Accounting for Managers explains how accounting information is used by non-financial managers. The book emphasises the interpretation, rather than the

construction, of accounting information and encourages a critical, rather than unthinking acceptance, of the underlying assumptions behind accounting. It links theory with practical examples and case studies drawn from real life business situations in service, retail and manufacturing industries.

International GAAP® 2019 is a comprehensive guide to interpreting and implementing International Financial Reporting Standards (IFRS), setting IFRS in a

relevant business context and providing insights into how complex practical issues should be resolved in the real world of global financial reporting. This book is an essential tool for anyone applying, auditing, interpreting, regulating, studying or teaching IFRS. Written by EY's financial reporting professionals from around the world, this three-volume guide to reporting under IFRS provides a global perspective on the application of IFRS. Complex technical accounting issues are explained clearly and IFRS is set in a practical context with numerous worked examples and hundreds of illustrations from the published financial reports of major listed companies from around the world. The 2019 edition of International GAAP® has been fully revised and updated in order to:

- Continue to investigate the many implementation issues arising as entities adopt IFRS 9 (Financial Instruments) and IFRS 15 (Revenue from Contracts with Customers).
- Explore the complex implementation issues arising as entities adopt, in 2019, IFRS 16 (Leases).
- Include an updated chapter on the new insurance contracts standard IFRS 17 (Insurance Contracts), which reflects the recent discussions of the IASB's Transition Resource Group on implementation issues raised, proposed narrow-scope amendments to IFRS

17 intended by the IASB, and also explores other matters arising as users prepare for the adoption of this standard.

- Include an amended chapter on the revised Conceptual Framework, which was published in March 2018. The changes to the Conceptual Framework may affect the application of IFRS in situations where no standard applies to a particular transaction or event.
- Address amended standards and new interpretations issued since the preparation of the 2018 edition.
- Explain the many other initiatives that are currently being discussed by the IASB and by the IFRS Interpretations Committee and the potential consequential changes to accounting requirements.
- Provide insight on the many issues relating to the practical application of IFRS, based on the extensive experience of the book's authors in dealing with current issues.

Principles of International Economic Law provides a comprehensive overview of the

central topics in international economic law, with an emphasis on the interplay between the different economic and political interests on both the international and domestic levels. Following recent tendencies, the book sets the classic topics of international economic law, like WTO law, investment protection, commercial law and monetary law in context with aspects of human rights, environmental protection and the legitimate claims of developing countries. The book draws a concise picture of the architecture of international economic law with all its complexities, without getting lost in fragmented details. Providing a perfect introductory text to the field of international economic law, the book thoroughly analyses legal developments within their wider political, economic, or social context. Topics covered range from codes of conduct for multinational enterprises, to the human rights implications of the exploitation of natural resources. The book demonstrates the economic foundations and economic implications of legal frameworks. It puts into profile the often complex relationship between, on the one hand, international standards on liberalization and economic rationality and, on the other, state sovereignty and national preferences. It describes the new forms of economic cooperation which have

developed in recent decades, such as the growing number of transnational companies in the private sector, and forms of cooperation between states such as the G8 or G20. This fully updated second edition covers new aspects and developments including the growing importance of corporate social responsibility, mega-regional-agreements like CETA, TTIP, and TPP, trade and investment related aspects of human rights law.
