The purpose of this design manual is to provide an introduction to Stirling cycle heat engines, to organize and identify the available Stirling engine literature, and to identify, organize, evaluate and, in so far as possible, compare non-proprietary Stirling engine design methodologies. In *A Gathering of Rivers*, Lucy Eldersveld Murphy traces the histories of Indian, multiracial, and mining communities in the western Great Lakes region during the eighteenth and early nineteenth centuries. For a century the Winnebagos (Ho-Chunks), Mesquakies (Fox), and Sauks successfully confronted waves of French and British immigration by diversifying their economies and commercializing lead mining. The success of the Native communities prompts important questions: What strategies did they devise to accommodate the newcomers? Why and how did very different cultures forge

stable communities and working technology are the driving relationships? And what led to forces that will help make it the conflicts that shattered better.

this syncretic frontier world? **The DeShaney Case**

Focusing upon personal stories and detailed community histories, Murphy charts the changing economic forces at work in the region, connecting them to shifts in gender roles and intercultural relationships. She argues that French, British, and Native peoples forged a social and economic syncretism expressed partly by mixed-race marriages and the emergence of multiethnic communities at Green Bay and Prairie du Chien. Significantly, Native peoples in the western Great Lakes region were able to adapt successfully to the new frontier market economy until their Native-controlled lead mining operations became the envy of outsiders who forced their way into the region during the 1820s. Murphy examines the creation of the mining and settler communities and the breakdown of their relations with Indian people.

This first bestiary ever compiled from the Native American tradition brings forth sacred animal spirits and reminds us of our deep connection to Mother Earth. Powerful poems and meditations, legends and stories, show the helping and healing roles animals have played since the beginning.
