From bestselling author L A Cotton, comes a forbidden age-gap romance. Angst... drama... friendship... and football. Will you survive senior year? Peyton Myers has always been the life of the party. But behind her smile and sass is a

girl lost and alone, searching for her place in the world. Xander Chase has always been on the outside looking in. But behind his cool indifference and hard exterior is a guy afraid to open his heart to anyone. When he saves Peyton from a tragic accident, their lives are entwined forever. But Xander's not the hero of her story... no matter how much she wants him to be. She's a girl with her whole life ahead of her. He's a guy who is drifting through life. And although these two lost souls might be able to heal each other, there's one glaring problem.

She's still in high school... And completely forbidden.

After reading the newspapers and following the sharp oscillations of the stock market, it becomes apparent that hi-tech companies are of a different breed. Never before have the chances of making a fortune been so

realistic and never before have large companies been so fragile. What is really going on inside these hi-tech companies? What types of pressures and challenges are they facing? And how do they cope? Computer software providers, especially the ones that specialise in handling the data needs of organizations, are prime examples of these volatile companies. In the nineties we witnessed their growth from small businesses into multi-billion dollar giants. No wonder investors were attracted. In 1998 it was easy for such companies to raise as much money as they wanted. But now, investment funds have dried up. Why? And more importantly, is there a way to reverse the trend? This book gives the answers.

It was only supposed to be one time. But that red-hot one night stand from the party? The sexy man in the suit who gave me more Os in a few hours than I've had in a year? Turns out my charming British stranger is keeping a little secret. He's as much of a whiz in the kitchen as he is in the bedroom and soon we'll be going head-to-head in NYC's biggest bake off. My one-time lover is now my enemy. I vow to loathe him for all eternity, though that

would be easier if I wasn't dying to get naked with him again. But the more I learn more about my rival, the more I suspect he just might be everything I've wanted... If only I knew how to let him in...

How do otherwise considerate human beings do cruel things and still live in peace with themselves? Drawing on his agentic theory, Dr. Bandura provides a definitive exposition of the psychosocial mechanism by which people selectively disengage their moral self-sanctions from their harmful conduct. They do so by sanctifying their harmful behavior as serving worthy causes; they absolve themselves of blame for the harm they cause by displacement and diffusion of responsibility; they minimize or deny the harmful effects of their actions; and they dehumanize those they maltreat and blame them for bringing the suffering on themselves. Dr. Bandura's theory of moral disengagement is uniquely broad in scope. Theories of morality focus almost exclusively at the individual level. He insightfully extends the disengagement of morality to the social-system level through which wide-spread inhumanities are

perpetrated. In so doing, he offers enlightening new perspectives on some of the most provocative issues of our time, addressing: Moral disengagement in all aspects of the death penalty—from public policy debates, to jury decisions, to the processes of execution The social and moral justifications of major industries—including gun manufacturers, the entertainment industry, tobacco companies, and the world of "too big to fail" finance Moral disengagement in terrorism, and how terrorists rationalize the use of violence as a means of social change Climate change denial, and the strenuous efforts by some to dispute the overwhelming scientific consensus affirming the impact of human behavior on the environment "Al Bandura is the most cited individual in the history of psychology for the depth, breadth and originality of his ideas and writings. Now with his ground-breaking new contribution, *Moral Disengagement*, his reach extends not only to teachers and students but also to the general public --making them aware of everyday evils in many spheres of daily life that must be counteracted by mindful moral engagement." ----Phil Zimbardo, Ph.D.

Author, *The Lucifer Effect*; President, The Heroic Imagination Project "The authoritative statement by the world's most-cited living psychologist, laying out his influential theory. Plunge into these fascinating historical and modern case studies of moral disengagement—morality tales for all time, illuminated by the psychology of how people do harm to themselves and others."-- Susan T. Fiske, Psychology and Public Affairs, Princeton University "If you have wondered why good people do bad things, and even terrible and horrible things, then this is the only book you ever will have to read." ----Robert J. Sternberg, Professor of Human Development, Cornell University "Dr. Albert Bandura is one of the great behavioral scientists of our time. His superb contributions include a deep analysis of human morality, its fundamental importance and the complexity of its development." ----David A.
