Witte Engines

Witte Engine Information

In 1911, Witte embarked on an entirely new engine line. The model of simplicity, these engines were the first Witte models to carry the walking-beam valve mechanism that characterized the entire Witte line until November, 1923. Engines available in 1916 included portables in 2, 6, 8, 12, 16 and 22 horsepower sizes.

Rare Witte Engine Saved from A Salvage Yard

Witte built 12,500 engines, most of which were used in Dieselectric units. In 1944, United States Steel purchased Witte and operated them as a separate entity in their Oilfield Supply Division. In 1947, Witte introduced the B and C series horizontal engines, which were based on the older designs but with enclosed valvetrains and other improvements.
