Raining Sardines Montlake Romance

A resonant call to explore the darkness in life, in nature, and in consciousness—including difficult emotions like uncertainty, grief, fear, and xenophobia—through teachings, embodied meditations, and mindful inquiry that provide us with a powerful path to healing. Darkness is deeply misunderstood in today's world; yet it offers powerful medicine, serenity, strength, healing, and regeneration. All insight, vision, creativity, and revelation arise from darkness. It is through learning to stay present and meet the dark with curiosity rather than judgment that we connect to an unwavering light within. Welcoming darkness with curiosity, rather than fear or judgment, enables us to access our innate capacity for compassion and collective healing. Dharma teacher, shamanic practitioner, and deep ecologist Deborah Eden Tull addresses the spiritual, ecological, psychological, and interpersonal ramifications of our bias towards light. Tull explores the medicine of darkness for personal and collective healing, through topics such as: Befriending the Night: The Radiant Teachings of Darkness Honoring Our Pain for Our World Seeing in the Dark: The Quiet Power of Receptivity Dreams, Possibility, and Moral Imagination Releasing Fear—Embracing Emergence Tull shows us how the labeling of darkness as “negative” becomes a collective excuse to justify avoiding everything that makes us uncomfortable: racism, spiritual bypass, environmental destruction. We can only find the radical path to wholeness by learning to embrace the interplay of both darkness and light.

Written by Deborah Ziegler, the mother of Brittany Maynard—a twenty-nine-year-old woman with a terminal brain tumor—this touching and beautiful memoir captures and celebrates her daughter's spirit and the mostly untold story of Brittany's last year of life as she chose her right to die with dignity, a journey that inspired millions. "Brittany's story...will have a ready audience, and Deborah's frank account of their struggles will be comforting to others facing this difficult decision" (Booklist). In this poignant, powerful book, Deborah Ziegler makes good on the promise she made to her only child: that she would honor her daughter and carry forward her legacy by sharing their story and offering hope, empowerment, and inspiration to the growing tens of millions of people who are struggling with end-of-life issues.

Where the Crawdads Sing Penguin

After a grizzly bear kills Antonia Valleau's trapper husband, she packs her few worldly possessions, leaves her home in the mountains of Montana, and treks to nearby Sweetwater Springs, seeking work to provide for her two young sons. Reeling from the loss of his wife during childbirth, Erik Muth must find a nursing mother for his newborn daughter to survive. For their children's sake, Erik and Antonia wed, starting a new life together on his farm on the prairie. But it's no easy union. Antonia misunderstands Erik's quiet personality. He finds her independence disconcerting. Both hide secrets that challenge their growing intimacy. When Indians steal livestock from farms around Sweetwater Springs to feed their starving tribe, the outraged townsfolk demand retaliation. Erik and Antonia must work together to prevent a massacre. Will a marriage forged in loss blossom into love?

The inspiration for the film *The Dark Divide* starring David Cross and Debra Messing, one of America's most esteemed natural history writers takes to the hills in search of Bigfoot—and finds the wildness within ourselves. Awarded a Guggenheim Fellowship to investigate the legends of Sasquatch, Yale-trained ecologist Dr. Robert Pyle treks into the unprotected wilderness of the Dark Divide near Mount St. Helens, where he discovers both a giant fossil footprint and recent tracks. On the trail of what he thought was legend, he searches out Indians who tell him of an outcast tribe, the Seeahitks, who had not fully evolved into humans. A handful of open-minded biologists and anthropologists counter the tabloids Pyle studies, while rogue Forest Service employees and loggers swear of a vast conspiracy to deep-six true stories of unknown, upright hominoid apes among us. He attends Sasquatch Daze, where he meets scientists, hunters, and others who have devoted their lives to the search, only to realize that “these guys don't want to find Bigfoot—they want to be Bigfoot!” Since its original publication, the author's fresh experiences and finds have been added to his original work through an updated chapter. With an evaluation of recent DNA evidence from Bigfoot hair and scat, the study of speech phonemes in the “Sierra Sounds” purported Bigfoot recordings, an examination of the impact of the wildly popular Animal Planet series *Bigfoot Hunters*, the reemergence of the famous Bob Gimlin into the Bigfoot community, and more, *Walking With Bigfoot* keeps every Bigfoot enthusiast's mind wide open to one of the biggest questions in the land and brings Pyle's work on the “legend” of Bigfoot into the new century.

During Flynn Bensen's last wildfire rescue, a woman died despite Flynn's best efforts to save her. He can't escape his sense of failure or recurring nightmares, but he can escape to Marietta, Montana, to a new job as the head of Crawford County Search and Rescue. When he meets his scorching hot co-worker on his first day, Flynn feels like he might have just jumped from one wild fire to another that threatens to burn out of control despite his determination to keep a safe distance. Outspoken, direct, and ambitious Kat Robinson isn't thrilled to have a new boss—after all, if the timing had been different, she'd have been a shoe-in for Flynn's job. But a single mom of a ten-year-old son knows where her priorities lay—with Brady, the light of her life. No way is she looking for a relationship and co-workers are always off limits. Too bad Flynn's so darn hot, gorgeous, kind and authentic. Will Flynn be the hero Kat needs to help her find the courage to fall in love again?

The Wild Inside John Wiley & Sons

A haunting crime novel set in Glacier National Park about a man who finds himself at odds with the dark heart of the wild—and the even darker heart of human nature. It was a clear night in Glacier National Park. Fourteen-year-old Ted Systead and his father were camping beneath the rugged peaks and starlit skies when something unimaginable happened: a grizzly bear attacked Ted's father and dragged him to his death. Now, twenty years later, as Special Agent for the Department of the Interior, Ted gets called back to investigate a crime that mirrors the horror of that night. Except this time, the victim was tied to a tree before the mauling. Ted teams up with one of the park officers—a man named Monty, whose pleasant exterior masks an all-too-vivid knowledge of the hazardous terrain surrounding them. Residents of the area turn out to be suspicious of outsiders and less than forthcoming. Their intimate connection to the wild forces them to confront nature, and their fellow man, with equal measures of reverence and ruthlessness. As the case progresses with no clear answers, more than human life is at stake—including that of the majestic creature responsible for the attack. Ted's search for the truth ends up leading him deeper into the wilderness than he ever imagined, on the trail of a killer, until he reaches a shocking and unexpected personal conclusion. As intriguing and alluring as bestselling crime novels by C.J. Box, Louise Penny, and William Kent Krueger, as atmospheric and evocative as the nature writing of John Krakauer and Cheryl Strayed, *The Wild Inside* is a gripping debut novel about the perilous, unforgiving intersection between man and nature.

NOW A MAJOR MOTION PICTURE—The #1 New York Times bestselling worldwide sensation with more than 15 million copies sold, hailed by The New York Times Book Review as “a painfully beautiful first novel that is at once a murder mystery, a coming-of-age narrative and a celebration of nature.” For years, rumors of the “Marsh Girl” have haunted Barkley Cove, a quiet town on the North Carolina coast. So in late 1969, when handsome Chase Andrews is found dead, the locals immediately suspect Kya Clark, the so-called Marsh Girl. But Kya is not what they say. Sensitive and intelligent, she has survived for years alone in the marsh that she calls home, finding friends in the gulls and lessons in the sand. Then the time comes when she yearns to be touched and loved. When two young men from town become intrigued by her wild beauty, Kya opens herself to a new life—until the unthinkable happens. *Where the Crawdads Sing* is at once an exquisite ode to the natural world, a heartbreaking coming-of-age story, and a surprising tale of possible murder. Owens reminds us that we are forever shaped by the children we once were, and that we are all subject to the beautiful and violent secrets that nature keeps.

AN AMAZON BEST ROMANCE OF THE MONTH BOOKLIST TOP 10 ROMANCE OF 2019 What could two troubled souls from different walks of life have in common? Maybe everything. Andra Lawler lives isolated at her family's horse ranch, imprisoned by the memories of an assault in college. When she needs help training her foals, she hires a Haitian-Creole cowboy from New Orleans with a laugh as big as the Montana sky. LJ Delisle can't stand the idea that Andra might be lonely—or eating frozen TV dinners. He bakes his way into her kitchen with a lemon velvet cake, and offers her cooking lessons that set them on the road to romance. But even their love can't escape the shadow of what they've been through. Despite their growing friendship and his gentle rapport with the horses, LJ is still an outsider facing small-town suspicions. Before they can work through their issues, LJ is called home by a family emergency. In the centuries-old, raggedly rebuilt streets of New Orleans, he must confront memories of Hurricane Katrina and familiar discrimination. And Andra must decide if she's brave enough to leave the shelter of the ranch for an uncertain future with LJ.

Wild Montana Skies Montlake Romance

From the award-winning author of *Perma Red* comes a devastatingly beautiful novel that challenges prevailing historical narratives of Sacajewea. “In my seventh winter, when my head only reached my Apple's rib, a White Man came into camp. Bare trees scratched sky. Cold was endless. He moved through trees like strikes of sunlight. My Bia said he came with bad intentions, like a Water Baby's cry.” Among the most memorialized women in American history, Sacajewea served as interpreter and guide for Lewis and Clark's Corps of Discovery. In this visionary novel, acclaimed Indigenous author Debra Magpie Earling brings this mythologized figure vividly to life, casting unsparing light on the men who brutalized her and recentering Sacajewea as the arbiter of her own history. Raised among the Lemhi Shoshone, in this telling the young Sacajewea is bright and bold, growing strong from the hard work of “learning all ways to survive”: gathering berries, water, roots, and wood; butchering buffalo, antelope, and deer; catching salmon and snaring rabbits; weaving baskets and listening to the stories of her elders. When her village is raided and her beloved Apple and Bia are killed, Sacajewea is kidnapped and then gambled away to Charbonneau, a French Canadian trapper. Heavy with grief, Sacajewea learns how to survive at the edge of a strange new world teeming with fur trappers and traders. When Lewis and Clark's expedition party arrives, Sacajewea knows she must cross a vast and brutal terrain with her newborn son, the white man who owns her, and a company of men who wish to conquer and commodify the world she loves. Written in lyrical, dreamlike prose, *The Lost Journals of Sacajewea* is an astonishing work of art and a powerful tale of perseverance—the Indigenous woman's story that hasn't been told.

A former firearms executive pulls back the curtain on America's multibillion-dollar gun industry, exposing how it fostered extremism and racism, radicalizing the nation and bringing cultural division to a boiling point. As an avid hunter, outdoorsman, and conservationist – all things that the firearms industry was built on – Ryan Busse chased a childhood dream and built a successful career selling millions of firearms for one of America's most popular gun companies. But blinded by the promise of massive profits, the gun industry abandoned its self-imposed decency in favor of hardline conservatism and McCarthyesque internal policing, sowing irreparable division in our politics and society. That drove Busse to do something few other gun executives have done: he's ending his 30-year career in the industry to show us how and why we got here. Gunfight is an insider's call-out of a wild, secretive, and critically important industry. It shows us how America's gun industry shifted from prioritizing safety and ethics to one that is addicted to fear, conspiracy, intolerance, and secrecy. It recounts Busse's personal transformation and shows how authoritarianism spreads in the guise of freedom, how voicing one's conscience becomes an act of treason in a culture that demands sameness and loyalty. Gunfight offers a valuable perspective as the nation struggles to choose between armed violence or healing.

She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first “ immortal ” human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her “ immortality ” until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, The Immortal Life of Henrietta Lacks captures the beauty and drama of scientific discovery, as well as its human consequences.
