After years of pursuing a denim design career, Maris Carrington never imagined trading her Chicago studio for a New England shingled cottage. But when her life sketch takes an unexpected shape - smudged with a pastel seaside setting, rendered with pencil strokes of her father's estate shading family secrets, and inked with silhouettes of old friends reconnecting on a weathered boardwalk - nothing is what is seems as illusion blends with reality"--Cover verso.

Following the completion of the construction of new St. Peter's in the second decade of the seventeenth century, a series of monumental altarpieces was commissioned to decorate its altars. Here for the first time the altarpieces of St. Peter's are considered collectively, within the liturgical and artistic program of the building as a whole. Louise Rice takes a comprehensive approach to this critical chapter in the history of Italian Baroque art, offering insight into the mechanisms, motives, and meanings of papal patronage in the premier church of Catholicism.
