The Witte Iron Works was a maker of hit and miss engines. The company was started in 1870 by August Witte in Kansas City. His son Ed Witte built the company's first crude gasoline engine in 1886. In 1894 gas engines would be the company's primary focus. They made the Witte's Junior Headless engine, Witte portables, and a Dragsaw. In 1911 they started manufacturing the Simplicity line of engines.

[1943 Witte Dieselectric generator - new/old stock ...](#)

The exhaust valve in the cylinder head is operated by a cam from the timing gear, and the ignition is also timed from this same gear. On battery equipped engines, the battery timer blade comes in contact with the exhaust cam at the proper time for both the regular running spark, and the retarded starting spark.

"Headless" Models, 1-1/2 to 22HP: Made from 1911-1922 these engines came in 1 1/2-22HP. Witte (Some pronounce it Wit and other's Witty) provided owner's with a better than average instruction book, but their part's list along with lack of any ID on their castings leave something to be desired for today's part's dealers.

[A WITTE PAIR - Diesel World](#)

Steve Phillips did just that - he managed to secure a 1943 Witte upright Dieselectric 2.5kw generator that hadn't been run more than just a test. The seller had two, with a fairly complete duplicate set of repair parts: Gaskets, valves, belts, etc. Probably purchases as a pair to generate electricity in an out-of-the way location, the idea of redundancy is not all that unusual.
