An analytical investigation into Prime Minister Winston Churchill's decision-making process during every stage of World War II. When Winston Churchill accepted the position of Prime Minister in May 1940, he insisted in also becoming Minister of Defence. This, though, meant that he alone would be responsible for the success or failure of Britain's war effort. It also meant that he would be faced with many monumental challenges and utterly crucial decisions upon which the fate of Britain and the free world rested. With the limited resources available to the UK, Churchill had to pinpoint where his country's priorities lay. He had to respond to the collapse of France, decide if Britain should adopt a defensive or offensive strategy, choose if Egypt and the war in North Africa should take precedence over Singapore and the UK's empire in the East, determine how much support to give the Soviet Union, and how much power to give the United States in controlling the direction of the war. In this insightful investigation into Churchill's conduct during the Second World War, Allen Packwood, BA, MPhil (Cantab), FRHistS, the Director of the Churchill Archives Centre, enables the reader to share the agonies and uncertainties faced by Churchill at each crucial stage of the war. How Churchill responded to each challenge is analyzed in great detail and the conclusions Packwood draws are as uncompromising as those made by Britain's wartime leader as he negotiated his country through its darkest days.

Meticulously researched by a senior private banker now turned historian, No More Champagne reveals for the first time the full extent of the iconic British war leader's private struggle to maintain a way of life instilled by his upbringing and expected of his public position. Lough uses Churchill's own most private records, many never researched before, to chronicle his family's chronic shortage of money, his own extravagance and his recurring losses from gambling or trading in shares and currencies. Churchill tried to keep himself afloat by borrowing to the hilt, putting off bills and writing 'all over the place'; when all else failed, he had to ask family or friends to come to the rescue. Yet within five years he had taken advantage of his worldwide celebrity to transform his private fortunes with the same ruthlessness as he waged war, reaching 1945 with today's equivalent of £3 million in the bank. His lucrative war memoirs were still to come. Throughout the story, Lough highlights the threads of risk, energy, persuasion, and sheer willpower to survive that link Churchill's private and public lives. He shows how constant money pressures often tempted him to short-circuit the ethical standards expected of public figures in his day before usually pulling back to put duty first—except where the taxman was involved.

[The Hedgehog and the Fox UNC Press Books](#)

The first major biography of Winston Churchill to focus on his inner life and psychology 'An extraordinary biography...Pearson...has a sensitive pen, matching the wit of his subject, and shows perceptive intuition towards the delicate relationships between the members of the Churchill family and their assorted spouses and lovers.' International Journal on World Peace He was a lion of a man who helped shape the course of this century with his relentless ambition and fierce political instincts. Few have matched Winston Churchill's cunning or force of will. Few have seen the equal of his audacity on the battlefield or the determination with which he strove toward his own ideal of greatness. At the height of his power, he seemed to embody the ideals of the empire he helped sustain: valor, pride, and above all, tradition. His sense of personal destiny was rooted deeply in the legacy of his birth-right, the heritage of his family, and the awesome responsibility of being born Churchill. In *The Private Lives of Winston Churchill*, first published in 1991, John Pearson takes us behind the myth of Churchill and deep into the psychology of a dynasty that some have called the most complicated Anglo-American family of this century. In doing so, he reveals, in rich portraits, some of the family's greatest, most charismatic, and most deeply troubled members and shows us the real, private Winston Churchill.

"Penetrating . . . beautifully rounds out and humanizes the character of the greatest statesman of the twentieth century." —San Francisco Chronicle. "A multifaceted gem, sparkling with anecdotes and insights about the nature of biography, the challenges and rewards of historical research, and of course Winston Churchill." —Richmond Times-Dispatch "Everything about Winston Churchill is extraordinary. During his excavation of his subject, Martin Gilbert has discovered many gems. In this book he holds some of the most gorgeous jewels up to the light for us to admire." —The Spectator. "Gilbert here gives us Churchill's vast humanity with the politics largely left out. Readers daunted by the 8,000-odd pages of the official life should start here. They will love it." —The Times (London). "The portrait of Winston Churchill is . . . vivid and painted with an affection and humour that rarely appear in the official biography." —London Daily Telegraph. "The work [Gilbert] has done puts all historians of the twentieth century, and all students of Churchill, incalculably in his debt." —London Sunday Telegraph.

[The Churchill War Papers Princeton University Press](#)

*Fateful Question*, September 1943 to April 1944, is the third document volume to the seventh narrative volume, *Winston S. Churchill: Road to Victory, 1941-1945*. The document volumes for the remainder of 1944 through 1965 are forthcoming. This volume relates Churchill's story from the invasion of mainland Italy to the canal preparations for Operation Overlord. During these eight months, Churchill traveled nearly 14,000 miles, wrote more than 1,800 pieces of correspondence, and delivered over a dozen speeches. As the tide of the war turned in favor of the Allies, Churchill focused his attention and energy on matters such as the Italian campaign and its early stagnation, the three major Allied conferences at the end of 1943, the bombing campaign executed by the British and Americans against the German homeland, and the desperate need for landing craft to deploy in the impending cross-Channel invasion. Also during this period, Churchill's involvement in the Soviet-Polish controversy displayed his nascent concerns over the influence of communism in post-war Europe. Despite the continuing destruction of war and uncertainty about upcoming operations, it was at long last possible to consider what the peace would look like. As Larry P. Arnn writes in the preface, Churchill's "early hope in the war was that Britain would conduct itself with honor and achieve its 'Finest hour,' and if that were done, victory might be achieved. Now the victory looked sure.

Forms part of the official biography of Winston Churchill, consisting of eight narrative volumes and twenty-three planned document volumes. Drawn from Churchill's personal papers and other archives, the document volumes contain materials referenced in the narrative, including top secret telegrams, private letters and diaries from family, friends, and opponents.

[The Churchill Documents: The Exchequer years, 1922-1929 Bloomsbury Publishing](#)

This historical reassessment of the World War II British bombing campaign notes that though in 1940 Churchill declared that he was waging "a military and not a civilian war" to destroy "military objectives" and not "women and children," within eighteen months both types of targets would be struck by Bomber Command. The author searches for the reasons in "three contiguous realms" of strategic influence: moral (and legal), political, and military. The study concludes that although for much of the war "area bombing" of cities was a "tragic necessity" meeting the 'reasonable man's' standard of what was decently allowable given the blunt weapons the Allies had" and the evils they faced, nonetheless Allied leaders could have and should have abandoned indiscriminate bombing in the last phases of the conflict, when more precise means were at hand and "Nazi power had been overmatched."

[Winston Churchill Pan Macmillan](#)

"The fox knows many things, but the hedgehog knows one big thing." This ancient Greek aphorism, preserved in a fragment from the poet Archilochus, describes the central thesis of Isaiah Berlin's masterly essay on Leo Tolstoy and the philosophy of history, the subject of the epilogue to *War and Peace*. Although there have been many interpretations of the adage, Berlin uses it to mark a fundamental distinction between human beings who are fascinated by the infinite variety of things and those who relate everything to a central, all-embracing system. Applied to Tolstoy, the saying illuminates a paradox that helps explain his philosophy of history: Tolstoy was a fox, but believed in being a hedgehog. One of Berlin's most celebrated works, this extraordinary essay offers profound insights about Tolstoy, historical understanding, and human psychology. This new edition features a revised text that supplants all previous versions, English translations of the many passages in foreign languages, a new foreword in which Berlin biographer Michael Ignatieff explains the enduring appeal of Berlin's essay, and a new appendix that provides rich context, including excerpts from reviews and Berlin's letters, as well as a startling new interpretation of Archilochus's epigram.

[The Second World War Rosetta Books](#)

The much-anticipated third volume of Churchill's fascinating papers.

[In Search of Churchill Good Press](#)

Forms part of the official biography of Winston Churchill, consisting of eight narrative volumes and twenty-three planned document volumes.
