Here, published for the first time in the United States, is the last book by Roger Deakin, famed British nature writer and icon of the environmentalist movement. In Deakin's glorious meditation on wood, the "fifth element" -- as it exists in nature, in our culture, and in our souls -- the reader accompanies Deakin through the woods of Britain, Europe, Kazakhstan, and Australia in search of what lies behind man's profound and enduring connection with trees. Deakin lives in forest shacks, goes "coppicing" in Suffolk, swims beneath the walnut trees of the Haut-Languedoc, and hunts bushplums with Aboriginal women in the outback. Along the way, he ferrets out the mysteries of woods, detailing the life stories of the timber beams composing his Elizabethan house and searching for the origin of the apple. As the world's forests are whittled away, Deakin's sparkling prose evokes woodlands anarchic with life, rendering each tree as an individual, living being. At once a traveler's tale and a splendid work of natural history, *Wildwood* reveals, amid the world's marvelous diversity, that which is universal in human experience.

The Gentle Art of Tramping Harper Collins

- A fascinating true tale: When city girl Shreve Stockton set out to ride her Vespa from San Francisco to New York, she never imagined she'd end up staying in Wyoming, falling in love with a trapper, and working as a ranch hand. Nor could she have foreseen meeting Charlie, the orphaned coyote pup who made Stockton's log cabin his home. In a world where coyotes are hunted as killers, Stockton and Charlie faced challenges—as well as joys—throughout their first year, each of which came with revelations about life, love, and the bond between humans and nature. .
- Based on an award-winning blog: *The Daily Coyote* was inspired by Stockton's blog of the same name. Wildly popular and hailed by *Rosie O'Donnell*, *Vanity Fair*, and the *L.A. Times*, the site receives over a million hits per month and was the winner of the 2007 Weblog of the Year Award only a month after its inception. .
- A moving visual memoir: Stockton documents Charlie's first year in stunning full-color photography. Each month's entry is accompanied by rich images of Charlie as he grows from adorable pup to wily adult, alongside Stockton's tomcat, Eli, and set against the wide-open landscapes of Wyoming. .

Dark assassins with mysterious motives conspire to settle the scores of an unknown client. A titan of industry employs inmates from his orphanage to work his machine shop, all the while obsessing over the exploitation of the Impassable Wilderness. Robert Penn cut down an ash tree to see how many things could be made from it. After all, ash is the tree we have made the greatest and most varied use of over the course of human history. Journeying from Wales across Europe and Ireland to the USA, Robert finds that the ancient skills and knowledge of the properties of ash, developed over millennia making wheels and arrows, furniture and baseball bats, are far from dead. The book chronicles how the urge to understand and appreciate trees still runs through us all like grain through wood.

Once upon a time, most of Britain and Ireland was covered in woodland. Many of the trees have been cleared, but our connection with the wildwood remains. It is a place of danger, adventure and transformation, where anything could happen. Here is a collection of traditional folk tales of oak, ash and thorn; of hunting forests and rebellion, timber and triumph in battle, wild ghosts and woodwoses. Lisa Schneidau retells some of the old stories and relates them to the trees and forests in the landscape of our islands today.

SHORTLISTED FOR THE SAMUEL JOHNSON PRIZE 2015 SHORTLISTED FOR THE WAINWRIGHT PRIZE 2016 Landmarks is Robert Macfarlane's joyous meditation on words, landscape and the relationship between the two. Words are grained into our landscapes, and landscapes are grained into our words. Landmarks is about the power of language to shape our sense of place. It is a field guide to the literature of nature, and a glossary containing thousands of remarkable words used in England, Scotland, Ireland and Wales to describe land, nature and weather. Travelling from Cumbria to the Cairngorms, and exploring the landscapes of Roger Deakin, J. A. Baker, Nan Shepherd and others, Robert Macfarlane shows that language, well used, is a keen way of knowing landscape, and a vital means of coming to love it. Praise for Robert Macfarlane: 'He has a poet's eye and a prose style that will make many a novelist burn with envy' John Banville, Observer "I'll read anything Macfarlane writes" David Mitchell, Independent 'Every movement needs stars. In [Macfarlane] we surely have one, burning brighter with each book.' Telegraph '[Macfarlane] is a godfather of a cultural moment' Sunday Times *Nature Cure* Gill & Macmillan Ltd

A Million Wild Acres is the story of men and their passion for land; of occupation and settlement; of destruction and growth. By following the tracks of those pioneers who crossed the Blue Mountains into northern New South Wales, Eric Rolls - poet, farmer, and self-taught naturalist - has rewritten the history of European settlement in Australia. He evokes the ruthlessness and determination of the first settlers who worked the land - a land they knew little about.

Carrifran Wildwood was the brainchild of local people who mourned the lack of natural habitats and decided to act. When Borders Forest Trust was founded the Wildwood became the Trust's first large land-based project, and after 20 years of work it has become an inspirational example of ecological restoration. Removal of sheep and goats and planting 700,000 trees launched the return of native

woodland and moorland, transforming degraded hill land into something akin to its pristine, vibrant, carbon-absorbing state, teeming with plants, animals and fungi, alive with birdsong and the sound of the wind in the trees. The 40 contributors vividly describe all the challenges of carrying forward bold initiatives requiring close cooperation with local communities as well as funders, authorities, landowners and partners. A core part of the book is devoted to how nature asserts itself when given a chance. It includes 'before and after' surveys, describes vegetation changes - some of them unpredicted - following removal of sheep, cattle and feral goats; unique documentation of the dramatic changes in bird populations during the 20-year transformation of Carrifran valley from denuded land to a restored mosaic of woodland and moorland habitats; discussion of the gradual development of a diverse range of invertebrate animals; and descriptions of the rich communities of fungi and mosses, many of them newly-recorded in the area. The book concludes with discussion of the role of restoration ecology in addressing the biodiversity crisis and climate change. This is the extraordinary story of how a group of motivated people can revive nature at a landscape scale.

Ghostways: Two Journeys in Unquiet Places Open Book Publishers

A hauntingly beautiful diptych of works inspired by Robert Macfarlane's travels with celebrated collaborators to two eerie corners of England. In Holloway, "a perfect miniature prose-poem" (William Dalrymple), Macfarlane, artist Stanley Donwood, and writer Dan Richards travel to Dorset, near the south coast of England, to explore a famed "hollowed way"—a path used by walkers and riders for so many centuries that it has become worn far down into the soft golden bedrock of the region. In Ness, "a triumphant libretto of mythic modernism for our poisoned age" (Max Porter), Macfarlane and Donwood create a modern myth about Orford Ness, the ten-mile-long shingle spit that lies off the coast of East Anglia, which the British government used for decades to conduct secret weapons tests.

Edited and introductions by Roderick Watson. The Quarry Wood, although published well before *Sunset Song*, inhabits a similar world; the progress of its heroine could almost be the alternative story of a Chris Guthrie who did go to university. Compassionate and humorous, the grace and style of Shepherd's prose is heightened by a superb ear for the vigorous language of the north-east. *The Weatherhouse*, Shepherd's masterpiece, is an even more substantial achievement which belongs to the great line of Scottish fiction dealing with the complex interactions of small communities, and especially the community of women – a touching and hilarious network of mothers, daughters, spinsters and widows. It is also a striking meditation on the nature of truth, the power of human longing and the mystery of being. The third and final novel, *A Pass in the Grampians*, describes Jenny Kilgour's coming of age as she has to choose between the kindly harshness of her grandfather's life on a remote hill farm, and the vulgar and glorious energy of Bella Cassie, a local girl who left the community to pursue success as a singer, and has now returned to scandalise them all. *The Living Mountain* is a lyrical testament in praise of the Cairngorms. It is a work deeply rooted in Shepherd's knowledge of the natural world, and a poetic and philosophical meditation on our longing for high and holy places. This is the first omnibus edition of Shepherd's prose works – her sensitivity and powers of observation raise her work far above the status of regional literature and into the front rank of Scottish writing.

From the author of *Earth: An Intimate History*, an exuberant "biography" of four acres of woodland, evoking a cosmos of living and inanimate things and imagining its millennia of existence A few years

ago, award-winning scientist Richard Fortey purchased four acres of woodland in the Chiltern Hills of Oxfordshire, England. *The Wood for the Trees* is the joyful, lyrical portrait of what he found there. With one chapter for each month, we move through the seasons: tree felling in January, moth hunting in June, finding golden mushrooms in September. Fortey, along with the occasional expert friend, investigates the forest top to bottom, discovering a new species and explaining the myriad connections that tie us to nature and nature to itself. His textured, evocative prose and gentle humor illuminate the epic story of a small forest. But he doesn't stop at mere observation. *The Wood for the Trees* uses the forest as a springboard back through time, full of rich and unexpected tales of the people, plants, and animals that once called the land home. With Fortey's help, we come to see a universe in miniature.

Notes from Walnut Tree Farm Harper Collins

Roger Deakin set out in 1996 to swim through the British Isles. The result a uniquely personal view of an island race and a people with a deep affinity for water. From the sea, from rock pools, from rivers and streams, tarns, lakes, lochs, ponds, lidos, swimming pools and spas, from fens, dykes, moats, aqueducts, waterfalls, flooded quarries, even canals, Deakin gains a fascinating perspective on modern Britain. Detained by water bailiffs in Winchester, intercepted in the Fowey estuary by coastguards, mistaken for a suicide on Camber sands, confronting the Corryvreckan whirlpool in the Hebrides, he discovers just how much of an outsider the native swimmer is to his landlocked, fully-dressed fellow citizens. Encompassing cultural history, autobiography, travel writing and natural history, *Waterlog* is a personal journey, a bold assertion of the native swimmer's right to roam, and an unforgettable celebration of the magic of water.

THE PERFECT GIFT FOR NATURE LOVERS 'Dusk is filling the valley. It is the time of the gloaming, the owl-light. Out in the wood, the resident tawny has started calling, Hoo-hoo-hoo-h-o-o-o.' There is something about owls. They feature in every major culture from the Stone Age onwards. They are creatures of the night, and thus of magic. They are the birds of ill-tidings, the avian messengers from the Other Side. But owls – with the sapient flatness of their faces, their big, round eyes, their paternal expressions – are also reassuringly familiar. We see them as wise, like Athena's owl, and loyal, like Harry Potter's Hedwig. Human-like, in other words. No other species has so captivated us. In *The Secret Life of the Owl*, John Lewis-Stempel explores the legends and history of the owl. And in vivid, lyrical prose, he celebrates all the realities of this magnificent creature, whose natural powers are as fantastic as any myth. 'John Lewis-Stempel is one of the best nature writers of his generation' *Country Life*
