Will anyone ever know what happened to the Aloha, a sport fishing boat that vanished with all onboard in the Pacific off San Francisco's coast? 'Knowing is a complex, inexact business.

There's real truth and then there's courtroom truth; a jury's verdict may or may not approach what actually happened. Nor can someone reading about such an event—one that had no witnesses or hard evidence to explain

it—be sure where the truth lies. But trials, judges, and juries are what we use in our legal system to find truth. The Widow Wave explores this alternate reality. It is a fascinating true-life mystery and lawyer procedural rolled into one. Jay Jacobs offers no facile answers—and he's not the flawless protagonist typically starring in such dramas. He lets us see how such a big wrongful death case really unfolds, in a true story that reads like a novel. Will the jury find the truth? Will the reader? "An intelligently told true story of honor, integrity and justice. The Widow Wave reminded me of The Perfect Storm, played out in a taut courtroom thriller. Jay Jacobs masterfully weaves the harrowing tale

---

of the last voyage of the Aloha, and courtroom battle that followed. A great read." — Robert Dugoni, New York Times Bestselling Author of *My Sister's Grave* "A compelling story of a modern day maritime tragedy that beautifully discusses the vital importance of advances in observational technologies, forecasts and communications in avoiding future loss of life at sea. Jacobs skillfully weaves together the legal, scientific and maritime narratives to enthrall and educate the reader." — Julie Thomas, Scripps Institution of Oceanography, Manager of the Institute of Geo and Planetary Physics "Trial lawyer Jay Jacobs, in a unique, personally revealing memoir, defends a widow and

her deceased husband's honor in an intimate first person account of how the civil trial process unfolds.... The reader will learn about the strategies, shoals, and embroilments of a real life, vigorously contested trial with its many emotional upheavals." — Justice James Marchiano (ret.), formerly Presiding Justice, California Court of Appeals, First Appellate District "Jacobs' vivid prose pulls you into a compelling drama, deftly transporting you from the courtroom to the storm-tossed Pacific and back to the courtroom again. The book reads like a well-wrought detective novel." — Daniel James Brown, New York Times Bestselling Author of *The Boys in the Boat* [Air Fryer Cookbook](#) Duxbury

In 2011, Jennifer Pharr Davis became the overall record holder on the Appalachian Trail. By hiking 2,181 miles in 46 days - an average of 47 miles per day - she became the first female to ever set that mark. But this is not a book about records or numbers; this is a book about endurance and faith, and most of all love.

---

The most amazing part of this story is not found at the finish, but is discovered through the many challenges, lessons and relationships that present themselves along the trail. This is Jennifer's story, in her own words, about how she started this journey with a love for hiking and more significantly a love for her husband Brew. Together, they were able to overcome rugged mountains and raging rivers, sleet storms and 100 degree heat, shin-splints and illnesses. They made new friends and tested old friendships; they shared together laughter, and tears - a lot of tears. But, through it all, they fell more in love with one another and with the wilderness. By completing this extraordinary amateur feat, Jennifer rose above the culture of multi-million dollar sports contracts that is marked by shortcuts and steroids. This is the story of a real person doing something remarkable. Jennifer Pharr Davis is a modern role-model for women - and men. She is an authentic hero.

While square-rigged sailing ships, steamboats and ferries, and ever-larger cruise and cargo-carrying vessels have made their mark on Puget Sound's maritime history, no

other vessels have captured the imagination of shore-bound seafarers like tugboats. Beginning in the 1850s when the first steam-powered tugboats arrived in the Sound from the East Coast via San Francisco, company owners and their crews competed fiercely for business, towing ships, log rafts, and barges. The magnetic attraction of powerful, tough tugs both large and small is unexplainable but enduring. This book, featuring about 200 rare historic images and carefully researched text, tells the colorful story of tug boating on Puget Sound.

"The recipes are concisely written and should provide owners of convection ovens with a solid initial repertoire." Publishers Weekly Once exclusive to professional bakeries and restaurants, convection ovens are becoming increasingly common in household kitchens. As the popularity of these appliances grows, more and more people are discovering the joys of cooking and baking in a convection oven. By continuously circulating hot air during the cooking process, convection ovens cook food more quickly and efficiently than ever before. Unlike microwave cooking, no special equipment is necessary, and the results are spectacular. Cooking

and roasting meats, poultry, and fish in a convection oven is particularly satisfying. The enveloping hot air seals in juices and flavor, while the shorter cooking time prevents dryness. Some of the mouth-watering recipes included here are Leg of Lamb, Roast Turkey, and Stuffed Flank Steak. Baking in a convection oven is practically foolproof. The even heat distribution ensures that breads and cakes rise quickly and bake thoroughly--no more charred bottoms and soupy middles! Biscuits, piecrusts, and puff pastries emerge light and flaky every time. Even novice bakers will achieve delicious results with recipes like Parker House Rolls, Napoleons, and Deep Dish Apple Pie.
