GameFront](#)

Checking Hardware Configuration To check the
hardware configuration, first open your Wii
Remote's battery door. You'll want to check that
your Wii Remote contains two new "AA" batteries or
a charged battery pack. Also check that no corrosion
is present on the battery's metal
elements/connectors.

If none of the troubleshooting above corrects
your problem, perform the following: Unplug all
accessories from the Wii U console, including
any external hard drives or other storage devices.
Unplug the AC adapter from the electrical outlet
and from the back of the Wii U console. Wait at
least 90 seconds. This will cause the AC adapter
to reset.
