To many antebellum Americans, Appalachia was a frightening wilderness of lawlessness, peril, robbers, and hidden dangers. The extensive media coverage of horse stealing and scalping raids profiled the region's residents as intrinsically violent. After the Civil War, this characterization continued to permeate perceptions of the area and news of the conflict between the Hatfields and the McCoys, as well as the bloodshed associated with the coal labor strikes, cemented Appalachia's violent reputation. *Blood in the Hills: A History of Violence in Appalachia* provides an in-depth historical analysis of hostility in the region from the

late eighteenth to the early twentieth century. Editor Bruce E. Stewart discusses aspects of the Appalachian violence culture, examining skirmishes with the native population, conflicts resulting from the region's rapid modernization, and violence as a function of social control. The contributors also address geographical isolation and ethnicity, kinship, gender, class, and race with the purpose of shedding light on an often-stereotyped regional past. *Blood in the Hills* does not attempt to apologize for the region but uses detailed research and analysis to explain it, delving into the social and political factors that have defined Appalachia throughout its violent history.

This book is the outgrowth of one of J. Stephen Funk's major injury lawsuits, one in the 1970s, where the dishonesty and a "conspiracy of silence" by the medical profession supported a negligent doctor's efforts to maintain his exalted and privileged place in society. In real life, he exposed the doctor's duplicity for all to see, and

provided an orphaned child just legal compensation for the loss of her young and innocent mother. In "Last Drop of Blood," the heartless and amoral doctor, his wife and her father will stop at nothing to conceal the truth. The widowed husband and a courageous, young nurse provide the help a relentless attorney needs to expose the conspiracy. Through twists and turns, the unexpected ending reveals itself to be more just and satisfying than predictable.
