2012 GCSE English results Routledge

The renowned and highly experienced editors of this book bring together the leading voices in contemporary English education under the banner of the International Federation for the Teaching of English (IFTE). The collected chapters here represent the very best of international writing on the teaching of English in the past decade. The key issues and debates surrounding English teaching across the globe are discussed and analysed accessibly, and incorporate wide-ranging topics including:

- The impact of high stakes testing on teaching and learning;
- Addressing the needs of minority groups;
- The digitization of literature and new conceptions of text;
- Rewriting the canon;
- Dealing with curriculum change;
- "Best practices" in the teaching of English;
- The tension between 'literacy' and 'English';
- English and bilingual education;
- The impact of digital technologies on teaching and learning;
- Conceptions of English as a subject [secondary and tertiary];
- Bringing the critical into the English/Literacy classroom;
- The future of subject English;
- Empowering voices on the margins;
- Pre-service teacher education;
- The social networking English classroom.

This text looks at the changing face of subject English from the differing perspectives of policy makers, teacher educators, teachers and their students. It tackles some of the hard questions posed by technological advances in a global society, challenges conventional approaches to teaching and points to the emerging possibilities for a traditional school subject such as English in the face of rapid change and increasing societal expectations. Despite all of the converging political and technological threats, the authors of this engaging and insightful text portray an immense confidence in the ultimate worth of teaching and learning subject English.

WJEC GCSE Geography Nelson Thornes

Despite their removal from England's National Curriculum in 1988, and claims of elitism, Latin and Greek are increasingly re-entering the 'mainstream' educational arena. Since 2012, there have been more students in state-maintained schools in England studying classical subjects than in independent schools, and the number of schools offering Classics continues to rise in the state-maintained sector. The teaching and learning of Latin and Greek is not, however, confined to the classroom: community-based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends, in universities as part of outreach, and even in parks and in prisons. This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities, and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century. The role of classical languages within the English educational policy landscape is examined, as new possibilities exist for introducing Latin and Greek into school curricula. The state of Classics education internationally is also investigated, with case studies presenting the status quo in policy and practice from Australasia, North America, the rest of Europe and worldwide. The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors, who conjecture what strategies are conducive to success.

How to Read Texts The Stationery Office

Francis Joseph Cassavant is 18. He has just returned home from the Second World War, and he has no face. He does have a gun and a mission: to murder his childhood hero. Francis lost most of his face when he fell on a grenade in France. He received the Silver Star for bravery, but was it really an act of heroism? Now, having survived, he is looking for a man he once admired and respected, a man adored by many people, a man who also received a Silver Star for bravery. A man who destroyed Francis' life.

WJEC Eduqas GCSE English Literature Letts GCSE 9-1 Revision Success

The 2012 GCSE English results prompted significant controversy, which ultimately resulted in an application for judicial review. This report sets out the background to these events and identifies lessons to be learned. The problems with GCSE English can be traced back to the 2007-09 development phase of the qualification- in particular the turbulence which resulted from the shift away from a mostly linear to a modular system, combined with a high proportion of controlled assessment and generous marking tolerances. Exam board experts raised concerns at the time, but these were not acted upon by the regulator (the then-interim Ofqual). Further difficulties arose

because of pressures from the school accountability system. The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening, with consequences for grade awarding. The current status of Ofqual, as an independent regulator accountable to Parliament, is the right one. However, the Coalition Government is bringing in wholesale changes to GCSEs and A levels, to a tight timetable and at the same time. Ofqual must have systems in place. The Committee is also concerned that there is a rush towards separate exam systems for England, Wales and Northern Ireland, without careful reflection on what might be lost, or consensus that this is the right thing to do.
