To answer this question, it ' s probably easiest to select an HTTP message and explore the details of the TCP packet used to carry this HTTP message, using the “ details of the selected packet header window ” (refer to Figure 2 in the “ Getting Started with Wireshark ” Lab if you ' re uncertain about the Wireshark windows.

Wireshark Lab TCP Solution ~ My Computer Science Homework

The focus of ECEN 5613 Embedded System design is on learning the fundamentals of hardware and firmware development, and not on learning any particular processor. Students in Embedded System Design will be using multiple processors, including the Siemens C501, Atmel AT89C51RC2, and TI MSP432 (ARM Cortex-M4F).
