A Treatise on Wills, Succession, Administration and Guardianship with Forms Gaunt Succession, Wills and Probate is an ideal textbook for those taking an undergraduate course in this surprisingly vibrant subject, and also provides a clear and comprehensive introduction for professionals. Against an account of the main social and political themes of succession law, the book gives detailed explanations of core topics such as alternatives to wills and the making, altering and revocation of wills. It also explains personal representatives and how they should deal with a deceased person's estate and interpret and implement the will. Gifts may fail, estates may be insolvent or a person may die intestate, without a will at all. Increasingly relatives and others seek to challenge the will, for example on the grounds of the testator's capacity or under the law of family provision. This third edition is edited, updated and revised to take account of new legislation and case law across all the relevant issues, including a new final chapter dealing with the potentially contentious issues that are becoming more central to professional work in the field of succession.

In accordance with federal statutes enacted in 1910 and 1913, the Law and, subsequently, the Probate Divisions of the Bureau of Indian Affairs were responsible for determining the heirs of deceased Indian trust allottees. Ultimately, Native Americans submitted more than 2,500 pages of wills and probate records to the Bureau. These records span the period 1911 to 1921 and, with a few exceptions, pertain to Indian families living in the Plains and several western states. Researchers will find members of the following tribes represented in this collection: Chippewa, Sioux, Apache, Shawnee, Quapaw, Assinboin, Leach Lake Chippewa, Confederated Flathead, Ponca, Cheyenne, Crow, Sac & Fox, Nez Perce, Southern Ute, Omaha, Osage, and more. The work at hand represents seven volumes in a series of Native American sources. As a rule, the documents identify the names of the testator, residence, heirs, a description of any real estate transferred in the will, names of executors and witnesses, and other particulars commonly found in probate records. In all, genealogists will find references to about 2,000 individuals in these documents, every one of whom is referenced in the complete name index at the back.
