Keep in mind that the longer your wiring run from the battery to switch panel is, the more voltage drop you'll have (more about voltage drop).

Prevent voltage drop by using larger cable. The power cables will be run to your New Wire Marine custom marine switch panel and your tinned marine negative bus bar.

WIRING DIAGRAMS Repair Guide - AutoZone

Engine Will Not Start. Typically, when injectors fail, the solenoids often short internally

causing a drop in resistance. If the specification calls for 3 ohms and an injector measures only 1 ohm, it will pull more current.
