Psychology Press

The French-English volume of this highly acclaimed set consists of some 100,000 keywords in both French and English, drawn from the whole range of modern applied science and technical terminology. Covers over 70 subject areas, from engineering and chemistry to packaging, transportation, data processing and much more.

Empire of the Air Springer Nature

Empire of the Air tells the

story of three American visionaries—Lee de Forest, Edwin Howard Armstrong, and David Sarnoff—whose imagination and dreams turned a hobbyist's toy into radio, launching the modern communications age. Tom Lewis weaves the story of these men and their achievements into a richly detailed and moving narrative that spans the first half of the twentieth century, a time when the American romance with science and technology was at its peak. Empire of the Air is a tale of pioneers on the frontier of a new technology, of American entrepreneurial spirit, and of the tragic collision between inventor and corporation.

Electronics Elsevier Health Sciences

"Fetal heart rate

monitoring is widely used by almost every obstetrician as a way to document the case and to help decrease health care costs. This is a short reference on the physiologic benefits, instrumentation, application and interpretation of fetal heart rate monitoring. The second half of the book uses actual FHR strips and cases to illustrate various anomalies (fetal distress, fetal distress in prematurity, fetus with CNS dysfunction). Several new drugs have been introduced for use during labor that effect FHR"--Provided by publisher.

Copyright Office, Library of Congress

This handbook incorporates new developments in automation. It also presents a widespread and well-structured conglomeration of new emerging application areas, such as medical systems and health, transportation, security and maintenance, service, construction and retail as well as production or logistics. The handbook is not only an ideal resource for automation experts but also for people

new to this expanding field.

**Braddom's Physical Medicine and Rehabilitation E-Book** Open Road Media

New York Times Bestseller: "A thrill ride . . . The technical details and intricate depiction of Soviet life fascinate."

—Kirkus Reviews (starred review) American pilot Mitchell Gant barely escaped the USSR alive after stealing its cutting-edge stealth fighter. Nevertheless, he's going back again—this time, to rescue an American agent with evidence of a looming threat. A group of highly placed, power-hungry Soviets, who want to undermine any hope of a treaty between the superpowers, has plans to put a laser battle station into orbit and destroy America's space shuttle. To stop them, Gant will first have to maneuver across a thousand miles of airspace—in a helicopter. Once he arrives, he will find himself teaming up with an unexpected ally . . . "With this third Mitchell Gant adventure Thomas firmly establishes himself in the forefront of today's adventure/thriller writers." —Publishers Weekly
