*Racecraft: The Soul of Inequality in American Life* Hill and Wang Gods once wielded this kind of power. Now it's ours. The forces of the universe respond to our will and we shape a world in our image. We are the celebrities, the heroes, the villains, the legends, the shining icons of our times. We are novas, and we will bring about a new golden Age... and you will like it. Golden age -- or Hell on Earth? To the residents of the Trinity Universe, the 21st century was a monstrous era when mad gods ran rampant across the world. But is this truth -- or OpNet propaganda? What was the Age of Aberrants really like? Find out the truth. It's not what you expect. Aberrant is a core rulebook and prequel to the Trinity science-fiction game. Set in the early 21st century, before the devastating war against humanity, this new complete roleplaying game allows you to be one of these doomed beings of vast power, and to experience their struggles to avoid the coming cataclysm. Logical Reasoning Penguin Addressing a field that has been dominated by astronomers, physicists, engineers, and computer scientists, the contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. These scholars are grappling with some of the enormous challenges that will face humanity if an information-rich signal emanating from another world is detected. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.

Fabulous Creatures, Mythical Monsters, and Animal Power Symbols Createspace Independent Publishing Platform This book discusses two of the oldest and hardest problems in both science and philosophy: What is matter?, and What is mind? A reason for tackling both problems in a single book is that two of the most influential views in modern philosophy are that the universe is mental (idealism), and that the everything real is material (materialism). Most of the thinkers who espouse a materialist view of mind have obsolete ideas about matter, whereas those who claim that science supports idealism have not explained how the universe could have existed before humans emerged. Besides, both groups tend to ignore the other levels of existence—chemical, biological, social, and technological. If such levels and the concomitant emergence processes are ignored, the physicalism/spiritualism dilemma remains unsolved, whereas if they are included, the alleged mysteries are shown to be problems that science is treating successfully.

**Unwanted Protector** Llewellyn Worldwide Readers of Lisa Jackson and Lucinda Berry will be thrilled by this stunning tale of suspense from a New York Times bestselling author. Even the most exclusive universities can't out a stalker in the latest in this USA Today bestselling series when a brilliant professor and an ex-Deep Ops agent will have to outwit an obsessive killer. “Zanetti is a master.” —Kirkus Reviews Run: Gemma Falls never expected to use her game theory expertise to outrun a killer. But for years, that skill is all that kept her one step ahead of a deadly stalker. When Gemma gets the chance to teach at D.C. University, she hopes she and her young daughter have found a safe harbor. The only flaw is the arrogant philosophy professor who's always underfoot giving unwanted advice—in his sexy British accent . . . Hide: Jethro Hanson has blood on his hands. He's working within ivy-covered university halls now, but he knows that his work with the Deep Ops team and the deadly acts he once committed for the sake of Queen and country place him beyond forgiveness—until he meets Gemma . . . Seek: Soon, the passion between them stuns them both. But when Jethro discovers a threat is fast overtaking her, he must choose between the redemption he seeks—and releasing the ever-present killer inside . . . Praise for Driven “Zanetti still makes time to dig into her characters’ psyches in the midst of the action, adding nuance to the exciting plot.” —Publishers Weekly “The story moves fast, and there’s an unexpected twist or two, as well as a scene-and-booze-stealing German Shepherd that provides a little levity to this dark and satisfying romantic thriller.” —Bookpage Archaeology Anthropology and Interstellar Communication Springer Science & Business Media Special Agent in Charge Seraphine Thomas lives for her job at the FBI. One of the youngest female agents with her own team, she thrives in

undercover work to make the city she loves safer. But Sera's on-track life is thrown into chaos when she's attacked during a bust gone bad and is left figuring out what it means to be a werewolf. Right away, she learns that she's more powerful and able to do things that she shouldn't be able to do so quickly after her transition. The rules of her old life don't seem to apply to much now that she's a shifter, and knowing who she can trust is even more complicated. When she's transferred to a special branch of the FBI made up of paranormals policing others of their kind and given a promotion, things start looking up-until her abnormal level of power creates a list of enemies for her before she's even learned who her allies are. *Wolf Protector* Bloodlines of the Illuminati Two A.L.F.A. adventures—Elemental Mating and Mating Needs—are available in one volume for the first time and feature two of the hottest shifters agents around. ELEMENTAL MATING Brilliant scientist Melinda Caster has discovered a new strain of the Zika virus that stimulates synaptic growth in embryos, causing neuron development beyond normal human levels. When her lab is broken into, Melinda realizes that someone has been keeping tabs on her research and wants it for themselves. A.L.F.A. sends in jaguar-shifter Agent Parish Hamel to help Melinda discover who is after the virus and why. But the attraction between Parish and Melinda may be the real discovery. MATING NEEDS Amerella Capone is the great-grandniece of the infamous Al Capone, and she won't let anyone in the Las Vegas Mafia forget it. When Amerella unintentionally stumbles upon bad family business that she wants no part of, she becomes a star witness for a high-profile government case. A.L.F.A. is called in to keep Amerella safe, but cougar-shifter Agent François Dubois has history with his charge, and the secrets between them might do more damage than any gun pointed at his head. Protector Wolf (Mills & Boon Nocturne) (Alpha Force, Book 11) White Wolf Games Studio This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course. **What's a Witch to Do?** Open Road Media What Happens Under a Full Moon... *Resisting the Moon* Sourcebooks, Inc. A New York Times Notable Book and Hugo and Nebula Award Finalist: This epic chronicle of ten immortals over the course of history “succeeds admirably” (The New York Times). The immortals are ten individuals born in antiquity from various cultures. Immune to disease, able to heal themselves from injuries, they will never die of old age—although they can fall victim to catastrophic wounds. They have walked among mortals for millennia, traveling across the world, trying to understand their special gifts while searching for one another in the hope of finding some meaning in a life that may go on forever. Following their individual stories over the course of human history and beyond into a richly imagined future, “one of science fiction’s most revered writers” (USA Today) weaves a broad tapestry that is “ambitious in scope, meticulous in detail, polished in style” (Library Journal). **Accidentally Wolf** Books by L.P. Dover, LLC This book was the end product of life experiences, thoughts and intellectual wanderings of the author, who through his career and for the last twenty years was always serving all the three aspects of a Psychiatrist: He is a clinician, a researcher and an academic teacher. The book includes a comprehensive history of Psychiatry since antiquity and until today, with an emphasis not only on main events but also specifically and with much detail and explanations, on the chain of events that led to a particular development. At the center of this work is the

question ‘What is mental illness?’ and ‘Does free will exist?’. These are questions which tantalize Psychiatrists, neuroscientists, psychologists, philosophers, patients and their families and the sensitive and educated lay persons alike. Thus, the book includes a comprehensive review and systematic elaboration on the definition and the concept of mental illness, a detailed discussion on the issue of free will as well as the state of the art of contemporary Psychiatry and the socio-political currents it has provoked. Finally the book includes a description of the academic, social and professional status of Psychiatry and Psychiatrists and a view of future needs and possible developments. A last moment addition was the chapter on conspiracy theories, as a consequence of the experience with the social media and the public response to the COVID-19 outbreak which coincided with the final stage of the preparation of the book. Their study is an excellent opportunity to dig deep into the relation among human psychology, mental health, the society and politics and to swim in intellectually dangerous waters. **Matter and Mind** punctum books Skylar Milan has had it with the fashion industry and their beauty standards. She misses her family and she really misses carbs. The things she'd do for a piece of bread would get her arrested. The last thing expected during her flight home was to have her hunger for a delicious cheese sandwich be replaced with a different type of hunger. One that has her banging the cute doctor in the airplane bathroom. But whatever. She had a good time and it's not like she's ever going to see him again, right? Oh how wrong she was. Dr. Gray Hart is in town for a very serious meeting with world leaders. The technology he's discovered could change the world as we know it. Knowing he is being followed, he goes to Nick Milan, looking to hire a bodyguard. When the beautiful Skylar is assigned to him, Gray can't believe his luck. He hasn't stopped thinking about her since their passionate encounter and induction in the mile-high club. Now he wants to have her bare and laid out on a bed where he can really lose himself in her. Except, he can't. She's a shifter and he's a weak human. Things go horribly wrong during his meeting and an attack leaves Gray at death's door. It's only with a scientific wonder of serum that he escapes death. And becomes something out of his deepest fantasies. He's a shifter and he's stronger than he ever imagined. Now he can really tear Skylar's clothes off without missing a beat. He still has to prove to Skylar that he is the right man for her. But first, he has to save the world...Reader's Note: Get ready for action, romance, humor, and so much heat your e-reader is gonna fog up. Enjoy. *Innumeracy* Sourcebooks, Inc. Eason provides an extensive overview of the mythology, legends, and folklore surrounding fabulous and strange fantasy creatures from different lands and ages, from Chinese dragons and the Native North American thunderbird to the demon hounds of Celtic and Norse legend. She describes how in various ages and cultures people have identified with the idealized qualities of wise creatures as a source of power and better understanding of their own personalities and used the behavior of birds and other sacred creatures to gain oracular information in Ancient Egypt and the Classical and Celtic worlds. This book offers both traditional and little known folklore and legend about familiar real life creatures such

as the horse, the cat, and the raven and delves into the weird and wonderful world of saints who claimed to change into deer and modern cryptozoological monsters such as Bigfoot, Mothman, and lake and sea monsters, as well as the rationale behind animal or headed deities of the Aztecs, Egyptians, and Celts in whose name people went to war.

**Federal Paranormal Unit Series** Cato Institute Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to "talk" due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been "talking," he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. "Bill Cooper is the world's leading expert on UFOs." -- Billy Goodman, KVEG, Las Vegas. "The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long." -- Anthony Hilder, Radio Free America "William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world." -- Mills Crenshaw, KTALK, Salt Lake City. "Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands." -- William Cooper, October 24, 1989.

**Unforgiven** Bradley Dowden Galvez is unapproachable, grumpy. He's always a team player, but a loner when not on assignment. His philosophy? Get in, get it done, get out. But the individuals in this particular case aren't making things easy. Several have gotten under his skin, and the mission is beginning to feel uncomfortably personal. One, brilliant, compelling woman in particular has him rethinking his reclusiveness, propelling him toward making the biggest reveal of his life. Bambu's existence has been turned upside-down. She's forced to work for her evil brother, caretake her five-year-old sister, and babysit a galaxial menagerie. She's barely taken all that in stride when the enigmatic Galvez is thrust into her solar system. What's she to do when he offers her hope and the potential for a strong partnership...strings attached?

**The Troll Inside You** Springer Nature Living on a damaged planet challenges who we are and where we live. This timely anthology calls on twenty eminent humanists and scientists to revitalize curiosity, observation, and transdisciplinary conversation about life on earth. As human-induced environmental change threatens multispecies livability, Arts of Living on a Damaged Planet puts forward a bold proposal: entangled histories, situated narratives, and thick descriptions offer urgent "arts of living." Included are essays by scholars in anthropology, ecology, science studies, art, literature, and bioinformatics who posit critical and creative tools for collaborative survival in a more-than-human Anthropocene. The essays are organized around two key figures that also serve as the publication's two openings: Ghosts, or landscapes haunted by the violences of modernity; and Monsters, or interspecies and intraspecies sociality. Ghosts and Monsters are tentacular, windy, and arboreal arts that invite readers to encounter ants, lichen, rocks, electrons, flying foxes, salmon, chestnut trees, mud volcanoes, border zones, graves, radioactive waste—in short, the wonders and terrors of an unintended epoch. **Federal Paranormal Unit Series** HarperCollins UK What do medieval Icelanders mean when they say "troll"? What did they see when they saw a troll? What did the troll signify to them? And why did they see them? The principal subject of this book is the Norse idea of the troll, which the author uses to engage with the larger topic of paranormal experiences in the medieval North. The texts under study are from 13th-, 14th-, and 15th-century Iceland. The focus of the book is on the ways in which paranormal experiences are related and defined in these texts and how those definitions have framed and continue to frame scholarly interpretations of the paranormal. The book is partitioned into numerous brief chapters, each with its own theme. In each case the author is not least concerned with how the paranormal functions within medieval society and in the minds of the individuals who encounter and experience it and go on to narrate these experiences through intermediaries. The author connects the paranormal encounter closely with fears and these fears are intertwined with various aspects of the human experience including gender, family ties, and death. The Troll Inside You hovers over the boundaries of scholarship and literature. Its aim is to prick and provoke but above all to challenge its audience to reconsider some of their preconceived ideas about the medieval past.
