Failed an exam, bungled an interview, screwed up a relationship, broken your diet, or stuffed up at work? Your brain is the key to getting back on track. Change your life for the better. Learn how to 'rubberise' your brain, making it more flexible and resilient. Deal with challenges in an optimal way, and 'bounce' back from adversity. Your brain controls your conscious thoughts and behaviours, like deciding whether to study or party, or whether to get two scoops of gelato or six. And when you find yourself doing things that you wish you hadn't done (like all that gelato), it's likely your brain has indulged in what psychological scientists call suboptimal thinking. Essentially, your brain doesn't always deliver the kind of thinking that leads to desired positive outcomes, such as maintaining supportive friendships, and doing well in your work, studies and social life. But you and your brain can do better. In this book, five leading psychological educators show you simple tools derived from solid science covering everything from positive psychology to goal setting, from mindfulness to CBT, and from emotional regulation to moral reasoning, to optimise your thinking. Using a model they have developed over years of study and application you can discover how resilience and psychological flexibility combine to allow you to choose ways of thinking in response to different situations that will produce the best outcome for you for that situation. Read this book and learn how to optimally tackle issues of motivation, stress, time-management, and relationship maintenance. Your mind will be clearer and your life better.

A BEST BOOK OF 2018 SELECTION NPR * The Washington Post * Book Riot * Autostraddle * Psychology Today ***A BEST FEMINIST BOOK SELECTION*** Refinery 29, Book Riot, Autostraddle, BITCH Rage Becomes Her is an "utterly eye opening" (Bustle) book that gives voice to the causes, expressions, and possibilities of female rage. As women, we've been urged for so long to bottle up our anger, letting it corrode our bodies and minds in ways we don't even realize. Yet there are so, so many legitimate reasons for us to feel angry, ranging from blatant, horrifying acts of misogyny to the subtle drip, drip drip of daily sexism that reinforces the absurdly damaging gender norms of our society. In *Rage Becomes Her*, Soraya Chemaly argues that our anger is not only justified, it is also an active part of the solution. We are so often encouraged to resist our rage or punished for justifiably expressing it, yet how many remarkable achievements would never have gotten off the ground without the kernel of anger that fueled them? Approached with conscious intention, anger is a vital instrument, a radar for injustice and a catalyst for change. On the flip side, the societal and cultural belittlement of our anger is a cunning way of limiting and controlling our

power—one we can no longer abide. "A work of great spirit and verve" (Time), *Rage Becomes Her* is a validating, energizing read that will change the way you interact with the world around you.

Women Who Love Too Much W. W. Norton & Company

A collection of feminist essays steeped in "Solnit's unapologetically observant and truth-speaking voice on toxic, violent masculinity" (The Los Angeles Review). In a timely and incisive follow-up to her national bestseller *Men Explain Things to Me*, Rebecca Solnit offers sharp commentary on women who refuse to be silenced, misogynistic violence, the fragile masculinity of the literary canon, the gender binary, the recent history of rape jokes, and much more. In characteristic style, "Solnit draw[s] anecdotes of female indignity or male aggression from history, social media, literature, popular culture, and the news... The main essay in the book is about the various ways that women are silenced, and Solnit focuses upon the power of storytelling—the way that who gets to speak, and about what, shapes how a society understands itself and what it expects from its members. The Mother of All Questions poses the thesis that telling women's stories to the world will change the way that the world treats women, and it sets out to tell as many of those stories as possible" (The New Yorker). "There's a new feminist revolution—open to people of all genders—brewing right now and Rebecca Solnit is one of its most powerful, not to mention beguiling, voices." —Barbara Ehrenreich, *New York Times* — bestselling author of *Natural Causes* "Short, incisive essays that pack a powerful punch." —Publishers Weekly "A keen and timely commentary on gender and feminism. Solnit's voice is calm, clear, and unapologetic; each essay balances a warm wit with confident, thoughtful analysis, resulting in a collection that is as enjoyable and accessible as it is incisive." —Booklist

For the last twenty years, Melinda Gates has been on a mission to find solutions for people with the most urgent needs, wherever they live. Throughout this journey, one thing has become increasingly clear to her: If you want to lift a society up, you need to stop keeping women down. In this moving and compelling book, Melinda shares lessons she's learned from the inspiring people she's met during her work and travels around the world. As she writes in the introduction, "That is why I had to write this book—to share the stories of people who have given focus and urgency to my life. I want all of us to see ways we can lift women up where we live." Writing with emotion, candor, and grace, she introduces us to remarkable women and shows the power of connecting with one another. When we lift others up, they lift us up, too.

Rage Becomes Her Pantheon

Professor Lou Marinoff's first book drew on the wisdom of the great philosophers to solve our everyday problems, launching a movement that restored philosophy to what it once was: useful in all walks of life. Now, in *The Big Questions*, he takes the concept to the next level, applying centuries of philosophy and great literature to answer central questions of modern existence. Urging us not to accept victimhood as the by-product of modern life, Professor Marinoff uses specific case studies from his counseling practice to show how wisdom from the great thinkers can help us define our own philosophy, and thereby reclaim our sense of well-being. He asks and answers questions that go to the heart of the human condition: How do we know what is right? How can we cope with change? Why can't we all get along? And, most centrally, how can we use the centuries of wisdom that have come before us to help us answer these questions and feel at ease in the world? Accessible, entertaining, and profoundly useful, *The Big Questions* mixes wisdom from the great thinkers with specific case studies to illuminate how a shift in perspective can truly be life changing. Lou Marinoff is the author of the international hit *Plato, Not Prozac!*, which has been published in twenty languages. A professor of philosophy at the City College of New York, Marinoff is also the founding president of the American Philosophical Practitioners Association. Praise for *Plato, Not Prozac!*:

'What exactly is philosophical practice? Marinoff calls it 'therapy for the sane.' In a nutshell, it's using the 2,500-year-old tradition of philosophy to solve everyday problems, like work, relationship and family issues. It's a return to what philosophy was meant to be - a guideline for a way of life.' -Salon.Com 'Plato, Not Prozac! looks to become the bible of the "philosophical counseling" movement.' -Philadelphia Inquirer Magazine 'The ancient think
