traditional Snake Cube Puzzle 3x3x3 (that contained 27 blocks) this 4x4x4 with its 64 blocks is significantly difficult from the popular snake cube. The objective here is to uncoil the cubes into a straight line and reassemble the cube to its 4x4x4 cube shape.

#### How to solve a 4X4X4 snake cube

There are also versions of the snake cube where it is easy to make a cube, but where the aim is to make one with a particular colour pattern. I will not discuss those here. One of the hardest versions of the snake cube is Kev's Kubes (version 9B), made by Trench Puzzles. It is made from wood, alternately coloured white and black.

This is made of wood -  
and comes in the shape  
of a cube - but unfolds to  
a "snake" It is really easy  
to unwind the cube into  
the snake, but darn near  
impossible to get it back  
to a cube. Give one of  
these to one of your 'high-  
IQ' friends and see how  
long it takes her (or him)  
to figure it out. The best  
of the wooden puzzles I  
have EVER seen.

Easiest way on how to  
solve the 3x3 snake cube  
(Read description)

The wooden snake cube  
puzzle is made up of a long  
wooden chain of 27  
"cubelets." By intricately  
bending, placing and  
building the cubelets on top  
of one another, you can

create one solid cube. Each  
of the 27 cubelets is  
connected to one another  
with an elastic band on the  
inside to keep the cubes  
together, but still bendable.
