Jan Merete Weiss's Italy comes to life as Captain Natalia Monte of the Naples Carabinieri returns to investigate a murder committed at the heart of the great city's art community. When the bodies of two men are found, shockingly posed, in the garden of an elderly countess, Captain Natalia Monte of the Carabinieri is assigned the case. Soon she finds herself shuttling between Naples's decadent art galleries and violent criminal underworld. If she is to succeed in solving the heinous crime, Natalia must deal with not only her own complicated past and allegiances, but also those of the city as a whole. A riveting and poetic exploration of the violence that lurks in the heart of beauty.

The final thriller in the million-copy-selling Katie Maguire series. In the driver's seat of a Jaguar, on a

country road, a good man burns. Justice Garrett Quinn should have been at a sentencing. He was one of the good ones, fighting for order in a lawless world. In a burned-out car, on the outskirts of Cork, DS Katie Maguire finds what's left of him. But this is only the beginning. The judge's death sparks a gang war fought with bullets and bombs, and civilians are caught in the crossfire. As the city spirals deeper into violence, Ireland's most fearless detective must find the courage to fight for her hometown one last time. Katie Maguire is no stranger to sacrifice – but she has lost so much already. Facing new horrors each day, Katie must decide: can she do her duty when she has nothing left to give? Praise for Graham Masterton: 'One of this country's most exciting crime novelists. If you have not read one, read them all now' Daily Mail. NATIONAL BESTSELLER • The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword. “Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection.” —The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup “unicorn” promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by

investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes's worth at an estimated \$4.5 billion. There was just one problem: The technology didn't work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees.

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully

repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I

cut his throat.” Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers’ flight, Capote’s account is so detailed that the reader comes to feel almost like a participant in the events.

The Physical Lincoln Harper Collins

In this succinct study, Edna Greene Medford examines the ideas and events that shaped President Lincoln’s responses to slavery, following the arc of his ideological development from the beginning of the Civil War, when he aimed to pursue a course of noninterference, to his championing of slavery’s destruction before the conflict ended. Throughout, Medford juxtaposes the president’s motivations for advocating freedom with the aspirations of African Americans

themselves, restoring African Americans to the center of the story about the struggle for their own liberation. Lincoln and African Americans, Medford argues, approached emancipation differently, with the president moving slowly and cautiously in order to save the Union while the enslaved and their supporters pressed more urgently for an end to slavery. Despite the differences, an undeclared partnership existed between the president and slaves that led to both preservation of the Union and freedom for those in bondage. Medford chronicles Lincoln’s transition from advocating gradual abolition to campaigning for immediate emancipation for the majority of the enslaved, a change effected by the military and by the efforts of African Americans. The author argues that many players—including the abolitionists and Radical Republicans, War Democrats, and black men

and women—participated in the drama through agitation, military support of the Union, and destruction of the institution from within. Medford also addresses differences in the interpretation of freedom: Lincoln and most Americans defined it as the destruction of slavery, but African Americans understood the term to involve equality and full inclusion into American society. An epilogue considers Lincoln’s death, African American efforts to honor him, and the president’s legacy at home and abroad. Both enslaved and free black people, Medford demonstrates, were fervent participants in the emancipation effort, showing an eagerness to get on with the business of freedom long before the president or the North did. By including African American voices in the emancipation narrative, this insightful volume offers a fresh and welcome perspective

on Lincoln’s America.

A radical reinterpretation of America's greatest president. Where previous Lincoln biographers describe his temperament as "moderate," "passive," or even "conservative," historian Richard Striner offers a stunningly original

perspective that will shed significant new light on one of the most studied figures in American history. Striner shows Lincoln's audacity as no other book has ever done. By emphasizing the workings of Lincoln's mind—stressing his cunning, his overall honesty, strategic thinking—even his ability to change his mind—Striner looks anew at many topics and themes important to Lincoln's story that either revise or add new meaning to the work of previous biographers. His insights into Lincoln's life, but also into antebellum America, and the military and political history of the Civil War, make this book indispensable for well-read armchair historians, seasoned students of Lincoln, the Civil War, or the American presidency and newcomers alike.

Phlebotomy uses large, hollow needles to remove blood specimens for lab testing or blood donation. Each step in the process carries risks - both for patients and health workers. Patients may be bruised. Health workers may receive needle-stick

injuries. Both can become infected with bloodborne organisms such as hepatitis B, HIV, syphilis or malaria. Moreover, each step affects the quality of the specimen and the diagnosis. A contaminated specimen will produce a misdiagnosis. Clerical errors can prove fatal. The new WHO guidelines provide recommended steps for safe phlebotomy and reiterate accepted principles for drawing, collecting blood and transporting blood to laboratories/blood banks.

“High stakes, big heart, and lots of Black Girl Magic...unputdownable.” —Aiden Thomas, New York Times bestselling author of Cemetery Boys A rich, dark urban fantasy debut following a teen witch who is given a horrifying task: sacrificing her first love to save her family's magic. The problem is, she's never been in love—she'll have to find the perfect guy before she can kill him. After years of waiting for her Calling—a trial every witch must pass to come into their powers—the one thing Voya

Thomas didn't expect was to fail. When Voya's ancestor gives her an unprecedented second chance to complete her Calling, she agrees—and then is horrified when her task is to kill her first love. And this time, failure means every Thomas witch will be stripped of their magic. Voya is determined to save her family's magic no matter the cost. The problem is, Voya has never been in love, so for her to succeed, she'll first have to find the perfect guy—and fast. Fortunately, a genetic matchmaking program has just hit the market. Her plan is to join the program, fall in love, and complete her task before the deadline. What she doesn't count on is being paired with the infuriating Luc—how can she fall in love with a guy who seemingly wants nothing to do with her? With mounting pressure from her family, Voya is caught between her morality and her duty to her bloodline. If she wants to save their heritage and Luc, she'll have to find something her ancestor wants more than blood. And in witchcraft, blood is everything.

A Drop of Blood Harper Collins
James Church's Inspector O novels have been hailed as "crackling good" (The Washington Post) and "tremendously clever" (Tampa Tribune), while Church himself has been embraced by critics as "the equal of le Carré" (Publishers Weekly, starred). Now Church—a former Western intelligence officer who pulls back the curtain on the hidden world of North Korea in a way that no one else can—comes roaring back with a new novel introducing Inspector O's nephew, Major Bing, the long-suffering chief of the Chinese Ministry of State Security operations on the border with North Korea. The last place Bing expected to find the stunningly beautiful Madame Fang—a woman Headquarters wants closely

watched—was on his front doorstep. Then, suddenly as she shows up, Madame Fang mysteriously disappears across the river into North Korea, leaving in her wake both consternation and a highly sensitive assignment for Bing to bring back from the North a long missing Chinese security official. Concerned for his nephew's safety, O reluctantly helps him navigate an increasingly complex and deadly maze, one that leads down the twisted byways of O's homeland. In the tradition of Philip Kerr's Berlin Noir trilogy, and the Inspector Arkady Renko novels, *A Drop of Chinese Blood* presents an unfamiliar world, a perplexing universe where the rules are an enigma to the reader and even, sometimes, to Inspector O. Once again, James Church

has crafted a story with beautifully spare prose and layered descriptions of a country and a people he knows by heart.

A Stray Drop of Blood Simon and Schuster
This book is the outgrowth of one of J. Stephen Funk's major injury lawsuits, one in the 1970s, where the dishonesty and a "conspiracy of silence" by the medical profession supported a negligent doctor's efforts to maintain his exalted and privileged place in society. In real life, he exposed the doctor's duplicity for all to see, and provided an orphaned child just legal compensation for the loss of her young and innocent mother. In "Last Drop of Blood," the heartless and amoral doctor, his wife and her father will stop at nothing to conceal the truth. The widowed husband and a courageous, young nurse provide the help a relentless attorney needs to expose the conspiracy.

Through twists and turns, the unexpected ending reveals itself to be more just and satisfying than predictable.
