Liberty on the Waterfront Cambridge University Press

'Fascinating . . . Shot through with fresh insights . . . No previous biography has attempted anything so comprehensive.'

Observer Nelson is a thrilling new appraisal of Horatio Nelson, the greatest practitioner of naval command the world has ever seen. It explores the professional, personal, intellectual and practical origins of one man's genius, to understand how the greatest warrior that Britain has ever produced transformed the art of conflict, and enabled his country to survive the challenge of total war and international isolation. In Nelson, Andrew Lambert - described by David Cannadine as 'the outstanding British naval historian of his generation' - is able to offer new insights into the individual quality which led Byron rightly to celebrate Nelson's genius as 'Britannia's God of War'. He demonstrates how Admiral Nelson elevated the business of naval warfare to the level of the sublime. Nelson's unique gift was to take that which other commanders found complex, and reduce it to simplicity. Where his predecessors and opponents saw a particular battle as an end in itself, Nelson was always a step ahead - even in the midst of terrifying, close-quarters action, with officers and men struck down all around him. 'Excellent . . . Worthy of the stirring events [it celebrates].' Independent

The criminal law has often been seen as central to the rule of the eighteenth-century landed é lite in England. This book presents a detailed analysis of the judicial process - of victims' reactions, pretrial practices, policing,

magistrates hearings, trials, sentencing, pardoning and punishment - using property offenders as its main focus. The period 1740-1820 - the final era before the coming of the new police and the repeal of the capital code - emerges as the great age of discretionary justice, and the book explores the impact of the vast discretionary powers held by many social groups. It reassesses both the relationship between crime rates and the economic deprivation, and the many ways that vulnerability to prosecution varied widely across the lifecycle, in the light of the highly selective nature of pretrial negotiations. More centrally, by asking at every stage - who used the law, for what purposes, in whose interests and with what social effects - it opens up a number of new perspectives on the role of the law in eighteenth-century social relations. The law emerges as less the instrument of particular é lite groups and more as an arena of struggle, of negotiation, and of compromise. Its rituals were less controllable and its merciful moments less manageable and less exclusively available to the gentry é lite than has been previously suggested. Justice was vulnerable to power, but was also mobilised to constrain it. Despite the key functions that the propertied fulfilled, courtroom crowds, the counter-theatre of the condemned, and the decisions of the victims from a very wide range of backgrounds had a role to play, and the criteria on which decisions were based were shaped as much by the broad and more humane discourse which Fielding called the 'good mind' as by the instrumental needs of the propertied é lites.

Drawn together in a comprehensive Introduction by Bernard Bailyn, these innovative essays include analyses of the climate and ecology that underlay the slave trade, pan-Atlantic networks of religion and commerce, as well as the inter-ethnic collaboration in the development of tropical medicine, science as a product of imperial relations, and the awareness of the Atlantic world in the mind of David Hume.

Bias to the Poor Fred B Rothman & Company

John Joseph wants men to know, in no

uncertain terms, that they don't need to eat steak, burgers, wings, ribs, or any other animal product, for that matter, to be strong—in fact, he would argue, eating animals is for the weak. Because when your protein sources come from animals, you're missing out on all of the nutritional benefits of a plant-based diet—a diet that can make you more fit, more sexy, and more manly. In *Meat Is for Pussies*, Joseph presents a throw-down of information, offering both personal and scientific evidence that a plant-based diet offers the best path to athleticism, endurance, strength, and overall health. In addition to handily dispelling the myths surrounding meat, Joseph offers workout advice, a meal plan, and recipes that make going plant-based easy. Flavor and vitamin-packed options like the Working Man Stew and Veggie Chili with Cornbread will keep men's (and women's) bodies healthy and energized, while workouts that emphasize cardio and strength training build endurance and stamina and prove that you don't need meat to build muscle. Joseph also offers living proof that living a plant-based lifestyle is badass, from super-athlete Brendan Brazier to MMA champion Jake Shields to Joseph himself, who is an Ironman Triathlete and still rocking out (at the age of fifty-two) on world tours as the frontman for his legendary band the Cro-Mags. Joseph's passion for educating the world about the benefits of a plant-based diet comes through on each page, in a voice and a vocabulary that is uniquely his own. At the end of the day, he wants readers to live a long, healthy, happy life . . . and he won't take no for an answer.

Meat Is for Pussies Boldface Books

A distinguished international team of historians examines the dynamics of global and regional change in the late eighteenth and nineteenth centuries. Providing uniquely broad coverage, encompassing North and South America, the Caribbean, Europe, Africa, the Middle East, South and Southeast Asia, and China, the chapters shed new light on this pivotal period of world history. Offering fresh perspectives on: - The American, French, and Haitian Revolutions - The break-up of the Iberian

empires - The Napoleonic Wars The volume also presents ground-breaking treatments of world history from an African perspective, of South Asia's age of revolutions, and of stability and instability in China. The first truly global account of the causes and consequences of the transformative 'Age of Revolutions', this collection presents a strikingly novel and comprehensive view of the revolutionary era as well as rich examples of global history in practice.

While Universal's *Dracula* and *Frankenstein* (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with *The Last Warning*, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows.

Filmographic data for the film conclude the entry. Universal's *The Shadow* short film series is covered in an appendix. Many rare illustrations and movie posters are also included.

This analytical interdisciplinary approach to the study of behaviour in world society attempts to make relatively advanced material intelligible to those without the background of political science which has hitherto been necessary. Dr Burton, viewing world society as a total environment in which the behaviour of individuals, groups, nations and states occurs, describes ethnic, political, economic and ideological systems and discusses all aspects of behaviour: decision-making; roles, non-rational activity, problems of perception, values and conflict. He shows how such behaviour relates to that which we know in all social groups and in more confined areas, and states that any analysis of international society, its problems and conflicts, which explains behaviour at one social level differently from activity at another social level must be misleading. This book provides a stimulating and challenging analysis of world society which will interest a wide range of those studying international relations, sociology and politics in universities, schools and colleges of education.

Atlantic Creoles in the Age of Revolutions Routledge

Psychosocial Rehabilitation is a comprehensive ready-reference for mental health practitioners and students, providing practical advice on the full range of interventions for psychosocial rehabilitation. It contextualises the interventions described and provides pointers to enable the reader to explore the theory and research. This manual recognises the wide-ranging impact of mental illness and its ramifications on daily life, and promotes a recovery model of psychosocial rehabilitation and aims to empower clinicians to engage their clients in tailored rehabilitation plans. The book is divided into five key sections. Section 1 looks at assessment covering tools available in the public domain, instruments, scoring systems, norms and applications for diagnosis and measurement of symptoms, cognitive functioning, impairment and recovery. Section 2 covers the full range of therapeutic interventions and offers advice on training and supervision requirements and evaluation of process, impact and outcome. Section 3 provides manuals and programs for intervention effectively provided as group activities. Section 4 explains how to design a full programme that integrates therapeutic interventions with group programmes as well as services provided by other agencies. The final section looks at peer support and self help, providing manuals and resources that support programmes and interventions not requiring professional or practitioner direction.

The Emergence of Penal Policy in Victorian and Edwardian England Hachette UK

Willi is the trailer trash housewife of the title. Her abusive husband won't let her get a job, one of her children is dead, and the other is verboten by her husband because he's gay. Her best and only friend, a large black woman who lives next door, worries that Willi's husband will end up killing her. A new woman comes to live in the trailer park and ends up having an affair with Willi's husband. When she finds out, Willi decides to get a job at the local Wal-Mart (a first step on the way to liberating

herself from him). Her husband will have none of it, and quoting the bible about how a wife is supposed to obey her husband, threatens all three women with a gun, and then beats Willi to within an inch of her life. She recovers enough to finally shoot him, releasing her from the torment that she'd been living in for years.--From publisher description.

Deviance, Terrorism & War Cambridge University Press

Companion volume to the author's *The Scientific Study of Foreign Policy*, this focuses on change in world affairs and on how to study and comprehend the change. Divided into two parts, Part I deals with the impact of change initiated by technological innovation and sustained by continuing advances in communications and transportation. Part II describes the present state of the art, how change is to be identified and traced to better comprehend the transformations that are occurring.

Crime, Protest and Popular Politics in Southern England, 1740-1850 Cambridge University Press

An examination of the circumstances of youthful delinquency in London in the early nineteenth century, and the legislative measures put in place to contain and control offenders.

Decennial Meeting John Wiley & Sons
Sailing the tide of a tumultuous era of Atlantic revolutions, a remarkable group of African-born and African-descended individuals transformed themselves from slaves into active agents of their lives and times. Big Prince Whitten, the black Seminole Abraham, and General Georges Biassou were "Atlantic creoles," Africans who found their way to freedom by actively engaging in the most important political events of their day. These men and women of diverse ethnic backgrounds, who were fluent in multiple languages and familiar with African, American, and European cultures, migrated across the new world's imperial boundaries in search of freedom and a safe haven. Yet, until now, their extraordinary lives and exploits have been hidden from posterity. Through prodigious archival research, Jane Landers radically alters our vision of the breadth and extent of the Age of Revolution, and our understanding of its actors. Whereas Africans in the Atlantic world are traditionally seen as destined for the slave market and plantation labor, Landers reconstructs the lives of unique individuals who managed to move purposefully through French, Spanish, and English colonies, and through Indian territory, in the unstable century between 1750 and 1850. Mobile and adaptive, they shifted allegiances and identities depending on which political leader or program offered the greatest possibility for freedom. Whether fighting for the King of Kongo, England, France, or Spain, or for the Muskogee and Seminole chiefs, their

thirst for freedom helped to shape the course of the Atlantic revolutions and to enrich the history of revolutionary lives in all times.

Thirty Years from Home, Or A Voice from the Main Deck Faber & Faber

If a picture is worth a thousand words, then it's a good bet that at least half of those words relate to the picture's copyright status. Art historians, artists, and anyone who wants to use the images of others will find themselves awash in byzantine legal terms, constantly evolving copyright law, varying interpretations by museums and estates, and despair over the complexity of the whole situation. Here, on a white—not a high—horse, Susan Bielstein offers her decades of experience as an editor working with illustrated books. In doing so, she unsnarls the threads of permissions that have ensnared scholars, critics, and artists for years. Organized as a series of “takes” that range from short sidebars to extended discussions, *Permissions, A Survival Guide* explores intellectual property law as it pertains to visual imagery. How can you determine whether an artwork is copyrighted? How do you procure a high-quality reproduction of an image? What does “fair use” really mean? Is it ever legitimate to use the work of an artist without permission? Bielstein discusses the many uncertainties that plague writers who work with images in this highly visual age, and she does so based on her years navigating precisely these issues. As an editor who has hired a photographer to shoot an incredibly obscure work in the Italian mountains (a plan that backfired hilariously), who has tried to reason with artists' estates in languages she doesn't speak, and who has spent her time in the archival trenches, she offers a snappy and humane guide to this difficult terrain. Filled with anecdotes, asides, and real courage, *Permissions, A Survival Guide* is a unique handbook that anyone working in the visual arts will find invaluable, if not indispensable.
