Pocket Manual of Homoeopathic Materia Medica B. Jain Publishers
Excerpt from The Twelve Tissue Remedies of Schüssler, Comprising the Theory, Therapeutic Application, Materia Medica, and a Complete Repertory, of These Remedies: Homoeopathically and Bio-Chemically

Considered The steadily increasing demand for this work has exhausted four large editions and necessitated the preparation of a fifth edition. What was intended originally as a mere suggestive guide to the use of a set of valuable remedies has developed by the demands of the profession into a volume comprising the whole of our present therapeutic knowledge of the so-called Twelve Tissue Remedies.

Compilation largely from every available source has to supplement the authors' personal experience and knowledge of these remedies. All the published data have been made use of but thoroughly

sifted and critically examined. In its present form, we believe this fifth edition will be found a reliable guide to the use of the Tissue Remedies in disease, not only as far as possible, according to the distinctive theory of Schussler, as corrected and modified by him up to the time of his death, but especially according to the finer and more discriminating method of Hahnemann. The clinical evidence of the truth of Schussler's indications is overwhelming and since his time they have been largely confirmed by homoeopathic and eclectic physicians, but the need of thorough systematic

proving according to the method of Homoeopathy in order to enlarge and precisionize our knowledge of these great medicines is imperative. Many German editions of Schussler's "Abgekürzte Therapie" have been published since the last edition of this work was issued, the therapeutic development of these remedies has made wonderful strides, and our periodical literature during the past few years has contained many records of cures wrought by them. All this has been incorporated and this work, in its present complete and revised form, is the only adequate presentation of the therapeutic possibilities of the Tissue Remedies existent. We trust that the same consideration accorded to previous editions will be extended to this by an indulgent profession. This manual provides the

information necessary for successful homoeopathic treatment and prevention of many common infectious contagious diseases. Beyond that, the information herein provides an avenue for the treatment of disease without the use of vaccination. Often the decision not to vaccinate is backed by a mere 'hunch' or 'gut feeling' that vaccination may not be good for oneself or our children. Armed with the knowledge of homeopathy, not only will one be able to successfully treat the disease in question, but also the decision not to vaccinate will be validated by the wealth of information presented in these chapters. Overview Introduction to homeopathic philosophy Some of the adverse effects of vaccination on the immune system Homeopathic treatment of vaccine injury Individual

The New Materia Medica is a source book of information on some of the most exciting new crystal, botanical, and animal remedies now in use by practitioners of the Guild of Homeopaths. These remedies, proven through the practice of meditation and with a reputation for remarkable success, are extraordinary for their depth of action, reaching far into a patient's psyche and history. Each entry gives a description of the original substance in its natural

state and an outline of its medicinal and traditional uses, along with crystal essence cures where applicable and explanations of the remedies' affinities for the chakras and the associated glands and organs. All the remedies also include detailed information on their mental, emotional, and physical effects on the individual parts of the body. Summarized case notes show clinical evidence of efficacy of these therapies and illustrate their day-to-day use.

Materia Medica of New and Old Homeopathic Medicines St. Martin's Griffin
David S. Riley ' s interest in the research and subsequently the history and methodology of

homeopathic drug provings began with his medical school training in 1979 and a residency in Internal Medicine. He was exposed to homeopathy in 1988 followed by study at the Hahnemann College of Homeopathy in Albany, California. He has investigated the interplay between contemporary research methods and the research methods associated with homeopathic drug provings. Dr Riley has developed research tools for data collection, symptom selection criteria and blinding; primarily to address the risk of bias. The homeopathic drug provings published here are the result of this work. For the 3rd edition twelve homeopathic drug provings, conducted by a number of internationally renowned proving directors, have been added. These homeopathic drug provings all follow good clinical practice (GCP) research guidelines and incorporate the guidelines suggested by Dr Samuel Hahnemann more than 200 years ago.
