While elite merchants, financiers, shopkeepers, and customers were the most visible producers, consumers, and distributors of goods and capital in the nineteenth century, they were certainly not alone in shaping the economy. Lurking in the shadows of capitalism's past are those who made markets by navigating a range of new financial instruments, information systems, and modes of transactions: prostitutes, dealers in used goods, mock auctioneers, illegal slavers, traffickers in stolen horses, emigrant runners, pilfering dock workers, and other ordinary people who, through their transactions and lives, helped to make capitalism as much as it made them. Capitalism by Gaslight illuminates American economic history by emphasizing the significance of these markets and the cultural debates they provoked. These essays reveal that the rules of economic engagement were still being established in the nineteenth century: delineations between legal and illegal, moral and immoral, acceptable and unsuitable were far from clear. The contributors examine the fluid mobility and unstable value of people and goods, the shifting geographies and structures of commercial institutions, the blurred boundaries between legitimate and illegitimate economic activity, and the daily lives of men and women who participated creatively—and often subversively—in American commerce. With subjects ranging from women's studies and African American history to material and consumer culture, this compelling volume illustrates that when hidden forms of commerce are brought to light, they can become flashpoints revealing the tensions, fissures, and inequities inherent in capitalism itself. Contributors: Paul Erickson, Robert J. Gamble, Ellen Gruber Garvey, Corey Goettsch, Joshua R. Greenberg, Katie M. Hemphill, Craig B. Hollander, Brian P. Luskey, Will B. Mackintosh, Adam Mendelsohn, Brendan P. O'Malley, Michael D. Thompson, Wendy A. Woloson.

From the court of King James to the deadly underworld of Jacobean London, Martin Stephen's superb debut novel is as rich in atmosphere as it is in tension. Historical fiction of the highest order, *The Desperate Remedy* is a thrilling tale of courtly machinations. Thief. Informer. Double-dealer. Pimp. Will Shadwell may not be the most moral of men, but to gentleman spy Henry Gresham he is invaluable. During the reign of King James I a man must know his enemies to survive and Shadwell is one of Gresham's best sources. Then Shadwell is discovered brutally murdered. And before Gresham is able to establish why, he is summoned by the man he fears most: Robert Cecil, the King's Machiavellian Chief Secretary. Cecil wants Gresham to investigate Sir Francis Bacon's private life. When Gresham begins his inquiries, he uncovers a plot so audacious it is scarcely believable: a conspiring clutch of Catholic lords and a trail of gunpowder underneath the Houses of Parliament.

The Federal Trade Commission receives more complaints about rogue debt collecting than about any activity besides identity theft. Dramatically and entertainingly, *Bad Paper* reveals why. It tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"—the uncollected debts that are sold off by banks for pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of strivers and rogues, Jake Halpern chronicles their lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of unsuspecting consumers. He also tracks a "package" of debt that is stolen by unscrupulous collectors, leading to a dramatic showdown with guns in a Buffalo corner store. Along the way, he reveals the human cost of a system that compounds the troubles of hardworking Americans and permits banks to ignore their former customers. The result is a vital exposé that is also a bravura feat of storytelling.

From Lisa Tucker, the critically acclaimed author of *Once Upon a Day* and *The Song Reader*, comes an extraordinary novel about the way we live now: the choices we make and the decisions we let life make for us. Matthew and Amelia were once in love and planning to raise a family together, but a decade later, they have become professional enemies. To Amelia, who has dedicated her

life to medical ethics, Matthew's job as a high-powered pharmaceutical executive has turned him into a heartless person who doesn't care about anything but money. Now they're kept in balance only by Matthew's best and oldest friend, Ben, a rising science superstar -- and Amelia's new boyfriend. That balance begins to crumble one night when, coming home to his upscale Philadelphia loft, Matthew finds himself on a desolate bridge face-to-face with a boy screaming for help. Homeless for most of his life, ten-year-old Danny is as streetwise as he is world-weary, and his desperation to save his three-year-old sister means he will do whatever it takes to get Matthew's help. What follows is an escalating game of one-upmanship between Matthew, Amelia, and Danny, as all three players struggle to defend what is most important to them -- and are ultimately forced to reconsider what they truly want.
