From their beginnings, campuses emerged as hotbeds of traditions and folklore. American college students inhabit a culture with its own slang, stories, humor, beliefs, rituals, and pranks. Simon J. Bronner takes a long, engaging look at American campus life and how it is shaped by students and at the same time shapes the values of all who pass through it. The archetypes of absent-minded profs, fumbling jocks, and curve-setting dweebs are the stuff of legend and humor, along with the all-nighters, tailgating parties, and initiations that mark campus tradition--and student identities. Undergraduates in their hallowed halls embrace distinctive traditions because the experience of higher education precariously spans childhood and adulthood, parental and societal authority, home and corporation, play and work. Bronner traces historical changes in these traditions. The predominant context has shifted from what he calls the "old-time college," small in size and strong in its sense of community, to mass society's "mega-university," a behemoth that extends beyond any campus to multiple branches and offshoots throughout a state, region, and sometimes the globe. One might assume that the mega-university has dissolved collegiate traditions and displaced the old-time college, but Bronner finds the opposite. Student needs for social belonging in large universities and a fear of losing personal control have given rise to distinctive forms of lore and a striving for retaining the pastoral "campus feel" of the old-time college. The folkloric material students spout, and sprout, in response to these needs is varied but it is tied together by its invocation of tradition and social purpose. Beneath the veil of play, students work through tough issues of their age and environment. They use their lore to suggest ramifications, if not resolution, of these issues for themselves and for their institutions. In the process, campus traditions are keys to the development of American culture. William Shakespeare's Get Thee Back to the Future! Wave Books
In July 2007, the School of Law at the University of Warwick hosted an international conference on 'Shakespeare and the Law'. This was a truly interdisciplinary event, which included contributions from eminent speakers in the fields of English, history, theatre and law. The intention was to provide a congenial forum for the exploration, dissemination and discussion of Shakespeare's evident fascination with and knowledge of law, and its manifestation in his works. The papers included in this volume reflect the diverse academic interests of participants at the conference. The eclectic themes of the edited collection range from analyses of the juristic content of specific plays, as in 'Consideration, Contract and the End of The Comedy of Errors', 'Judging Isabella: Justice, Care and Relationships in Measure for Measure', 'Law and its Subversion in Romeo and Juliet', 'Inheritance in the Legal and Ideological Debate of Shakespeare's King Lear' and 'The Law of Dramatic Properties in The Merchant of Venice', to more general explorations of Shakespearean jurisprudence, including 'Shakespeare and Specific Performance', 'Shakespeare and the Marriage Contract', 'The Tragedy of Law in Shakespearean Romance' and 'Punishment Theory in the Renaissance: the Law and the Drama'.

The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum.
