hope in gutters. Top of the heap: Alvi Drake, an aged pro skateboarder whose lone thrill is a pill-fueled escape from the terror of past ghosts. Once news hits of the disappearance of an old flame, Alvi's plummet smashes through rock bottom, sending him on a quest to find her. With help from his fellow damned (Mongo, Chester and Faye), he spirals through neon wilderness, stumbling upon an underground of sex and drug trafficking, the depths of which street life has yet to take him. Praise for The Neon Lights are Veins: "Knight's slangy prose is a perfect fit for characters whose dreams die slowly or explosively." —Publishers Weekly "The Neon Lights Are Veins is a dope-fueled gutter-punk odyssey through a gaudy nightmare version of Los Angeles. With echoes of James Ellroy and Nathanael West, Knight carves out his own bit of L.A. crime-writing turf in this impressive debut." —Richard Lange, author of Dead Boys, This Wicked World, Angel Baby, Sweet Nothing and The Smack "Nolan Knight has written a dark, dirty and entertaining sewer ride through the neon-lit streets of Los Angeles. Imagine Nathanael West and Darby Crash writing a 21st century noir and you've

got The Neon Lights Are Veins. Highly recommended." —Jim Ruland, author of Forest of Fortune, My Damage: The Story of a Punk Rock Survivor and Do What You Want: The Story of Bad Religion "Nolan Knight is at the forefront of Hard-Ass-Noir. He's the mad hatter of words and dark moody storytelling. He's a creative crime-pugilist!" —Frank Bill, author of Crimes in Southern Indiana, Donnybrook and The Savage "Nolan Knight's The Neon Lights Are Veins is unlike anything I've read before (and that's saying something!). The novel's story is a fast-paced mystery and caper, dragging the reader through the underbelly of the Los Angeles night, but most impressive is Knight's style: in your face and no-holds-barred." —Steph Post, author of Lightwood and Miraculum "High action. Very fast paced. A great read. Highly Recommended." —S.W. Lauden, author of Bad Citizen Corporation and Grizzly Season

There has been a nuclear war on Earth, and from the ashes rose a new society with a world government run from the capital city built on Manhattan Island after Manhattan was obliterated by a "sun-bomb." Far out in space, a four-eyed, eight-armed alien known only as "the Nipe" is looking for someplace to set down and repair his damaged, gradually failing spaceship. Nipe crashes on earth and begins to wreak carnage and death as it tries to survive and to find a way off the planet. No one survives contact with the alien and no one can determine the reasons for its actions. The only solution appears to be to develop an enhanced human to confront and defeat the alien.

Working with Paper builds on a growing interest in the materials of science by exploring the gendered uses and meanings of paper tools and technologies, considering how notions of gender impacted paper practices and in turn how paper may have structured knowledge about gender. Through a series of dynamic investigations covering Europe and North America and spanning the early modern period to the twentieth

century, this volume breaks new ground by examining material histories of paper and the gendered worlds that made them. Contributors explore diverse uses of paper—from healing to phrenological analysis to model making to data processing—which often occurred in highly gendered, yet seemingly divergent spaces, such as laboratories and kitchens, court rooms and boutiques, ladies' chambers and artisanal workshops, foundling houses and colonial hospitals, and college gymnasiums and state office buildings. Together, they reveal how notions of masculinity and femininity became embedded in and expressed through the materials of daily life. Working with Paper uncovers the intricate negotiations of power and difference underlying epistemic practices, forging a material history of knowledge in which quotidian and scholarly practices are intimately linked.

From Lisa Tucker, the critically acclaimed author of Once Upon a Day and The Song Reader, comes an extraordinary novel about the way we live now: the choices we make and the decisions we let life make for us. Matthew and Amelia were once in love and planning to raise a family together, but a decade later, they have become professional enemies. To Amelia, who has dedicated her life to medical ethics, Matthew's job as a high-powered pharmaceutical executive has turned him into a heartless person who doesn't care about anything but money. Now they're kept in balance only by Matthew's best and oldest friend, Ben, a rising science superstar -- and Amelia's new boyfriend. That balance begins to crumble one night when, coming home to his upscale Philadelphia loft, Matthew finds himself on a desolate bridge face-to-face with a boy screaming for help. Homeless for most of his life, ten-year-old Danny is as streetwise as he is world-weary, and his desperation to save his three-year-old sister means he will do whatever it takes to get Matthew's help. What follows is an escalating game of one-upmanship between Matthew, Amelia, and Danny, as all three players struggle to defend what is most important to them -- and are ultimately forced to reconsider what they truly want. Dazzlingly written with a riveting story that will resonate with readers everywhere, Lisa Tucker's The Cure for Modern Life is a smart, humorous, big-hearted novel about what it means in the twenty-first century to be responsible, to care about other people, and to do the right thing.

The Federal Trade Commission receives more complaints about rogue debt collecting than about any activity besides identity theft. Dramatically and entertainingly, Bad Paper reveals why. It tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"—the uncollected debts that are sold off by banks for pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of strivers and rogues, Jake Halpern chronicles their lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of

unsuspecting consumers. He also tracks a "package" of debt that is stolen by unscrupulous collectors, leading to a dramatic showdown with guns in a Buffalo corner store. Along the way, he reveals the human cost of a system that compounds the troubles of hardworking Americans and permits banks to ignore their former customers. The result is a vital exposé that is also a bravura feat of storytelling.
