There are no bad guys or good guys. There are only better guys and worse guys. One of the worse guys is Val Toreth. In a world in which torture is a legitimate part of the investigative process, he works for the Investigation and Interrogation Division, where his colleagues can be more dangerous than the criminals he investigates. One of the better guys is Keir Warrick. His small corporation, SimTech, is developing a "sim" system that places users in a fully immersive virtual reality. A minnow in a murky and dangerous pond, he is only beginning to discover how many compromises may be required for success. Their home is the dark future dystopia of New London. A totalitarian bureaucracy controls the European Administration, sharing political power with the corporations. The government uses violence and the many divisions of the feared Department of Internal Security to maintain control and crush resistance. The corporations fight among themselves, using lethal force under the euphemism of "corporate sabotage," uniting only to resist attempts by the Administration to extend its influence over them. Toreth and Warrick are more natural enemies than allies. But mutual attraction and the fight for survival can create unlikely bonds.

"The evil that men do" has been chronicled for thousands of years on the European stage, and perhaps nowhere else is human fear of our own evil more detailed than in its personifications in theater. In *Stages of Evil*, Robert Lima explores the sociohistorical implications of Christian and pagan representations of evil and the theatrical creativity that occultism has engendered. By examining examples of alchemy, astronomy, demonology, exorcism, fairies, vampires, witchcraft, hauntings, and voodoo in prominent plays, *Stages of Evil* explores American and European perceptions of occultism from medieval times to the modern age.

A tantalizing collection of classic essays from one of the most gifted writers of his generation. • "The brainy, sarcastic, tender intelligence at the center of these pieces can make you laugh out loud: they can also move you to tears." —People Martin Amis brings the same megawatt wit, wickedly acute perception, and ebullient wordplay that characterize his novels. He encompasses the full range of contemporary politics and culture (high and low) while also traveling to China for soccer with Elton John and to London's darts-crazy pubs in search of the perfect throw. Throughout, he offers razor-sharp takes on such subjects as: American politics: "If history is a nightmare from which we are trying to awake, then the Reagan era can be seen as an eight-year blackout. Numb, pale, unhealthily dreamless: eight years of Do Not Disturb." Chess: "Nowhere in sport, perhaps in human activity, is the gap between the tryer and the expert so astronomical.... My chances of a chess brilliancy are the 'chances' of a lab chimp and a type writer producing King Lear." "His fascination with the observable world is utterly promiscuous: he will address a cathedral and a toilet seat with the same peeled-eyeball intensity." —John Updike
