I'm Nobody! Who Are You? Poppy International Bestseller *When Will There Be Good News?* is the brilliant new novel from the acclaimed author of *Case Histories* and *One Good Turn*, once again featuring private investigator Jackson Brodie. Thirty years ago, six-year-old Joanna witnessed the brutal murders of her mother, brother and sister, before escaping into a field, and running for her life. Now, the man convicted of the crime is being released from prison, meaning Dr. Joanna Hunter has one more reason to dwell on the pain of that day, especially with her own infant son to protect. Sixteen-year-old Reggie, recently orphaned and wise beyond her years, works as a nanny for Joanna Hunter, but has no idea of the woman's horrific past. All

Reggie knows is that Dr. Hunter cares more about her baby than life itself, and that the two of them make up just the sort of family Reggie wished she had: that unbreakable bond, that safe port in the storm. When Dr. Hunter goes missing, Reggie seems to be the only person who is worried, despite the decidedly shifty business interests of Joanna's husband, Neil, and the unknown whereabouts of the newly freed murderer, Andrew Decker. Across town, Detective Chief Inspector Louise Monroe is looking for a missing person of her own, murderer David Needler, whose family lives in terror that he will return to finish the job he started. So it's not surprising that she listens to Reggie's outrageous thoughts on Dr. Hunter's disappearance with only mild

attention. But when ex-police officer and Private Investigator, Jackson Brodie arrives on the scene, with connections to Reggie and Joanna Hunter of his own, the details begin to snap into place. And, as Louise knows, once Jackson is involved there's no telling how many criminal threads he will be able to pull together—or how many could potentially end up wrapped around his own neck. In an extraordinary virtuoso display, Kate Atkinson has produced one of the most engrossing, masterful, and piercingly insightful novels of this or any year. It is also as hilarious as it is heartbreaking, as Atkinson weaves in and out of the lives of her eccentric, grief-plagued, and often all-too-human cast. Yet out of the excesses of her characters and extreme events that shake

their worlds comes a relatively simple message, about being good, loyal, and true. When *Will There Be Good News?* shows us what it means to survive the past and the present, and to have the strength to just keep on keeping on.

The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money—the carrot-

and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and

surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Poetry Unbound: 50 Poems to Open Your World Simon and Schuster

“Mesmerizing, magical, deeply moving.” —Elif Shafak Expanding on the popular podcast of the same name from On Being Studios, *Poetry Unbound* offers immersive reflections on fifty powerful poems. In the tumult of our contemporary moment, poetry has emerged as an inviting, consoling outlet with a unique power to move and connect us, to inspire fury, tears, joy, laughter, and surprise. This generous anthology pairs fifty illuminating poems

with poet and podcast host Pádraig Ó Tuama's appealing, unhurried reflections. With keen insight and warm personal anecdotes, Ó Tuama considers each poem's artistry and explores how its meaning can reach into our own lives. Focusing mainly on poets writing today, Ó Tuama engages with a diverse array of voices that includes Ada Limón, Ilya Kaminsky, Margaret Atwood, Ocean Vuong, Layli Long Soldier, and Reginald Dwayne Betts. Natasha Trethewey meditates on miscegenation and Mississippi; Raymond Antrobus makes poetry out of the questions shot at him by an immigration officer; Martín Espada mourns his father; Marie Howe remembers and blesses her mother's

body; Aimee Nezhukumatathil offers comfort to her child-self. Through these wide-ranging poems, Ó Tuama guides us on an inspiring journey to reckon with self-acceptance, history, independence, parenthood, identity, joy, and resilience. For anyone who has wanted to try their hand at a conversation with poetry but doesn't know where to start, Poetry Unbound presents a window through which to celebrate the art of being alive. Nora Webster United Church of God Every president has had a unique and complicated relationship with the intelligence community. While some have been coolly distant, even adversarial, others have found their intelligence agencies to be among the most valuable instruments of policy and power. Since John F. Kennedy's presidency, this relationship has been distilled into a personalized

daily report: a short summary of what the intelligence apparatus considers the most crucial information for the president to know that day about global threats and opportunities. This top-secret document is known as the President's Daily Brief, or, within national security circles, simply "the Book." Presidents have spent anywhere from a few moments (Richard Nixon) to a healthy part of their day (George W. Bush) consumed by its contents; some (Bill Clinton and George H. W. Bush) consider it far and away the most important document they saw on a regular basis while commander in chief. The details of most PDBs are highly classified, and will remain so for many years. But the process by which the intelligence community develops and presents the Book is a fascinating look into the operation of power at the highest levels. David Priess, a former intelligence officer and daily briefer, has interviewed every living president and vice president as well as more than one hundred others intimately involved with the production and delivery of the president's book of

secrets. He offers an unprecedented window into the decision making of every president from Kennedy to Obama, with many character-rich stories revealed here for the first time.

Be Holding is a love song to legendary basketball player Julius Erving—known as Dr. J—who dominated courts in the 1970s and '80s as a small forward for the Philadelphia '76ers, as well as over his career in both the NBA and ABA. But this book-length poem is more than just an ode to a magnificent athlete. Through a kind of lyric research, or lyric meditation, Ross Gay connects Dr. J's famously impossible move from the 1980 NBA Finals against the Los Angeles Lakers to pick-up basketball and the flying Igbo and the Middle Passage, to photography and surveillance and state violence, to music and personal histories of flight and familial love. *Be Holding* wonders how the imagination, or how our looking, might make us, or bring us, closer to each other. How our looking might make us reach for each

other. And might make us be reaching for each other. And how that reaching might be something like joy. The President's Book of Secrets HarperCollins The #1 New York Times bestseller. Over 20 million copies sold! Translated into 60+ languages! Tiny Changes, Remarkable Results No matter your goals, Atomic Habits offers a proven framework for improving--every day. James Clear, one of the world's leading experts on habit formation, reveals practical strategies that will teach you exactly how to form good habits, break bad ones, and master the tiny behaviors that lead to remarkable results. If you're having trouble changing your habits, the problem isn't you. The problem is your system. Bad habits repeat themselves again and again not because you don't want to change, but because you have the wrong system for change. You do not rise to the level of your goals. You fall to the level of your systems.

Here, you'll get a proven system that can take you to new heights. Clear is known for his ability to distill complex topics into simple behaviors that can be easily applied to daily life and work. Here, he draws on the most proven ideas from biology, psychology, and neuroscience to create an easy-to-understand guide for making good habits inevitable and bad habits impossible. Along the way, readers will be inspired and entertained with true stories from Olympic gold medalists, award-winning artists, business leaders, life-saving physicians, and star comedians who have used the science of small habits to master their craft and vault to the top of their field. Learn how to: make time for new habits (even when life gets crazy); overcome a lack of motivation and willpower; design your environment to make success easier; get back on track when you fall off course; ...and much more. Atomic Habits will reshape the way

you think about progress and success, and give you the tools and strategies you need to transform your habits--whether you are a team looking to win a championship, an organization hoping to redefine an industry, or simply an individual who wishes to quit smoking, lose weight, reduce stress, or achieve any other goal.

After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. "We cannot change the cards we are dealt, just how we play the hand." —Randy Pausch A lot of

professors give talks titled "The Last Lecture." Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—"Really Achieving Your Childhood Dreams"—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because "time is all you

have . . . and you may find one day that you have less than you think"). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.
