The Italian company Nanni diesel
was created in 1952 in Milan for
the production of marine engines
based on land diesel engines.

Initially, the company adapted
only Farymann models for the
water area, but later, increasing its
production capacity and
engineering staff, Nanni diesel
significantly expanded the range of

its partners.

Engine Panel With Ammeter =
Dangerous. If your Universal
engine panel looks like this, and
has an ammeter, you are due for
some critically important wiring
upgrades.. The factory wiring,
with an ammeter in the panel, is
flat out dangerous and this
wiring mess really needs to be
addressed. It amazes me how
many boats are out there still
using this amazingly unsafe set
up.
