A tour-de-force by rising indy
comics star Gene Yang,
American Born Chinese tells the
story of three apparently
unrelated characters: Jin Wang,
who moves to a new
neighborhood with his family
only to discover that he's the only
Chinese-American student at his
new school; the powerful

Monkey King, subject of one of
the oldest and greatest Chinese
fables; and Chin-Kee, a
personification of the ultimate
negative Chinese stereotype, who
is ruining his cousin Danny's life
with his yearly visits. Their lives
and stories come together with an
unexpected twist in this action-
packed modern fable. American
Born Chinese is an amazing ride,
all the way up to the astonishing
climax. American Born Chinese is

From the #1 New York Times
bestselling author of Who Moved
My Cheese?, a brilliant new parable
that shows readers how to stay
calm and successful, even in the
most challenging of environments.
A young man lives unhappily in a

valley. One day he meets an old man
who lives on a mountain peak. At
first the young man doesn't
realize that he is talking to one of
the most peaceful and successful
people in the world. But in the
course of further encounters and
conversations, the young man
comes to understand that he can
apply the old man's remarkable
principles and practical tools to his
own life to change it for the better.
Spencer Johnson knows how to tell
a deceptively simple story that
teaches deep lessons. The One
Minute Manager (co-written with
Ken Blanchard) sold 15 million
copies and stayed on the New York
Times bestseller list for more than
twenty years. Since it was published
a decade ago, Who Moved My
Cheese? has sold more than 25
million copies. In fact there are
more than 46 million copies of
Spencer Johnson's books in print,
in forty-seven languages—and with
today's economic uncertainty, his
new book could not be more
relevant. Pithy, wise, and
empowering, Peaks and Valleys is
clearly destined to become another

Spencer Johnson classic.

Harper Collins

In the tradition of Elizabeth Kolbert and Barry Lopez, a powerful, poetic and deeply absorbing account of the “lung” at the top of the world. For the last fifty years, the trees of the boreal forest have been moving north. Ben Rawlence's *The Treeline* takes us along this critical frontier of our warming planet from Norway to Siberia, Alaska to Greenland, Canada to Sweden to meet the scientists, residents and trees confronting huge geological changes. Only the hardest species survive at these latitudes including the ice-loving Dahurian larch of Siberia, the antiseptic Spruce that purifies our atmosphere,

the Downy birch conquering Scandinavia, the healing Balsam poplar that Native Americans use as a cure-all and the noble Scots Pine that lives longer when surrounded by its family. It is a journey of wonder and awe at the incredible creativity and resilience of these species and the mysterious workings of the forest upon which we rely for the air we breathe.

Blending reportage with the latest science, *The Treeline* is a story of what might soon be the last forest left and what that means for the future of all life on earth.

DESCRIPTION OF THE ORIGINAL BOOK
Who Moved My Cheese? is a motivational book that was published in 1998. With a style that brings it closer to the parable, its author, Spencer Johnson, clearly explains the typical reactions that people manifest when there is a change in work or life. His teachings are truly useful in all times and areas of human development, whatever the goal you want to achieve. The characters are two mice and two little people. They live the experience of change in their quest for Cheese, which represents the goal: happiness, work, money, love. The labyrinth in which the action

takes place is the real world, with unknown and dangerous areas, with dead ends, dark corners and rooms full of cheese. It is a bestseller in the business field since its launch and its validity lasts through the years.
ABOUT SPENCER JOHNSON: THE AUTHOR OF THE ORIGINAL BOOK
Spencer Johnson was an American writer and psychologist, born in 1930. Belonging to a middle-class family, his childhood was spent in the city of Mitchell, South Dakota. He attended college in California, where he studied psychology. Then he did his postgraduate in Ireland. He has served as medical director of Medtronic, the company that invented pacemakers, and a researcher for the Institute of Interdisciplinary Studies. But outside the medical field, the world-wide recognition arrived to him after the publication of the book *Who Moved My Cheese*, this work catapulted him to fame.

The Art of Dealing With People First Second

This is a bold and original reinterpretation of almost all of Shakespeare's major plays, in the light of the Marxist, feminist and semiotic ideas of our own time. Through a set of tenaciously detailed readings, the book illuminates a number of persistent problems or conflicts in Shakespearean drama - in particular a contradiction between words

and things, body and language, which is also explored in terms of law, sexuality and Nature. Language and desire, Terry Eagleton argues, are seen by Shakespeare as a kind of 'surplus' over and above the body, stable and social roles and a fixed human nature. But the attitude of the plays to such a 'surplus' is profoundly ambivalent; if they admire it as the very source of human creativity, they also fear its anarchic, transgressive force. Underlying such ambiguities, the book convincingly shows, is a deeper ideological struggle, between feudal traditionalism on the one hand, and the emergence of new forms of bourgeois individualism on the other. This book reveals how, in the light of our own contemporary theories of language, sexuality and society, we can understand the issues present in Shakespeare's drama which previously have remained obscure.

The Last Forest and the Future of Life on Earth Wiley-Blackwell Every time we eat, we have the power to radically transform the world we live in. Our choices can help alleviate the most pressing issues we face today: the climate crisis, infectious and chronic diseases, human exploitation and, of course, non-human exploitation. Undeniably, these issues can be uncomfortable to learn about but the benefits of doing so cannot be overstated. It is quite literally a matter of life and death. Through exploring the major ways that our current

system of animal farming affects the world around us, as well as the cultural and psychological factors that drive our behaviours, *This Is Vegan Propaganda* answers the pressing question, is there a better way? Whether you are a vegan already or curious to learn more, this book will show you the other side of the story that has been hidden for far too long. Based on years of research and conversations with slaughterhouse workers and farmers, to animal rights philosophers, environmentalists and everyday consumers, vegan educator and public speaker Ed Winters will give you the knowledge to understand the true scale and enormity of the issues at stake. *This Is Vegan Propaganda* is the empowering and groundbreaking book on veganism that everyone, vegan and sceptic alike, needs to read.

In the years since his election to the highest position in the Catholic Church, Pope Francis has breathed life into an aging institution, reinvigorated a global base, and created real hope for the future. His early accomplishments have been so remarkable that in 2014, *Fortune* magazine awarded the top spot of their coveted World 's Greatest Leaders list not to a captain of industry or political leader but to the new pontiff. But how did a relatively unknown priest from Argentina rise so quickly from obscurity to one of the top leaders of the twenty-first century? The answer lies in his humility, as well as the simple principles that have sprung from it. *Lead with Humility* explores 12 of these principles and shows how other leaders and managers across a broad spectrum can adapt them for the workplace with just as impressive results as our great pope has. These invaluable principles include:

- Don't stand over your employees--sit down with them
- Don't judge--assess
- Take care of people, not lobbies
- Go where you are needed
- Temper ideology with pragmatism
- Don't change--reinvent!
- And more

Even just a few years in, it is clear to all that Pope Francis's ability to inspire the world is unprecedented in modern times. *Lead with Humility* reveals the power of his methods, and helps anyone lead with the humility, grace, and authenticity that has

elevated the pope to where he is today and had a direct impact in inspiring everyone and everything around him.

THE MANUAL FOR LIVING is the first and best primer for living the best possible life -- as helpful in the twenty-first century as it was in the first. Epictetus's teachings rank among the greatest wisdom texts of human civilization. Epictetus taught that philosophy is a way of life and not just a theoretical discipline. To Epictetus, all external events are beyond our control; we should accept calmly and dispassionately whatever happens. However, individuals are responsible for their own actions, which they can examine and control through rigorous self-discipline. By putting into practice the ninety-three wise instructions that make up The Art

of Living, readers learn to successfully meet the challenges of everyday life.
